A TURN IN TACTICS.

We observe that lately those who hate and fear whatever is found under the name of Democracy have become frightened at the manner in which the greatest national men of the republic flock to the Buchanan ranks as the only position of safety; and the loud-est Freemont shrickers are beginning to call themselves Fillmore men. This is to give the semblance of a chance for Fillmure, so that the old line national Whigs may not all follow in a general stampede for the Demothe same desperate demagogues who man-aged the Know Nothing party two years ago, and who have been lately as loud-mouthed for the black man, as they were lately against the white man who had the misfortune no to have selected the Western Continent for the spot of his birth. These new-born Fillmore men are the fellows who but yesterday were ranting londest for the sickly sentime with which they pollute the name of freedom. Nobody will be deceived by this change in the tactics of the opposition, except those who wish to be cheated; and the honest men of patriotic national principles whom it was designed to dupe will spurn and despise it as an insult to their understanding.

Pic Nic at Cattawissa.

All of our citizens who attended the pic nio at Cattawissa on last week speak of it as a quite pleasant and agreeable party. There were ladies and gentlemen from Cattawissa, Bloomsburg, Danville, Muncy, Williamsport, Tamaqua, Pottsville, Reading and Philadelphia, and the Danville Band enlivened the occasion with choice melody while the mer-ry dance went round. A platform 50 feet by 100 was erected in a beautiful grove at the mouth of Cattawissa creek, and on this, youth, beauty and the graces chased the glowing hours with flying feet.

Respectfully yours,
PETER ENT, Collector.

Only a few years ago the pride of our peo-ple was highly gratified by seeing the re-ceipts on the North Branch amount to one hundred thousand dollars a year. Now they reach nearly half that sum in one month. It is but natural that there should be no dispo-sition in this part of the State for a sale of the public works; and if these improvements had been everywhere so well managed as here the proposition to sell them would never have been seriously made.

Congress adjourned last Monday night without passing any bill to sustain the Army by an appropriation. The President has called an extra session to meet to morrow, Thursday. The most that the present ses sion has done was to increase the pay of members to \$3,000 a year, which is about \$2,200 per Congress more than under the old

A Missouri paper says that Kit Car-son, the fellow explorer of Fremont, is out against him. Careon has done as much exploring as Fremont, and no doubt the honest trapper cannot reconcile it with his idea of equal justice that one explorer should be rewarded by a nomination for the Presidency and the other left to linger in obscurity. taries.

Mr. Dieffenbach, on taking the Chair, re turned thanks for the honor conferred, and reminded the convention of the importance of deliberations which so nearly affected the welfare of two millions of people and 400,000 scholars.

Superintendent Weaver read an interesting report on properly grading institutions of learning, and pointing out the legitimate spheres of the Primary, Secondary, Grammar, and High Schools, the Academy and the College. This gentleman, a leading Whig of Massa chusette and formerly Speaker of the House of Representatives in Congress, was lately invited to attend a Kansas Aid Meeting in Faneuit Hall in Boston, to which invitation Convention of the 17th of June, and made a he replies in a calm dignified manner, but speech in the Black Rapublican Convention takes occasion to administer a just and merited rebuke to such rebels, as are instigating the country the evil of civil war and a dissolution of this glorious Union. His letter is worthy of an Old Line Whig statesman, whose affections are centred on the Constitution of his country, and who is willing to tution of his country, and who is willing to sacrifice party at:achments when free intitutions are in peril. In closing his letter he states his position in the following language:

"There is really but one absorbing ques-tion now before the people. In the solemn nagnitude of its presence all others are hushed. This question is at last presented in a tangible form, shall the Union be pre served! or shall the first step be taken to ward the entire disruption of the States of the Union by a severance of the North from the South? Looking at the political items of the times, with this question stating us in the face, we make our choice of candidates. The nominees of the Cincinnati Convention matter of paramount interest. Other princi-ples are advocated; but if any subservience is to be made, all the others may be com-promised, all of them may be subservient; but "the Union it must be preserved."

"On the other hand, the preservation the Union is a minor and sec under the title of Republicans. With then the preservation of the Union is to be tolerated as a matter of contingency. Mr. Banks ring in the halls of Cougress that he was, in favor of "letting" the Union slide," unless a favorite crochet of his own or his associate

"This is the broad and grand division of the question that now divides the country; and in view of it we hesitate not to declare our infinite preference for James Buchanan to any other man who sustains the leas chance of election, and to endorse him as a our own land, and the wiles, and combina tions, and manifold diplomacy of the tries. ster politicians of the old world."

little some totte lade.

Miss Mc lace, feeling a drop touch her cheek, called out in the derkness to her mother that some one was in her room; but the mother was incredulous, thinking the daughter, whose health is delicate, was in a dream .-The daughter, however, persisted in her dec-laration, and hearing a creak on the floor and realizing by an inexpressible sensation that some object was near her face, she called for a light, and reaching forth to a table by her bedside, found one match, with which she produced a light, and saw two figures glide rom her room out of the door, through which they had forced their entrance. The brave girl, followed by her mother and the two lade pursued the burglars down stairs; but the burglars escaped, and everything was in confusion. The contents of wardrobes and clos-ets were piled upon tables, and strewn about as if the scoundrels were familiar with the localities in the house, and meant to carry

off whatever was most valuable, including an heitlooff watch. They excaped as they had entered, through a kitchen window.

On returning to the room of Miss McClu re, the atmosphere could hardly be endured in the county of the consequence of a pervading odor of chloro-form; and on instituting a search, a sponge saturated with this subtle agent, was found in the bed, where it had been thrown by the robbers. But for the single drop which fell upon the sensitive cheek of the sleeping Miss, the fumes of the chloroform would have been breathed into her lungs, and, in her delicate state of health, might have caused her death. One other strange fact is con-nected with this robbery. The lower front room of the house is occupied by a savings bank, which employs a watchman to stay throughout the night upon the premises; and, although some of the alarmed household group dealt blows against the doors between the banking room and the dwelling portion of the house, at the same time making loud outcries for the watchman, that functi made no response. When the day awoke the town, the watchman awoke, or returned to his post, but no trace of the robbers was dis-

THE FILLMORE ELECTORAL TICKET .- WE stated last week that there v ek that there were men on the nore Electoral Ticket, favorable so-called Fillmore Electoral Ticket, favorable to Fremont. This statement was made on good authority, and the disclosures every day appearing, are confirming it. For example, Caleb N. Taylor is the Elector for the Bucks and Lehigh district; and the Doyles town Democrat informs us that "the is for Freinont, was a Delegate to the "Republican" Convention of the 17th of June, and made a at Doylestown, at the time of his election. This is one specimen, of many, of the sort burg Convention, to gain the votes of na-tional Whigs and Know Nothings who make no secret of their opposition to Fremont.— Let no true friends of Fillmore be deceived last week, will be good enough for Fremont, when the proper time comes. Their only choice is between Buchanan and Fremont between national union and sectional division. Under which flag should Union men

The Fremont papers are boasting a gree other adopted citizens who have, as is al-leged, declared in favor of the Rocky Mounsee the vote cast, and not before; for we have no idea that any naturalized voters are so blind as not to see the proscriptive spirit of Know-Nothinism beneath the Black Re-publican cloak. To show how little respect publican cloak. To show how little respect these same Republicans have for the foreigner, and how they would degrade him if they had the power, read the following extract from a scent letter of the Philadelphia Ledger's Washington correspondent, "Observer." It shows plainly that the game of Know-Nothingism is to be attempted on a new plan. Despairing of obtaining a repeal of the naturalization laws, and shandoning all. hope of ever electing a pure Know Nothing President, the exclusion of adopted citizens from office is to be brought about by suspending the payment of their salaries. Will any foreigner who has a particle of selfrespect, or who values the rights he has ac-quired by naturalization as an American citizen, aid by his vote to place in power men

"The most remarkable feature of the Di-plomatic and Consular Bill, as reported by Mr. Pennington, of New Jersey, a leading Fremont man, is, that while it does not for bid the President to appoint adopted citizens to office, it expressly stipulates that no money hereby appropriated shall be used in paying salaries and other expenses of other than MATIVE BORN citizens of the United States. Mr. Pennington is chairman of the Commitee on Foreign Relations, and goes, in this lause to his bill, further than most Know Nothings, who would grant political under-standing and capacity for office after a term ertion that the adherents of Lieut, Col. Fre mont are no Know-Nothings, and that while they profess warm sympathy for the negroes their hearts equally throb with philanthropy for the German and Irish adopted citizens Perhaps Mr. Pennington has a very high sp-preciation of honor of adopted citizens, which will induce them to serve the country honoris cause, for the honor of it, for the whole hono and nothing but the honor. If so, it is time that the adopted citizens should know what honors are in store for them, should the Lieutenant Culonel be elected."

Terrible Loss of Life

ORLEANS, Aug. 16 .- The calam by the recent storm, which are at first be-dieved to be greatly exaggerated, turn out to be sad realities. The storm continued with great violence from Sunday until Tuesdes evening, and during 48 hours not less that ourteen inches of rain fell by the guage at the Government Hospital, Baton Rouge. The storm extended up the river as far as heard from, and intelligence of further damage to property and loss of life may be anticipated The loss of life at Last Island it is though

will reach 200. The survivors of the di er have arrived here, and they report that bruises and broken limbs. They tell a pitia ble story of their sufferings. They also re-port that the dead bodies were plundered by a set of pirates, and the baggage belonging to the survivors was mostly cerried off by the marauders, who are said to be inhabi-tants of the island. It is supposed that at least \$10,000 in money was stolen from the pockets of the dead, and baggage valued at \$5,000 was also carried off. The buildings destroyed are valued at \$100,000.

Nothing very definite has been heard from the Grand Caillon Island, but as it was also inundated by the flood, the loss of life and destruction of property there Las also been great. It is reported that thirty bodies were found at one end of the Island. The buildings destroyed are valued at \$58,000
