A Vienna letter asserts that Prince Gortes chakoff stated that the Russian Government considers that the convocation of a General European Congress, immediately after the conclusion of a peace, as the best means of settling all questions. France and Austria favor the idea, but England objects.

The evident cordiality existing between France and Austria begins to excite uneasi ness in England, and a triple league between an improbable incident in the future.

Messrs. Shelloo, I amport & Blakeman:—
Gentlemen—I examined the copies of Stoddard's Series of Artibmetics, with which you kindly furnished me in July last, and was so well pleased with the result of that examination, that at the opening of the Fall Term of the Institute I introduced the Intellectual and the Practical, and at the commencement of the Winter Term, the Philosophical. The result has far exceeded my expectations. They have triumphantly passed that most searching of all tests for school books—the class and the recitation room. Each book is superior in its kind and for the purpose for which it was designed: and taken ingether they constitute the most perfect Series of Arithmetics that I have ever seen. I can benestly, as well as earnestly commend them to the attention of teachers and others interested in the promotion of this important study.

To the Committee on Text Books of the Board of Education.
GENTLEMEN:

1 am informed that it is yopr intention to report to the Board within a short time one or more series or sets of School Readers as suitable books; to be adopted and used in the Pablic Schools of this city.

Having used in the Institution during the past year or two a part of Webb's series (No. 2, 4, 5.) with very satisfactory results; it may not be considered by you that I am taking too much liberty in expressing that desire that you may find it consistent with your views to recommend that seties, and that we may thereby be allowed the privilege of continuing their use in our school.

Most respectfully yours,

H. H. WOODWORTH, Principal.

School Reader and take pleasure in bearing testinony to their existence.

The selections are varied, interesting and

instructive and containing some of the purest gems of thought and expressions to be found

gems of thought and expressions to be found in the language.

To the student they afford the necessary lacihities for becoming a good reader, at the same time they are all calculated to form a correct taste to instil noble and elevated sentiments, and to impart a relish for those pleasures which arise from the contemplation of the beautial and good.

They are well adapted for Text Books in our Common Schools. I have heard several very competent teachers speak in high terms of the series.

I am gentlemen, Resp. yours,

Brooklyn, Oct. 5, 7855.

To the Committee on Text Books of the Board of Education.

Dear Str:

As Chairman of the Committee on School Books, I address you this note with reference to Webb's Series of Readers

I have examined said Readers with considerable care, and am therefore prepared to say, that I should be much gratified with their introduction into our schools. At least one or more new series of readers ought in my opinion to be immediately adopted for our use by the Board of Education, and I believe none would more generally please the teachers of our school, or tend to interest and edify their pupils or lead to more satisfactory results than the series under consideration.

Respectfully yours,

aspectfully yours, A. B. CLARK, Principal Pub. School No. 3.

DEAR Sig:

Dear Sig:

Having learned that the Committee of which you are Chairman are about to recommend a new series of Readers for the use of

our Schools allow me to express the hope that you will give Webb's Normal Series a favorable consideration.

From what I know of these Readers, and from the testimony of others in whom I have the fullest confidence, I believe them to be superior to any of those naw in use in our Schools, and hope to see their claim acknowledged by a speedy and general adoption.

Very respectfully yours,

AUTHOR OF "FARMINGDALE."

1 Vol. 12mo. Price \$1 25, Magnificently bound.

THE many readers and admirers of "Farmingdale" will anticipate with pleasure a new volume from the pen of "Caroline Thomas," the nom de plume formerly used by Miss Dorr. We can assure them that they will not find "LANMERE" one whit less charming than its predecessors. We shall be disappointed if the public do not award it yet warmer praise.

SATURDAY, FEBRUARY 2ND,
EDITH; OR, THE QUAKER'S DAUGHTER,
A tale of Puritan times. By one of her descendants. I vol., 12mo. Price \$1.25.
The scene of this Domestic Tale is latit during that religious persecution of the Quakers which is so deep and sad a stain upon the bright fame of the Puritans. To the charm of absorbing interest as a tale, it adds the attraction of historical accuracy.

We have never announced new books with greater satisfaction than in the present instance. These are not sensation books.—
They do not in any respect belong to the "gutter literature," of the day. Differing widely in plot, purpose and style, they may alike lay claim to fascinating interest and an adaption to improve both head and heart.

It is agreed by friends and foes of Mr. Greeley that no more ably, entertainingly and instructively written biography has ever made its appearance in America. Every one who has any desire for a familiar acquaintance with the famous New York Editor, should read Mr. Parton's book, and he will know Mr. Greeley as well as though he had been 'brought up in the same town.'
