for the sins of setsuality and impurity of every kind.

It is a volume that has received the unqualified recommendation of the first physicians in the land, while many clergymen, fathers, mothers, thianthropsis and humanitarians, have most freely extended its circulation in all quasters where its powerful teachings would be likely to be instrumental in the moral purferation and physical healing of multitudes of our people, among the young, volatile and indiscreet, otherwise the pride and flower of the nation.

The author argues particularly, most strongly against every species of self-deliemen, and warms parents and guardians, in searching terms, to guard the young of both sexes from the terrible consequences concomitant of their ignorance of plysological laws and sexual impuriture and irregulantities, whicher exhibited by precocious development or arising from the viscious and corrupting exemples of their school, mates or otherwise. To those who have been already ensanced to the "paths that take hold on hell," a clear and explicit way is shown by which they may secure a return of sound health sind a regeneration of the rool from its terrible pollution.

Delivion.

It is well known that thousands of victims are annually sacrided at the shrine of Quachery—especially those culficing from Venecel or Syphilitic diseases—Strictures, Seminal Weakness, Nervous Debility, and the numerous maladies which string directly or less remotely from the indulgence of carnal passions and secretivolations of Nature.

In view of, these facts, and when it is also considered that about 100,000 persons die aunually in the United States of Concumption—a large majority being the victums of the voluputous indiscretion of their progenitors, agreeably to the Scriptu all enunciation, that the sins of the parents are visited upon the children, even to the third and fourth generation. The Author, imbode with sentiments of enlarged philibrithropy, will scarcely be censured for any effort to restrain the viccos of the age, by the humble instrumentality of his Medical Manual.

New Brunswick, Dec. 19, 1855.

Dear Sir: I thank you for the Philosophical Charts. They fornish an admirable substitute for the far more expensive apparance. These Charts, hung on the walls of the school room, in all which I hope to see them, will spread before the scholar a palpable illustration of the great laws in Natural Philosophy. He will learn much of God from the works of His hand and the ordinances of His appointment.

The small volume that comes with them, and a little explanation by the teacher, will render the Charis one of the most useful means of institution.

Very respecifully yours,
THEODORE FRELINGHUYSEN.

Beside the essential diagrams found in the ordinary text books, these charts contain several ori-ginal illustrations, and possess the merat-rarely found in school books—of being en-tirely original in plan and arrangement.— They are, moreover, highly ornamental to a school room, and obvize the necessity of philosophical apparatus which would cost trom \$3,000 to \$5,000.
