I beg leave to call the attention of the public to the following letters from physicians: "Laboratory, N. Y., May 2, 1855.

"Ma. Urpolpho Wolfer—Dear Sir. I cannot speak to highly of the purity of your Schiedam Schnapps. It is decidedly superior to anything of the kind in market. It is perfectly free from the admixture of fusil oil, or of any of those amylic compounds which very few samples of alcoholic distilled liquors are without—most of them being largely impregnated with it. I have nersonally inspected the various process of distillation practiced at Schiedam, and know that unusual care is taken to separate the noxious elements from the pure alcohol, and your Schuapps is a striking proof of its success. As a medicinal agent for chronic and renal affections. I have successfully prescribed it, and recommend it as an agreeable cordial and harmless stimulant, and shall continue to do so; as well as to use it as a source of pure alcohol for chemical investigations and experiments. Yours obedient, Isaam Decs.

Consulting Annalytical Chemist."

Dr. Charles A. Leas, Commissioner of Health, Baltimore, writes as follows in relation to the value of Schnapps as a remedy in chronic cutarrhal complaints, &c. The letter is dated July 27, 1853:

Having a natural tendency to the mocous surfaces, with a slight degree of stimulation, I regard it as one of the most important remedies in chronic catarrhal affections, particularly those of the genito urinary apparatus. With much repsect, your obedient servant, Charles A. Leas.
