In these fires, the HERRING'S SAFE, standing side by side with those advertised as "warranted to stand 10 per cent. more fire than Herring's," came forth the acknowledged victor, not only preserving their contents in excellent order, but being themselves in a condition to go through another ordeal, while

To the public we would simply say, that, during the fourteen years of the Herring's Safe has been before them, more than two hundred have passed through accidental fires without the occurrence of a single loss.

We would, therefore, caution purchasers against the misrepresentation of interested parties. The Herring's Patent is the only Fire-proof Safe made in this city which is protected by a Patent Right, and we will guarantee it to resist more than double the amount of heat of any other Safe now known.

Already Unstrapassed in Tone and
Dusability.

By still greater perfection in our machinery, and consequent facility for making Guitars, we have not only added to the strength of the Instaument, but have increased the volume of tone, and made it sweeter and more sonorous. Our new arrangement of numbers does away the old style of No. 1 Guitars; and the future No. 1 will be an elegant Rosewood Instrument, superior in appearance as well as in tone to the old No. 2. Our new No. 2 will be about equal to the old No. 4, with the new improvements added; and the No. 3 will be after the style of the old No. 5.

A MUMAN LIFE SAVED :

Dowaciac, Mich., March 11, 1856.
J.A. RHODES, Esq. Dear Sir—As I took your medicine to sell on consignment, "no cure no pay," I take pleasure in stating its effects as reported to me by three brothers who live m this place, and their testimony is a fair specimen of all I have zeceived.
W.S. CONKLIN told me—"I had taken nine bottles of Christies's Agne Balsam, and continually run down while using it until my lungs and liver were congested to that degree that blood discharged from my mouth and bowels, so that all thought it impossible for me to live through another chill. The doctors too did all they could for me, but thought I must die. Nothing did me any good until 1 got Rhodes' Fever and Ague Cure, which at once relieved me of the distress and nausen at my stomach and pain in my head and bowels, and produced a permanent cure in a short time."

nent cure in a short time."

H. M. CONKLIN says—"I had been taking medicine of as good a doctor as we have in our country, and taken any quantity of quinine and specifies without any good result, from 25th August to 17th December. But seeing how nicely it operated on my brother, I got a bottle of Rhode's Fever and Ague Cure, which effected a permanent cure by using two thirds of a bottle."

S. M. CONKLIN was not here, but both S. M. CONKLIN was not here, but both the other brothers say his case was the same as H. M's I sold the medicine to both the same day, and the cure was ns speedy from the same small quantity, and I might so specify. Yours with respect,

A HUNTINGTON.

The above speaks for itself. Good proof as it is, it is of no better tenor than the vast number of like certificates I have already published, and the still greater amount that is continually pouring in to me.

number of like certificates I have already published, and the still greater amount that is continually pouring in to me.

One thing more. Last year I had occasion to caution the public in these words:

"I notice one firm who have taken one of my general circulars, substituted the name of their nostrum for my medicine, and then with brazen impudence end their pamphle with the exclamation, 'Let the Proprietor of any other medicine say as maich if he dares,' &c. &c.

Now I take pleasure in saying that the Caution referred to the same "Dr. Christie's Ague Balsam" that is mentioned in the above certificate.

There are several other industrious people who are applying to their poisonous trash all that I publish about my Fever and Ague Cure, or Antidote to Malaria, except the certificates of cures, and the certificate of the celebrated Chemist, Dr. James R. Chilton, of New York, in favor of its perfectly harm-less character, which is attached to every bottle. These will always serve to distinguish my medicine from imitations.

Report of the Grand Jury.

To the Honorable the Judges of the Court of Quarter Sessions of the Peace in and for the County of Cotambia.

The grand inquest of the Commowealth of Pennsylvania inquiring for the body of the County of Columbia respectfully RE-PORT that they have examined the public buildings belonging to said county and find them in tolerable good condition—the repairs recommended in the last report having been attended to. We would direct attention to the painting about the Count-House, and recommend that it be painted anew. We would also direct attention to the privy belonging to said county building, and recommend that the necessary repairs be done.—We have found the wells in the hall of the basement story of the court-kouse much defaced, to which we would direct attention and recommend that the necessary repairs be made. And we further report that the roads in Scott township have been represented to be in a very bad condition, especially that part leading from Robert Pursel's in Bloom township intersecting the road leading from Espy to Light Street—also the alleys and some of the streets in Bloomsburg have been represented as being obstructed, to which we would direct fyair attention—All of which is respectfully submitted the sixth day of May, 1856.

Ferms of 50. 75, 100, or more acres adjoining in proportion. Seeff Faum fronts upon a road thirty feet in width.

The Soil is a rich limestone loam, and especially adapted to cultivation, as it sneither hilly nor stony, but gently rolling or fine table land. Around and through this property there are streatly sone 20,000 acres under cultivation, and Re fertility has been established frost the crops produced. Upon this estipict it is easy to be fully satisfied. There is a ready cash market for produce which is much better than trade. It is the CHEAPEST, as land of a similar quality is selling at much higher prices adjoining, and especially such as contains coal.

THE COAL—This in particular is the Coal District, several veins underlaying the whole property, and the attention of miners, and those acquainted with coal lands, is specially called to it. It has the advantage of being the nearest to the great lake market, with which it will be connected by the Sunbury and Erre Railroad now under contract and in course of completion from Eric to Ridgeway, with & escending grade the whole way. The soil over Hituminous coal is the best, for instance Engliand and other countries. The price per acre is trifling for the coal alone, as it will certainly, in so favorable a location within a short time pay largely. This is important as an immense coal trade will soon open. Four coal companies have stready been started to work mines in the vicinity, and there are now fifteet openings around St. Mary's.

THE TIMBER, Stockholders also received. There is no reservation whatever either of timber or coal. It is very valuable, and will pay for a great part of the lard. On account of the excellence of streams there are fine opportunities for rills.

FOR HEALTH, the location is much recommended by Physicians. The chills and fevers are unknown, also pulmonary complaints, being protected from the north east winds by the Alleghanies. The water is pure and amongst the least, the land abounding on fine springs.

Borough Council of St. Mary's to the Public.

This is to certify that, having been over the tract owned by the Ridgeway Farm and Coal Company and given it a thorough examination, we find the representations of that Company to be correct. We find the soil to be the most fertile—the coal and iron ore to lie in inexhaustible quantities, through the whole district—the Farms in excellent order, and the intelligence and prosperity of the people to be of the most gratifying character. We know that there is no healthier location in the State, and we consider it a most desirable place of settlement.

We make this declaration, as we believe there may be many persons who are unacquainted with these lands, and we are satisfied, from our knowledge of the subject, that information upon it will be a public benefit.
