Importance to Franker—Dr. Cherrenans'
Pella—The combinations of ingredients in
these Pills, is the result of a long and extensive practice; they are mild in their oper,
stion, and certain in restoring nature to its
proper channel. In every insteame have the
Pills proved successful. The Pills invaris
bly open those obstructions to which females
are liable, and bring nature into its proper
channel, whereby heath is restored, and the
pille and deadly countenance changed to a
fassithy one. Ro female can enjoy good
heath unless the is egolax; and whenever
an obstruction tekes place, whether from exposure, cold, or any eather cause, the general
health immediately begins to decline, and the
want of such a remedy has been the cause of
as many consumptions among young female.
To Indies whose health will not permit an increase of their family, those Pills will prove
a valuable acquisition, as they will prevent
pregimeny. Headache, pain in the side, palpitation of the heart, louthing of food, and
disturbed sleen de more always arise from the
intercupition of nature; and whenever that is
the case, the Pills will invariably remedy all
these swils. Not are they less efficacious in

Dr. Genssers's Celebrated Menstrual Pills have been long and widely known as invariably certain in removing any stoppage, arregularity, or suppression of the menses.

In the female dospitals in Vienna, Paris, and Berlin, they have entirely enperseded the use of all other remedies; because, where a core is attainable by medicinal agencies, they are certain of success. Their astonishing efficacy would be almost incredible, if not vouched for by indubiable testimony, in numerous instances producing returns of the monthly period after all hope had been abandoned.
