

Holloway's Ointment and Pills are the finest Remedies for Bad Legs, Francis Tomkinson, of Ottawa, Mich., had the misfortune some six years ago, to break his leg, which was imperfectly set by the doctor, the consequence was that it formed itself into an angry wound, and despite of the various remedies he tried, he could not get anything to cause it to heal, and it was feared by all who knew him that he would be lame all his life. About four months ago, he commenced using Holloway's Ointment and Pills, which soon caused an improved appearance in the leg, he continued them for nine weeks, and the leg is sound, to the astonishment of all who knew him.

ALUMINUM LIFE SAVED!

DOWAGIAC, Mich., March 11, 1856. J. A. RHODES, Esq.: Dear Sir, I have taken your medicine to sell on commission, "no cure no pay." I take pleasure in stating its effects as reported to me by three brothers who live in this place, and their testimony is a fair specimen of all I have received. W. S. CONKLIN told me—"I had taken nine bottles of Christie's Ague Balsam, and continually run down while using it until my lungs and liver were congested to that degree that blood discharged from my mouth and bowels, so that all thought it impossible for me to live through another chill. The doctors told me all they could do, but thought I must die. Nothing did me any good until I got Rhodes' Fever and Ague Cure, which at once relieved me of the distress and nausea at my stomach and pain in my head and bowels, and produced a permanent cure in a short time." H. M. CONKLIN says—"I had been taking medicine of as good a doctor as we have in our country, and taken any quantity of quinine and specifics without any good result, from 25th August to 17th December. But seeing how nicely it operated on my brother, I got a bottle of Rhodes' Fever and Ague Cure, which effected a permanent cure by using two thirds of a bottle." S. M. CONKLIN was not here, but both the other brothers say his case was the same as H. M.'s. I sold the medicine to both the same day, and the cure was as speedy from the same small quantity, and I might specify. Yours with respect, A. HUNTINGTON.

ALUMINUM LIFE SAVED!

The above speaks for itself. Good proof is it, it is of no better tenor than the vast number of like certificates I have already published, and the still greater amount that is continually pouring in to me. One thing more. Last year I had occasion to caution the public in these words: "I notice one firm who have taken one of my general certificates, substituted the name of their nostrum for my medicine, and then with brazen impudence sent their pamphlet with the exclamation, 'Let the Proprietor of any other medicine say as much if he dares,' &c. &c." Now I take pleasure in saying that the caution referred to in the name "Dr. Christie's Ague Balsam" that is mentioned in the above certificate.
