It is decidedly superior to anything of the kind in market. It is per-fectly free from the admixture of Insil nil, or of any of those arroylic compounds which produce such a mischievous and irreparable effect upon the constitution, and which very few samples of alcoholic distilled fiquors are without-most of them being largely impreg-nated with it. I have personally inspected the various process of distillation practiced at Schiedam, and know that unusual care is taken to separate the noxious elements from the pure alcohol, and your Schnapps is a striking proof of its success. As a medici-nal agent for chronic and renal affections, I have successfully prescribed it, and recom-mend it as an agreeable cordial and harm-less stuminant, and shall contine to do so; as well as to use it as a source of pure alco-hol for chemical investigations and experi-tionents.
