

FURTHER FROM KANSAS.

Arrests by The U. S. Marshal.

CITY SUPPOSED TO BE DESTROYED.

CHICAGO, May 26.—The Tribune publishes an extra, based upon intelligence brought by three men direct from Lawrence, stating that a company of 400 mounted Missourians made their appearance near Lawrence, on Wednesday last, bearing banners of various devices, but not the stars and stripes. During the morning, the Lawrence Committee of Safety sent a note to the U. S. Marshal, who headed the force, assuring him that they would make no resistance to any process he might wish to secure, and begging protection of their lives and property.

The Marshal made no answer, but at 11 o'clock a Deputy Marshal with a posse of ten men made his appearance in the city, and summoning four citizens to assist them, arrested G. W. Dielsler and G. W. Smith, carrying them off without molestation. Sheriff Jones subsequently made his appearance with 18 men. He attempted no arrests, but demanded all the public and private arms, giving the people five minutes to accede to the demand, and threatening, in case of refusal, to storm the town. One rifle was immediately given up, but the people refused to surrender their arms. In half an hour Sheriff Jones returned with two pieces of artillery and an overwhelming force, and commenced the work of destruction by cannonading the Free State Hotel and the office of the "Herald of Freedom."

The Tribune's informants left at 8 o'clock in the evening, and when fifteen miles from Lawrence, saw a great light, and volumes of smoke in the direction of that city. They have no doubt that the town is destroyed. Another messenger who left Leavenworth, just before the departure of the boat, says several men had been killed by Jones' party. It is feared that Gen. Pomeroy has been longed by the mob. Gov. Robinson is at Leavenworth, in the hands of the authorities. Gov. Reeder is supposed to be in a place of safety, and is daily expected here via Nebraska and Iowa.

The mob threaten to hang Robinson, Brown and Dielsler. The free State men are gathering at Topeka, and will make a stand at that point. Mr. Atchison is somewhere in the Territory. The U. S. troops are anxious to protect the settlers, but are not allowed to leave their quarters.

Still Later from Kansas.

St. Louis, May 26.—The Lexington (Mo.) Express, Extra, received to night, confirms the destruction of the town of Lawrence. After the Marshal had entered the town and made all the arrests he had writs for, he turned his posse over to Sheriff Jones, whose attempts to make arrests were resisted by the people, who fired on his men. Jones then cannonaded, and set fire to the hotel and Herald of Freedom Office, destroying both. The artillery were still firing, and the fire spreading when the messenger left. A few lives were lost.

The Fruits of Negro Worshipping.—The Boston Courier says:

"Last week, in this city, a Virginian of dusky hue, and bearing above his shoulders a very woolly head, was married to a roush maiden under twenty. She was quite handsome and a native of Ireland." Let the policy of Mr. Seward and his Abolition supporters, be carried out in practice, and tens of thousands of negroes from the Southern States will come North to amalgamate with the whites, as did the "Virginian with the woolly head above his shoulders." Black Republicanism brings its voracious to this complex at the first step in its progress. The social quality of negroes is a point not to be avoided by Free Soilers.—Rochester American.

New York Cattle Market.—The Tribune of Thursday says: In spite of the trouble of beef cattle from the farms of all the Eastern States, the West, the rich and bounteous West, pours in such a supply that prices steadily recede. The average price of beef cattle in May, 1856, was equal to five cents a pound higher than corresponding grades in May, 1855, and well it might be, when corn is an unsaleable article in Central Ohio at 15 cents a bushel, and will lower in Illinois, where our greatest supply of beef comes from. The best of beef cattle sold yesterday at ten cents a pound for the meat.

High Prices.—Samuel Phillips and Jacob Young, administrators, sold at the late residence of John S. Young, one mile from Marion, on the 2d inst., a team of six horses, at the following prices: One at \$230, one at \$204, one at \$197, one at \$190, one at \$126, and one at \$117—aggregate \$1,064. These colts sold as follows: One at \$125, one \$80, and one at \$55—aggregate \$264. Total for six horses and three colts, \$1,328.—Chambersburg Valley Spring.

Holloway's Ointment and Pills will cure Asthma and all disorders of the Chest.—H. Vincent of Selma, Alabama, was almost a martyr to asthma for nineteen years, which literally shook him to pieces, and made him as thin as a skeleton, so that he neither enjoyed rest by day or by night. He tried many things for the cure of this complaint, but they did not benefit him. About three months ago, he commenced taking Holloway's Pills, and well robbing the Ointment into the chest night and morning. Immediately he gave these remedies a fair trial, he was able to sleep at night. By persevering with them for only seven weeks, every symptom of his disorder left him. His friends who have not seen him for some time, hardly know him, he has so wonderfully improved.

A HUMAN LIFE SAVED!

J. A. RHODES, Esq. Dear Sir:—As I took your medicine to sell on consignment, "no cure no pay," I take pleasure in stating its effects as reported to me by those brothers who live in this place, and their testimony is a fair specimen of all I have received. W. S. CONKLIN told me—"I had taken nine bottles of Christie's Ague Balm, and continually run down while using it until my lungs and liver were congested to that degree that blood discharged from my mouth and bowels, so that all thought it impossible for me to live through another chill. The doctors do not cure me, but I got well, but thought I must die. Nothing did me any good until I got Rhodes' Fever and Ague Cure, which at once relieved me of the distress and nausea at my stomach and pain in my head and bowels, and produced a permanent cure in a short time."

H. M. CONKLIN says—"I had been taking medicine of a good doctor as we have in our country, and taken any quantity of quinine and specifics without any good result, from 25th August to 17th December. But seeing, how nicely it operated on my brother, I got both a Fever and Ague Cure, which effected a permanent cure by using two thirds of a bottle."

S. M. CONKLIN was not here, but both the other brothers say his case was the same as H. M.'s. I sold the medicine to both the same day, and the cure was as speedily from the same day, and I might so specify. Yours with respect, A. HUNTINGTON.

The above speaks for itself. Good proof as it is, it is of no better tenor than the vast number of like certificates I have already published, and will still greater amount that is continually pouring in to me. One thing more. Last year I had occasion to caution the public in these words: "I notice one firm who have taken one of my general circulars, substituted the name of their nostrum for my medicine, and then with brazen impudence end their campaign with the exclamation, 'Let the Proprietor of any other medicine say as much if he dares,' &c. &c."

Now I take pleasure in saying that the Caution referred to the same "Dr. Christie's Ague Balm" that is mentioned in the above certificate. There are several other industrious people who are applying to their poisonous trash all that I publish about my Fever and Ague Cure, or Antidote to Malaria, except the certificates of cures, and the certificate of the celebrated Chemist, Dr. James R. Clinton, of New York, in favor of its perfectly harmless character, which is attached to every bottle. These will always serve to distinguish my medicine from imitations. JAS. A. RHODES, Proprietor, Providence, R. I.

For sale by Dr. J. P. Taggart, J. R. Moyer and Druggists generally. April 23, 1856.—1m.

Report of the Grand Jury.

To the Honorable the Judges of the Court of Quarter Sessions of the Peace and for the County of Columbia. The grand inquest of the Commonwealth of Pennsylvania inquiring for the body of the Court of Columbia respectfully REPORT that they have examined the public buildings belonging to said county and find them in tolerable good condition—the repairs recommended in the last report having been attended to. We would direct attention to the painting about the Court House, and recommend that it be immediately repainted, and would also direct attention to the very long and narrow building, and recommend that the necessary repairs be done. We have found the walls in the hall of the basement story of the Court-house much decayed, and would direct attention to the same, and recommend that the necessary repairs be made. And we further report that the road in Scott township had been represented to be in a very bad condition, especially that part leading from Robert Pugh's in Bloom township, intersecting the road leading from Kopy to Light Street—also, the alleys and some of the streets in Bloomsburg, had been represented as being obstructed, to which we would direct your attention.—All of which is respectfully submitted the sixth day of May, 1856. A FARM WITH THE BEACH OF EVERY ONE.

27,000 ACRES OF GOOD FARM AND COAL LAND in Elk County, Berzinger Township, Pennsylvania for sale, giving a Farm of 35 acres for \$300, payable in instalments of \$1 per week, or at the same monthly.

Farms of 50, 75, 100, or more acres adjoining in proportion. Each Farm fronts upon a road thirty feet in width. The soil is a rich limestone loam, and especially adapted to cultivation, as it is neither fully nor stony, but gently rolling or fine table land. Around and through this property there are already some 20,000 acres under cultivation, and its fertility has been established from the crops produced. Upon this subject it is easy to be fully satisfied. There is a ready cash market for produce which is much better than trade. It is the CHEAPEST, and land of this quality with coal lands, is especially desirable, and especially such as contains coal. THE COAL.—This in particular is the Coal District, several veins underlying the whole property, and this attention of miners, and those acquainted with coal lands, is especially called to it. It has the advantage of being the nearest to the great lake market, with which it will be connected by the Sunbury and Erie Railroad now under contract and in course of completion from Erie to Ridgely, with descending grade the whole way. This is an immense coal trade will soon open. Four coal companies have already been started to work veins in the vicinity, and there are now fifteen openings around St. Mary's.

THE TIMBER.—Stockholders also received. There is no reservation whatever either of timber or coal. It is very valuable, and will pay for a great part of the land. On account of the excellence of streams there are fine opportunities for saw-mills. FOR HEALTH, the location is much recommended by Physicians. The chills and fevers are unknown, also pulmonary complaints, being protected from the north east winds by the Alleghenies. The water is pure and amongst the best, the land abounding in fine springs. FOUR RAILROADS will also be completed connecting it by a direct communication with New York, Philadelphia, Pittsburg, Erie, Buffalo, and all the cities on the lakes. They are the Sunbury and Erie, the Allegheny Valley, the Pittsburg and Buffalo, and the Venango. Energetic exertions are also being made by the building of the Tyrone and Clearfield, which also passes through this property. The effect of this upon trade, and general development, as well as the coal, may be imagined. The large and flourishing town of St. Mary's is in the centre of the tract, numbering near 3,000 inhabitants. It has hotels, good public schools, saw and grist mills, stores, well stocked and every thing desired. There are 236 half acre lots in the town of St. Mary, which will be sold and the proceeds equally divided amongst those who buy farms. Ridgely the county seat, where an extensive business is done, joins in on tract on the west. The whole district is intersected by good roads, and the location is a rare opportunity offered to those who wish to farm or have a good investment for the future. By making proper inquiries, and considering the advantages of good soil, an abundance of coal, healthfulness of climate, Railroad facilities, and its location, a correct judgment may be formed of its present advantages and ultimate increase.

By writing to the office directions will be given to those who wish to view the land.—A system of excursions will shortly be adopted. There is an excellent opening for various branches of mechanical business, especially tanners, wheelwrights, axe handle makers, shoemakers, carpenters and others.
