AN IRISH LOVE SONG BY FRANCIS DAVIS.

"Oh 1 for an hour when the day is breaking Down by the shore when the tide is making Pair as a white cloid, thou, love, near me, None but the waves and thyself to hear me Oh ! to my breast how these arms would press thee; Wildly my heart in its yoy would bless thee Oh ! how the sout thou hast won would would be

Girl of the snow-neck, closer to me !

Oh I for an hour as the day advances, (Out where the breeze on the broom

dances) Watching the lark, with the sun-ray o'er us, Winging the notes of his heaven-taught cho-

rus. Oh ! to be there, and my love before me, Seft as a moonbeam smiling o'er me; Thon would'st but love, and I would wou

thee; Girl of the dark eye, closer to me !

"Oh! for an hour when the sun first found us, (Out in the eve with its red sheets round us) Brushing the dew from the gale's soft wing-lets, Pearly and sweet, with thy long dark ring-lets:

lets: Oh? to be there on the sward beside thee, Telling my tale, though I know you'd chide

me: Sweet were thy voice though it should undo Cirl of the dark locks, closer to mo !

Oh! for an hour by night or by day, love. Just as the heavens and thou might say, love Far from the stare of the cold-eyed many, Bound in the breath of my dove-souled Nan

ny! Oh! for the pure chains that have bound me. Warm from thy red lips circling round me; Oh! in my soul, as the light above me, Queen of the pure hearts, do 1 love thee!"

-"Very like a whale."-Shaks.

A mighty knowing man was Caleb Page, who kept the grocery at the fork of the road, near Woodchuck creek, Scrag Hollow, in village of Hornville. No occurrence had ever taken place, of all the particulars of which Caleb did not possess a thorough knowledge, in the minutest detail. All matters in the perspective were anticipated, dis cussed, arranged and satisfactorily disposed disposed of by Caleb long before they took place. If neighbor rushed into the store to comm nicate what he believed to be a very recent

piece of news, he would have the conceit tak en out of him by being told by Caleb, that he 'had heard of it a week ago.' Events of the past, present and future, were all the same to him; his ubiquitous knowledge grasped and covered them all-to him were all 'stale news.'

A small bet was made one evening, tween Si Stevens and Joe Stubbins. Si bet hat Joe couldn't nonplus Caleb with any piece of intelligence, real or imaginary. Joe ok all such bets as that, -The following evening, Si and Joe, accompanied by two or three more of the 'boys' of the village, who were to 'help the thing along,' and 'fill in,' proceeded to Caleb's store. After being comfortably seated hore and there, on barrels, boxes, etc., Si opened the ovening's a musements by asking, in a manner that in. dicated he was continuing a conversation commenced before they entered the store :

ESSENCE OF COFFEE.

PHILAD': LPHIA. Fifteen years of extensive and aninterrupted practice spent in this city have rendered Dr. K. the most expert and successful practitioner far and near, in the treatment of all diseases of a private nature. Persons afflicted with ulcers on the body, throat or legs, pains in the head or bones, or percurial theumatism, strictures, gravel, disease arising from youthful excesses or impurities of the blood, whereby the consti-tution has become enfeebled, are all treated with success. A BOUT two years ago a new discovery was made in Europe, consisting of a substitute for the ordinary store coffee, called Essence of Coffee, which has gone into gen-eral use with astonishing rapidity, not only among the poorer classes, who at once dis-pensed with the use of the celebrated Chick-ory Coffee, but is now in general use in the wealthiest families and the first hotels, and is highly recommended by the medical fac-ulty.

t wealthies families and the first hotels, and is highly recommended by the medical fac-ulty. It is extracted from pure, wholesome veg-etables, and excels all similar preparations that have ever been offered to the public, either in this country or in Europe. Its su-perior quality has already been attested to in the cities by some of the most eminent phys-icians, and a number of the most distinguish-ed of the clergy and other highly respectable citizens. Coffee made from this essence ac-cording to the prescription obtains a more delicious and pleasant favor than the com-mon store coffee, and is certainly more wholesome, especially for persons in deli-cate health, which will be admitted by eve-ry physician who will take the pains to test the nature and properties of this essence. One paper costing only 122 cts., is equal to four pounds of store coffee, will be bright and clear without the application of any other ingredient to clarify or settle it. The public are therefore invited to give this es-sence at least a trial before they condemn it. A respectable merchant of Luzerne coun-ty in writing of it says: "My customers have been using of the above Essence for some months past with general eatisfaction ; and I do not hesitate to recommend it to the public. <u>HENDERSON GAYLORD.</u>" Manufactered by G. cca to every one they hear of who has need of a purifying medieme. So with Christiana Sands-her cure of Scrof-ulous sore threat was quite as extraordinary as Mr. Brooks', when we reflect that from the dis-ease her tea or coffice would frequently pass out of her ears, when attempting to understand, too that the various Syrups of Sarraparilla are little better than molasses, and that it is madness to throw away money on articles which, under the most favorable circumstances, do not produce any impression on the system until several gal-ons have been swallowed. One bottle of Dr. Cullen's Panacea seldom fails to produce con-viction in the minde of patients that a radical cure is certain. Thus hope, [so necessay, an ally to medi-cine.] springs up at the outset, and the patient is cured before any other preparation could have made the eligitast impression upon the disease! In fact, the twelve ounce bottles of Dr. Cullen's Panacea contains its correct. To sat the least. Sarsaparilla a good purifier? Dr. Cullen's Panacea contains its cortact in its most concen-trated form. Added to this are other extracts, more active and powerful, and which effect in combination with the Sarsaparilla, what the lat-ic article, or combined with the most powerfu-poions, cannot alone accomplish. It has cured where everything else had failed and this in a multitude of cases—not in Europe or in the moon, (where so many great cures have been performed.), but in Philadelphia and other pafis of the union. And be it distinetly understood that we do not obtain our extracts by "boiling 400 gallons down to one," it being known to every druggist's apprentice that boiling destoys the casential virtues of medicinal plants and rots. Digestion is Chiefly performed in the stemach by the aid of a fiold which freely exudes from the inner cost of that organ, when in a state of health, called the Gastrio Juice. This finid is the Great solvent of tho Food, the Prifying, Preserving, and Simula-ting Agent of the stomach and intensines. Without it there will be no digestion,—noe conversion of food into blood, and no nu-trition of the body; but rather a foul, torpid, painful, and destructive conditions of the whold digestive apparates. It is found in great abun-ach after de uth, and sometimes causes the stomach to digest itself, or est itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the matorial used by farmers in making cheese, called Rennet, the effect of which has long been the spe-cial wonder of the dairy. The curdling of milk is the first process of digestion. Ren-net possesse astonishing power. The stom-ach of a calf will curdle nearly one thou sand times its own weight of milk. Affinicial digestive funds, prepared from Fep-sin, as it is in the natural Gastrie Juice it-self." Professor Danglison of the Jefferson Col-lege, Philadelphia, in his great work on Ha-man Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr Beaumont, on the Gastric Juice, obtained from the living ha-man stomach and from animals are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as the natural digestions." As a DYSPEPSIA CURER, Dr Honghton's preparation of Pepsin has produced the most marvellous effects, curing cases of De-bility, Emaciation, Nervous Decline, and dispeptic Consumption, supposed to be on the very verge of the grave. It is imposs-ble to give the details of cases in the limit of this advertisement-but authenticate cértificates have been of more than two hai-dred Remarkable Cures, in Philadelphia, New York, Mad Boston alone.
