Veto Message of the Governor.

Executive Chamber, Harrisburg, May 4, 1854. To the Senate and House of Representatives:—GENTLEMEN: The following bills have been presented for my consideration and approval, and I hereby return the same without my assent, to the Senate in which they originated.

Bill No. 159, entitled an Act to incorporate the Donegal Deposit Bank, to be located at Marietta, Lehigh county; No. 215, entitled an Act to incorporate the Catawagus Deposit Bank at Catsaunogue, Lehigh county; bill No. 218, entitled an Act to incorporate the Farmers' Deposit Bank of Lehigh County; and bill No. 296, entitled an Act to incorporate the Mount Pleasant Savings Bank.

The principal objection to the bills under consideration, is that no adequate liability is imposed upon the Stockholders, for the protection of those who may be creditors of the institutions. It has become a settled principle, that in granting corporate privileges, where large private gains are expected, and the public deeply interested in the operations of an institution and its ability to meet its engagements, that the individuals whose associate shall be severally liable, in their private estates for the debts of such corporation.

This principle has been applied, very properly, to Banks of issue, and to Mining and Manufacturing Companies, and the public are certainly quite as much interested in the safety and solvency of a Bank deposit, as in these corporations.

Several rafts of lumber last week ran against the railroad bridge which spans the Susquehanna, below the mouth of Fishing-creek. The rafts were pretty well torn to pieces.

From the Reading Gazette.

By law of the State, the pay of Members of the Legislature is reduced to \$1.50 per day, after the expiration of one hundred days, should they continue so long in session. But the mode of other laws, this is a mere nominal reduction to cheat the people; for the Legislature invariably vote themselves full pay.

ARRIVAL OF THE AFRICA.

Three Days Later from Europe. The Royal Mail Steamer Africa arrived at New York with Liverpool dates to the 22d ult., three days later than last advices. She left Liverpool at 4 o'clock on the afternoon of Saturday, the 22d ult.

No intelligence has been received of the steamer Africa from Liverpool, since she was last seen off the coast of the Azores, on the 20th inst. It is generally supposed, however, that she is still on her way to New York.

FROM THE SEAT OF WAR ON THE DANUBE.

The Russians have advanced within 120 miles of Varna. The latest and most trustworthy accounts from the headquarters of Omar Pasha prove the urgent necessity of the allied forces arriving on the theatre of war without loss of time, if there be a desire to avoid, as General Baraguay d'Hilliers is said to have expressed it in one of his despatches, the repetition of the catastrophe of Snopce.

A competent person, who has very recently examined, and with the greatest attention, the line of Danube from Widles to Rascova, and who has very minutely scrutinized the effective force under the command of Omar Pasha, with its capabilities and organization, is not of opinion that it is able to meet the Russian army single-handed, or to oppose its onward march to the south.

No doubt is expressed as to the zeal, the enthusiasm, and the valor of the Turkish army, but the same authority declares that notwithstanding the wonderful efforts made by Omar Pasha to introduce regularly and order in the host he commands there is still a deplorable deficiency in these respects.

With the exception of Omar Pasha himself, who is admitted to be a man of much intelligence, and two or three others of the most talented and able military talents among the superior officers, and infinitely less among the subalterns.

The Turkish army of the Danube does not amount to more than 90,000 men, while the Russians have now 200,000 disposable and effective men in the Principalities and Bessarabia. Fortunately the presence of the allied fleets in the Black Sea renders it impossible for the Russians to obtain supplies from the coast, and a considerable portion of the immense force is employed in conveying provisions and stores to the Dordubudze.

An Austrian paper has the following telegraphic despatch. The important frontier town of Fokchau, in Wallachia, which had just been fortified, has been destroyed by fire. All the Russian stores, provisions, arms, clothing, ammunition and all the military hospitals, have fallen a prey to the flames. The Russians occupy Kosovje.

Thursday Evening.—In a former despatch you were informed that Russian troops had been seen on the Servian territory; this evening's papers have a communication from Orsova, of the 16th, which states that on the 14th the Russians occupied Turnu, Severin.

On the 15th the Cossacks crossed the Danube at New Orsova, a Turkish fortress on one of the Danubian islands, and occupied Warisierova. The Turks bombarded the place. According to these accounts, it is not clear whether a regular passage of the Danube is intended at that spot. It is also affirmed that all the Russian Ports in the Black Sea are declared in a state of blockade.

St. Petersburg, April 7.—An imperial ukase orders the calling in of all more reserves. It is estimated that this measure will increase the army by 120,000 men.

Governor BIGLER, on Thursday, vetoed four bills, for as many Savings Banks in various parts of the Commonwealth, and the Senate in which they originated, sustained the veto. A fortnight since he vetoed a bill granting special privileges to the New York County Bank.

The first-named, we consider one of the Governor's best and most conclusive State papers. Governor Bigler seems to be sound on the subject of the currency, and battles his way among the speculators in special privileges manfully. If he maintains his stand he need have no fear of the people sustaining him.

slavery and the trade of Cuba. The decrees regarding Cuban Slavery, have recently been promulgated by the Spanish Government. The most important requires a restriction of all the slaves in Cuba. A prohibition is to be allowed the master to sell his slaves registered, at the expiration of which every unregistered colored person is to be deemed free. Every negro is to carry about him a copy of his register, in which he is described, and which is to be a sort of passport to him. To discourage the increase and good treatment of slaves, there are to be premiums and exemptions. There is also to be a re-arrangement of the poll tax on slaves in order to discourage their use as domestics and increase the number of field hands.

The general plan, there is a long decree regulating and promoting the employment of white laborers from China and elsewhere to take the place of the domestic slaves who are to be removed to the plantations. Such is the plan and purpose of these new Spanish decrees for the abolition of the slave trade in Cuba, which have raised so much excitement in the minds of the filibusters, and induced Mr. Sillidell to propose filibustering to the United States Government as a preventive and capital scheme to secure the annexation of Cuba.

So far from Africanizing Cuba, by the enforcement of these decrees, there is nothing in them, promoting general emancipation. They are, wise and humane provisions for breaking up the slave trade between Africa and Cuba. The registration, if faithfully executed, will put a stop to the introduction of new slaves, and confine the growth and extension of the system to the natural increase of the domestic slaves, Spain, in executing these decrees, is but carrying out in good faith its obligations to the other civilized countries of the globe, and assisting them to put a stop to a traffic pronounced nefarious by all.—Leger.

The Territory of Kansas. A correspondent of the Presbyterian says that the proposed Territory of Kansas lies West of the Missouri. It extends three or four hundred miles, and consists principally of beautiful and fertile prairies. The timber is mostly confined to the neighborhood of water courses. There is more wood, however, in Kansas than in Nebraska, which lies west of Iowa; and more in the eastern than in the western portion of the territory, where those treeless plains commence that stretch to the mountains. The scarcity of timber is the only drawback, and this most prevent parts of it from becoming thickly settled for a long time. It would seem that Providence designs these immense prairies, stretching eastward from the Rocky Mountains for a thousand miles, to be the great grazing region of North America; just as the great Mississippi valley for grain, the gulf States for cotton, and the Atlantic States for manufacturing. Upon the large prairies of Illinois and Missouri, however, hedges and stone fences are coming extensively into use, and the same mode of fencing will be adopted in Kansas. Coal is known to exist in different sections of the territory, and it will probably be found in sufficient quantities for fuel.

The soil is well adapted to grass and grain and in portions of it, especially near the Kansas river, there is excellent hemp land. For farming purposes, that portion through which the Kansas runs, with its numerous small tributaries, is esteemed the most desirable. The soil is surpassed by none in the West, and at no very distant day the valley of the Kansas is destined to become one of the most attractive in our country. It is situated near the centre of our country, also as need be; Fort Riley on the Kansas, and Indian and sixty miles west of the Missouri line, being the central point of the United States, as near as can be ascertained. Along the valley of the Kansas, also, must some day pass the great thoroughfare between the Atlantic and Pacific, whether the first Pacific railroad take this route or not. Copper ore has been found also in this region.

Cure for Corns.—Mr. Cooper, in his "Dictionary of Surgery," has the following infallible cure for corns: Take two ounces of gun ammoniac, two ounces of yellow wax, add six drachms of verdigris; melt them together, and spread the composition on soft leather; cut away as much of the corn as you can; then apply the plaster, and renew it every fortnight till the corn is away.

Robbery in the Cars.—Last Monday a gentleman named White, from Union county, Ohio, was robbed of \$1000, in the cars between Dayton and Cincinnati. The money was cut from a small satchel, and was not missed until after the arrival of the cars at the latter city.

The trial of John Taylor, for cutting down one of the gates of the Penn's Plank Road Company, near Mancy borough, came off at Williamsport last week, and resulted in his conviction. He was sentenced to six days imprisonment in the county Jail, and a small fine was also imposed upon him. The suit against Gov. G. W. Taylor for drawing the staples of one of the gates, was withdrawn. There is still, however, we believe, a civil suit pending between the Gov. and the Company.

There was quite an effort made during last week, at the Court at Williamsport, by counsel employed by the Temperance men in that county, to prevent certain applicants from obtaining Tavern Licenses. We, however, learn that the applicants for all the old houses, with perhaps an exception or two, obtained license.

Flour was quoted in Philadelphia, on Saturday last, at from \$8.75 to \$9.75 per barrel. Wheat \$2.08 for Red, and \$2.18 for White. Corn, 26 cents. Rye, \$1.05. Oats, 51 cents.
