The Author of the above volume is a graduate of one or the first medical schools in the United States, and having devoted a quarter of a century to the study and treatment of Syphilis and kindred disorders as a preciaitiy, he has become pussessed of most invaluable information in regard to the same, and is able to compass into vade mecum compass he very quint-assence of medical science on this important subject; as the result of the experience of the most eminent physician in Europe and America is thoroughly domonstrated in his own highly successful practice in the treatment of series thoroughly domonstrated in his own highly successful practice in the treatment of series discusses in many thousands of cares in the City of Philadelphia done.

The practice of Dr. Hunter has long boen, and still as literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional sucfulness to the community at large, through the medium of his "Medi-al Manual Hand-Book for the Affliced."

It is a volume that should be in the hand of every family in the land, whether used as a preventive of secret vice, or as a guide for the silvelution of one of the most awful and destructive scourges ever visited upon mankind for the sins of sensuality and impurity of every kind.

It is a volume that has received the unquali-

for the sins of sensuality and impurity of every kind.

It is a volume that has received the unqualified recommendation of the first physicians in the land, while many clergymen, fathers, mothers, thilanthropasts and humanitariars, have most freely extended its circulation in all quarters where its powerful teachings would be likely to be instrumental in the moral purification and physical heeting of multirude of our people, among the young, volatile and indiscret, otherwise the pride and flower of the nation.

The author argues particularly, most strongly against every species of self-defilement, and warns parents and guardians, in reaching terms, to guard the young of both sexes from the terrible consequences concomitant of their ignorance of phy logical laws and sexual impurities and irregularities, whether exhibited ny precolous development or arising from the viscious and corrupting examples of their school mates or otherwise. To those who have been already enamated to the "paths that take hold on hell," a clear and explicit way is shown by which they may secure a teturn of sound health and a regeneration of the roul from its terrible pullution.

It is well known that thousands of victims
