### HON, ARNOLD PLUMER. OF VENANGO COUNTY,

DEMOCRATIC COUNTY CONVENTION

DEMOCRATIC COUNTY CONVENTION.

In accordance with the rule of the Democratic party, the Democratic voters of the
several election districts of Columbia county
will meet at their respective places of holding
the general election, on SATURDAY the 25th
day of August next, between the hours of 3
and 7 o'clock in the afternoon to choose two
delegates from each township, to meet in
County Convention at the Court House in
Bloomsburg on MONDAY, the 27th day of
August next, at 1 o'clock, P. M., for the purpose of making the annual nominations of the
Democratic party.

The Democrats of the several townships are
enjoined to strict vigilance that none low, Dem-

enjoined to strict vigilance that none lov. Dem-ocrats participate in these elections, and the success and integrity of the party impenatively requires that Know-Nothings cannot and shall ocrats participate in these elections, and the success and integrity of the party impensitively requires that Know-Nothings connot and shall not have a voice either as voices, officers or delegates in the formation of a ticket which they would not support when formed, unless ty some unfortunate accident some of their own kind should be on it. The Democratic party secords to these men the same right which it claims for itself to support men of their own principles; but they must do it in their own household, and not attempt to force them on the people under the name of Democratic Although it may be difficult in all cases to know who belong to the Secret Order, the precedent of the Democratic State Convention seems to be the only safe one—that site tree must be judged by its fruit, and that those men who year after year openly and notoriously oppose Democratic nominations and support Whig and Know-Nothing candidates are not Democrats, and can have no just or honorable claim to control or direct the policy of a party which they have refused to support and winly attempted to destroy.

#### The County Convention

The delegate elections will take place next Saturday, and the convention will be held on Monday following. It seems to be generally understood that Know-Nothings can have no part or lot in these proceedings; and all hon-or and manliness would require that they should not attempt to influence the action of Democratic meetings. As to who are Know-Nothings, the State Convention has set the only safe test-those who vote, act and counsel with a party are to be regarded as its members; and this is the test which the old parties have always acted upon. The new party of secret oaths and conspiracies is an rganization by itself, having its prototype in the conspiracies of the degenerate Romans under Cataline, and the Jacobin Clubs of Ma-Danton in the Reign of Terror in France. In its own way and by itself it may do its work; but the Democratic party must preserve its purity if it would sustain its ex

istence.

As to the candidates to be nominated-these should be men fit by intelligence and business experience; sober and respectable men, neither so rich as to be lazy or insolent, nor so embarrassed in their own affairs as to be exposed to the temptations of error. They should be men who have shown true attach ment to the cause of the people, and who have been honest and consistent in their pol-itics as well as in personal principles. We itics as well as in personal principles. know there are such men in the Democratic party, and for the honor and success of the parthese men ought to be chosen. Such r vill do credit to the party, both as candidates and as officers.

LET IT BE UNDERSTOOD

That the political profligates who have re-peatedly heretofore opposed the Democratic ticket cannot claim to participate next Sat-urday in the choice of delegates. Men who have heretofore voted with Whigs and Know-Nothings cannot claim to be Democrats. The tree can only be judged by its fruit. Those who have not felt bound by the action of Democratic conventions heretofore cannot have any concern with them now, at least not until they give signs of full repentance.

## Newspaper Change,

Capt. Jacob Zeigler has disposed of the Harrisburg "Democratic Union" to Andrew Hopkins, Esq., of the "Patriot," by whom both papers will be blended into one, and published under the title of the Union nd Patriot. This is an excellent arrange ment, and will doubtless have a tendency to promote harmony and good feeling in Democratic party, not only in Dauphin counat the State. We wish Mr. Hopkins abundant success in the undertaking and for the retiring editor, Capt. Zeigler, we invoke long life and prosperity.

We are pleased to receive the Mur cie, Indiana, Messenger, published by J. D. Chipman and Miles L. Yetter; the latter of whom is a native of this country, and was for some time connected with this office. We wish him success in his new Western house.

#### Telling the Whole Truth

The contemptible libeller who lately at mpted to speculate on the religious feelings of honest men in the Democrat, cannot den but admits that our defence of last week was true in facts, but answers that the deacon was Justified by telling the whole trum. In other words—that to poisen an honest man's mind against his neighbor to his injury in business it is justifiable to drag in religion and the church, and abuse him for not on every occasion paying to every church. Why a pagan Hottentot would feel disgraced by spei

code of morality.

But if the two subjects could have any connection it was the deacon's crime that he did not tell the "whole truth" to Mrr. Bittenbender. That which could injure his neighbor he told in a cowardly backbiting manner, as soon as his neighbor's back was turned, while the alluded to. The charge was general that w had refused to give "any thing," and was not defined or qualified as to any time or occasion. It was understood by Mr. Bittenbender as charging a general and unqualified refusal to give "any thing," as the answer of that gentlems a showed; and the deacon was responsible for the false sense in which the imputa tion was received when he saw that it po soned a man's mind who intended to do us a friendly favor and was then glad he had not done it. The deacon saw the sense in which alone the words could and had been received, and maliciously withheld the "whole truth" that the slauder should work its festering wrong.

As to the money borrowed—the deacon

obtained it when we paid our subscription by saying that he wanted it for the clergy man's use; and the fact was so expressed on the memorandum given for its payment and signed by the two deacons, the other of whom would never have whispered a word upor the subject, and has a sense of the proprie-ties and decencies of life, which he would scorn to violate. The one who asked us for the money added that in a short time he could collect enough on his subscription book to repay this sum. Resides he confessed only last week that it had been for Mr. Sharretts' use : and if the deacon decived us to obtain it, it only adds another to his false-hoods and injuries. But it is conclusive on this subject that the other gentleman who signed the note can testify that the money was for the use of Mr. Sharretts. No person who knows us and the political descon, will for a moment believe that we would ever have loaned a dollar to him for his use, or that we would have denied any possible fa vor to Mr. Sharretts, whom we have always treated with uniform kindness and respec-But the man who would use his position and connection in the church to injure his neighbor would not hesitate at any meanness, not even to borrow money for himself on the credit of the church; and the creature who would try to make public political merchandize of men's religious feelings, deserves the scorn and contempt of every decent man in the community.

Unfortunately for human nature there are in some communities men who have no ecnse of the common proprieties and decencies of life, and no moral sensibility or self respecttures of such depraved mind that nothing public or private is sacred from their pollu tion. They live only by making the brutality and importunity of their pature a scourge to the quiet citizen, until men fear them a much as they hate. Religion and the trans actions of men's every day life are desecra ted with a spirit as unsanctified as that i which the resurrectionists would steal the midnight. Kick these men from one outrag ed community and they instantly crawl ou

to day-light in some other.

In a public print before us we observe the count of an unfortunate man who became the evil genius and terror of his neighbor hood in one of the lower counties-sleeping in the woods and barns-robine hen roosts milk-houses and barns, and stealing every thing. But he never defiled religion, no violated the sanctity of private character .-And yet even he was the other week sent to the penitentiary for seventeen years. ### EDUCATIONAL .

To School Directors and Teachers, The several Boards of School Directors are requested to inform me at what time and place this fall it will best suit their convenience to have the examinations of teacher take place for their district, and appoint ments will be made accordingly. It is desi should be conducted publicly in the presence of the Board of Directors who are to employ the teachers, as that will afford Directors the best opportunity to judge of the fitness of each applicant. In no case are teachers to be employed before they have a certificate upon the promise to obtain one. It is taken for granted by the School Department that Teachers have embraced every opportunity of improvement during the past year; and repeated favors we had done were never once the examinations are to be more thorough and detailed than at first. The grade of proficiency in the different studies will be in cated on each teacher's certificate, and it is highly important to the prosperity and suc cess of the system—to the encouragement of good teachers—and as an inducement for the future improvement of all teachers that Directors should establish a marked grade in the wages of teachers. A number of good teachers have heretofore received too little pay, and deficient ones have received too th. At the close of each examination in

all are invited to attend.

Before the schools open for the term, the Directors in each district should meet and adopt a uniform series of text books for the use of the schools, where this has not already been done. When the schools open the most important subject for the Directors to urge is the regular attendance of each schol ar. The monthly reports of the teachers should be filed with the Secretary of the respective Board, and open at all times to the inspection of every citizen, so that he may know how regularly his children atten school, and with what success and prospect of improvement. The attention of parents should be invited to these reports, and also to frequent personal visitations of the school My own visits to the schools will be as soon in turn after the examinations as I shall learn that the schools of any district are open.

R. W. WEAVER,

County Superintendent.

There is no reason why a good Academ or Seminary could not be established omsburg. A great amount of money i every year carried out of the county which could be retained at home, and many children are sent abroad for an education who could receive quite as good an one unde

the eyes of their parents, and with more

safety to the moral control of the scholar. But if the matter is undertaken it must be a self-sacrificing spirit, and not for speculation to "self lots," "get a job" or "make money" in any way. There must be no strife for private or personal interest and vet it must pe a private enterprise. Three or four intelligent persons (and in time twice that number) could make a decent competence in this way, with the pleasant reflection of doing good. We shall have more to say of this hereafter.

### Result of the Elections

The recent elections in the South have a solted most gloriously for the Democracy.— The noble example set by old Virginia, the glorious "mother of States and of Statesmen," has been followed by other free commonvealthe, and a death-blow has been struck at the party of bigotry and intolerance.

When two Southern States that adhered to Scott and ocratic party may well excite surprise. In this victory of the Democracy the Know Nothings may read their approaching doom -Johnson, our candidate for Governor, is elec-ted by 1500 to 2000 majority and it is believed we have carried the Legislature and a majority of the Congressmen.

ALABAMA.-The Know Nothings tried to aise a shout over the earliest returns from his State, but it died away on their lips. Notwithstanding the defection of Clemens and others whom the Democracy warmed into life the State of William R. King has remained rue to her ancient faith. Full returns have have not been received, but the indications are that the Democratic candidate for Governor is elected by a large majority, that the the Legislature is largely Democratic, and that the delegation to the next Congress will stand six Democrats to one Know

KENTUCKY .- We rejoice to say that the the State which acquitted him of murder, have gone for the Know Nothings. They have carried Louisville by 1600 and Kentucky by 10,000. They carried Louisville in real Matt. Ward style, making free use of bowie knives and revolving pistols. Only about two-thirds the vote of the city was polled, the Know Nothing bullies having prevented a large number of the citizens opposed to them from depositing their votes. It is worthy of remark that the only newspaper in the city which apologized for Matt. Ward after his murder of Butler, is now the Know Nothing organ. That paper is the Lonisville Journal of which George D. Prentice (one of Matt. Ward's witnesses) is editor .-- Valley Spirit.

### The Distinguishing Genus of the Age.

Nature, now and then, brings fouth such niuses as Newton, Shakspeare, Talleyrand, Milton, Nelson, Napoleon, Washington, Franklin, Jefferson, Luther; Cromwell and Jackson. Their powerful intellects compelled the world to admire them.

The genius of the present age is Drecovery. In the progress of the arts and sciences, this age is unmeasurably superior to any ormer one. The present century stands pre-eminent for its wonderful discoveries in he sciences and arts. Among these, the noble science of Medicine has made great progress. Ptofessor Holloway has discovered and prepared a remedy for the diseases of man in whatever clime destiny may have given him bifth. We have, in a former ar ele, introduced to our readers this distinguished physician, whose reputation is already engrafted in the world's history. As a physician, he has copied Nature, and among physicians he stands the acknowledged Emeror. Both in the sale of his medicines nd in the number of patients that have taken them, he is unrivalled. Professor Holoway has labored to supply the human family with a permanent remedy for their disea-es, to which the afflicted may have recourse with a moral certainty that they will be cur-ed. There is no disease to which they will not afford relief. His Pills and Ointment prepared from selections from the vegetable out of the system. ### What the Russians say.

The official organ at St. Petersburg express es the opinion that the Allies, by their inac-tivity and want of enterprise, have allowed the opportunity to slip by when Sebastopol might have been taken. It now says the city is impregnable; that it can replace one hundred dismounted guns in a night, or can exchange 50,000 fatigued troops against 50,000 fresh troops; that the Allies cannot, with dou-ble the force they can dispose of, cut off the communication by Perekop; that the Russian rmy, fighting for its country and its sovereign, is animated by a better spirit than is the hoterogeneous mass of French, English, Turks, Egyptians and Sardinians, contending for an abstract idea and confused interpret ion of the duties of civilization. Holloway's Pills, a certain Remedy for Holloway's Pills, a certain Remedy for Dropsy.—Charles Hutchinson (33,) of Burnington, Vermont, was for fifteen months a sad victim of this complaint, so bad was he one part of the time, that the water actually dozed through the pores of the skin, and thrice per day change of apparel became necessary. Every time his doctor called he expected to find him dead, and in fact gave his friends no hopes of his recovery; his sister who had derived great benefit by the use of Holloway's Pills, begged him, as a favor to her, to try them; fortunately for him he did not refuse, and they soon produced a change for the better, in four weeks he was again attending to business, having thoroughly got rid of the disorder, and in the most excellent health and spirits. These Pills work wonders in liver and billious complaints.

In Fishingcreek township, Columbia co., on the 4th of July, 1855, of Consumption, Miss Mark, daughter of Col. Elias McHenry, aged 15 years, 10 months and 12 days.

In Fishingcreek township, Columbia co., on the 11th inst., after a short but severe illness, Col. Elias McHenny, aged 61 years and 4 months.

[The load of grief was a heavy one when the daughter of early hope and promise died; and soon the good man followed his child.— His heart was in his family, and his virtues themselves appear to be impressed with the same idea, for the preparation of defences and true happiness. Though dead, the memory of his exemplary life will long live in the minds and hearts of true friends who grieve for his loss. He was one of the old and respected pioneers of the Fishingcreek settle-ment; and connected with a large family to whose honest toil and thrist, the neighbor-hood in which he lived is in a great degree indebted for its improvement and present progress. He was one of the hardy yeomanry who go through life by the straight-for-ward path of honesty, and not by the crooked ways of craft and speculation. His life was useful and his death lamented.]

Last week, in Cincinnati, Ohio, Mr. Erasabout 30 years.

In Bloom township, last Wednesday morning, Sarah Resseca, youngest daughter of Jesse and Anna E. Shannon, aged 2 years 4 months and 2 days.
