GEORGE SCOTT, of Columbia County: JACOB FRY, Jr., of Montgomery Co.

TIMOTHY IVES, of Potter County.

The Motives need only be Understood.

The malice and malignity of the Democrat only become the more apparent as it exposes its actual character; and if it ever had a friend be will feel ashamed of its scurrility and filth. A fish-woman would be disgraced by bandying words with it; so we shall only

the defeat of a Democratic nomination, its which I know, when I say that Delaware, editor begged for the appointment of Mercan-tile Appraiser from the Commissioners, and more favorable to health and longevity, all as no body else wanted the appointment he received it. But immediately upon the fact secoming known several prominent Demo crats of character protested that such appointment was a disgrace and outrage, and he was choked off by the Commissioners and compelled to resign. He then applied to be Revenue Commissioner, and the best Democrat of the County signed a protest against of the County signed a protest against

done.

He next abused the Post Office Department and attempted to get a contract for car-rying the mail between Bloomsburg and the Railroad at Callawissa, and failed; because the true friends of the Department explained the folly of such a project, when the mail could be carried in less than one half the time and for less than one half the expense

to the Railroad at Rupert.

Defeat in these and other like projects and the rebuke he repeatedly received from every honest man for openly opposing the Democratic nominations in his paper and supporting Know Nothing Volunteers, have so embittered him that he vents his speen in the characteristic vituperation and slang best men in society who have the manliness to express openly the contempt they feel for him. And in his malignity he so disregards common decency, that as decent people are ashamed to own they have read his foul abuse, it were a shame to answer it other than by exposing its motives and saying

"Immodest words admit of no defence, For want of decency is want of sense." It is false that we ever desired or solicited any partnership with him; and the character f that paper is well proved in the open fact very number slandering us, he takes from our paper without credit or notice a whole column of matter prepared by us containing a list of township officers.

The British Government has "seques-tered" Onde, with its four millions of inhabitants. If such an act of territorial aggression had been performed by the United States, against our fillibusterism. When the people of the United States want to enlarge their territory, instead of fillibustering, as in India, they honestly pay for it. They gave fifteen millions of dollars for Louisiana, five millions for Florida, about twenty millions for California and New Mickico, and ten millions fo the Mesilla Valley. In addition to this, they gave the inhabitants of the a "quired territor a free and better government than they pos sessed before the exchange. Correspondence of the "Star." FROM DELAWARE.

MILFORD, March 18, 1856. Ma. Weaver—Dear Sir,—In my former communication I gave a glimpse of the geographical position of this region—a peninsula-with the kind of soil peculiar to it various parts-north, south, and central. I will now undertake to give you a peep at some of the advantages which this country possesses, and the inducements which it of fore to those who contemplate leaving their old stumping grounds in Pennsylvania, New Legland, and seeking for hemselves homes elsewhere.

In the first place I remark that this whole

peninsula is much more favorable to health than the valley of the Susquehanna; indeed the greater part of it is equal to, if not superior to the healthier portions of your back country. This I am aware is not the impresay a word as to its motives; and where its sion abroad. In Philadelphia they entertain editor is known, nothing further is needed.

After its columns rejoiced in 1853 over tal to health as Louisians; but I state that things considered, than any other section of country with which I am acquainted. I have lived in Delaware more than two years alto-gether myself, and for the last seventeen months with a family of ten persons—six of these from the high grounds of Massachuoctat of the County signed a protest against of us has taken or required one particle of medicine (barring a little infinitismalism hall in joke, for a cold.) My own health has democrat be appointed, which was done.

He next abused the Post Office Departition of the county of the the size of the county signed as the county of the county signed a protest against of us has taken or required one particle of medicine (barring a little infinitismalism hall in joke, for a cold.) My own health has greatly improved, and I am fully persuaded that the climate and water, with the "hog and hominy" peculiar to this region would restore a large proportion of your valetudina-tians to a comfortable degree of health, if they would but place themselves fully under

their influence.

The soil of the country is much more easily managed than that of any portion of Pennsylvania—and much more readily and ket is easy of access and the price of pro-duce generally within three or four cents of the price in Philadelphia and New York -Half-grown chickens are 25 cents a pair; full grown ones 50 cents a pair; eggs from 15 to 25 cents, and butter from 25 to 33 cents.

The price of land is going up rapidly; but till, there is a plenty to be had at rates quite surprising to those accustomed to the figures held up for the hard, shelly, hilly lands of Pennsylvania. These are all facts; and nothing is wanting but a large infusion of the skill and energy of New England and Pennsylvania, to make this one of the richest and pleasantest agricultural regions in the Union. But there is only one way in which emigra-tion to this country should take place, and some hints on this subject are reserved for a future communication.

Yours truly, ****

The Result of Riots.

The Louisville Democrat says that that city is in a happy condition—that "she is out of funds, has no Fire Department, no work to do, property ready for sale, but no bidders, plenty of room in vacant houses with but for plenty of room in vacant houses, with but few to occupy them.
