THE undersigned, having just received the latest Paris and New York Fashions, would again beg leave to inform his numerous friends and all the world about Bloomsburg, that he is now better prepared than ever to accommodate any one with the neatest, easiest and best fitting suits of Clothes that have been turned out lately; and not only that, but he will also do them up in the best order, upon the lowest terms.

that, but he will also do them up in the best order, upon the lowest terms.

His shop is at the old stand, (too well known to need further notice) where he may at all times be found, seated upon the bench of repentance, steadily drawing out the thread of affliction, hopeing it may in the end prove advantageous to him and his customers. He would also advise his friends to bear in mind that poor, afflicted tailors must live, or they can't be expected to work. Therefore, Wheat, Rye, Corn, Oats, Potatoes, and with all now and then a little CASH will come mighty handy from those who are buck-standing on his book.

THEY never did do more than give temporary relief and they never will. It is because they don't touch the cause of the disease. The tause of all ague and billious disease is the almospheric poison called Missma or Malaria. Neutralize this poison by

and all diseases caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached, to every bottle; therefore if it does no good if car. do no harm

bottle; therefore if it does no good if car. do no barm.

This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on DUMB AGUE, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:

Georgetown, Ohio, March 17, '56.

Jas. A. Rhodes, Esq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the fact that a remety had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presume that the remedy they needed to escape taking Quinine, contained the DRUG ITSELF!

This remedy, (known as "Smith's Tonio,') and the contained the CRUG ITSELF!

presume that the remedy they needed to escape taking Quinine, contained the DRUG ITSELF!

This remedy, (known as "Smith's Tonic,") would invariably BREAK an ague, but it did not CURE it, and it would often return with renewed vigor. The one circumstance I deemed in your favor, if I could institute a stest comparison between it and your CURE. The following is the result:

Three persons took your "Care," all of which were cases of "Quotidian Intermittent Fever," of many weeks standing. They had tried Quinine, and other remedies, occasionally missing a chill, but it was, (as in all such cases,) slowly wearing them out, and laying the foundation of other and severer maladies. I did succeed in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonici" had been used, and would, as before stated, break the chill, but after a period or two had elapsed it would return.

I think there will be no difficulty now in giving to your "Cure" the vantage ground of any other remedy now in use here, &c. &c. WILLIAM BUCKNER, M. D. RHODES' FEVER and AGUE CURE, or Antidote to Malaria, the only harmless remedy in existence, is equally certain as a PREVENTIVE, as a "CURE." Take it when you feel the chill coming on, and you will never have a single one.

structive scourges ever visited upon mankind for the sins of sensuality and impurity of every kt d.

It is a volume that has received the unqualified recommendation of the first physicians in the land, while many clergymen. fathers, mothers, hilanthropusts and humanitarians, have most freely extended its circulation in all quarters where its powerful teachings would be likely to be instrumental in the moral purification and physical healing of multitudes of our people, among the young, volatile and indiscreet, otherwise the pride and flower of the nation. The author argues particularly, most strongly against every species of self-defilement, and warns parents and guardians, in searching terms, to guard the young of both sexes from the terrible consequences concomitant of their ignorance of physiological laws and sexual impurities and irregularities, whether exhibited by precocious development or arising from the viscious and corrupting examples of their schoolmates or otherwise. To those who have been already ensanced to the "paths that take hold on hell," a clear and explicit way is shown by which they may secure a return of sound health and a regeneration of the soul from its terrible pollution.

It is well known that thousands of victims

which they may secure a return of sound health and a regeneration of the soul from its terrible pollution.

It is well known that thousands of victims are annually sacrificed at the shrine of Quackery—especially those suffering from Venereal or Syphilitic diseases—Strictures, Seminal Wesk, ness, Nervous Debility, and the numerons maladies which spring directly or less remetely from the indulgence of carnal passions and secretivolations of Nature.

In view of these facts, and when it is also considered that about 100,000 persons die annually in the United States of Conoumption—a large majority being the victims of the voluputous indiscretion of their progenitors, agreeably to the Scriptural enunciation, that the sins of the parents are visited upon the children, even to the third and fourth generation. The Author, imbused with sentiments of enlarged philinthropy, will scarcely be censured for any effort to restrain the vices of the age, by the humble instrumentality of his Medical Manual,

in the mind.

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak, he is dull, irresolute, and engages in his sport with less energy than usual.

If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this is caused by his early follies.—

These are considerations which should awaken the attention of those similarly situated.

CHAMPION!!

The only Safe which, in every instance, preserved the entire contents at the late Extensive Fires.

A T THE BURNING OF THE ARTIZAN BUILDINGS, April 10th, and in the great fire in Market Street, May 1st, 1856, the genuine Herring Safe preserved the Jewelty of George W. Simms & Bro.; Books, Papers &c. of Fisher & Bro. and Edward Semans & Co., after remaining exposed in the burning ruins for nearly Forty Hours, and proving conclusively what we have always claimed for them, their great superiority over all securities known.

ties known.

In these fires, the HERRING'S SAFE, standing side by side with those advertised as "warranted to stand 10 per cent. more fire than Herring's," came forth the acknowledged victor, not only preserving their contents in excellent order, but being themselves is a condition to go through another ordeal, while the beasted "Salemanders" of other makers were badly used up in every instance, and in some cases their entire contents completely destroyed.

were badly used up in every instance, and in some cases their entire contents completely destroyed.

To the public we would simply say, that, during the fourteen years of the Herring's Safe has been before them, more than two hundred have passed through accidental fires without the occurrence of a single loss. We would, therefore, caution purobasers against the misrepresentation of interested parties. The Herring's Patent, is the only Fite-proof Safe made in this city which is protected by a Patent Right, and we will guarantee it to resist more than double the amount of heat of any other Safe now known.
