Messrs. Evans & Watson, No. 26 south Fourth Street, Philadelphia.—Gentlemen:—We take pleasure in recommending your Salamander Safes to merchants and others in want of a secure means of preserving their books, papers, &c., from fire, as the one we purchased from you about seven months since has preserved our books, papers, and cash in as good condition as they were when put into -it, before the great fire of this morning, which destroyed the entire block of buildings corner of Chestnut and Fifth Streets. The above Safe was in use in our office, on the second floor of our building, from which place it fell into the cellar, and remained there until the fire was out.—The safe was then removed, and oppened in the presence of at least 1000 persons, who witnessed the good condition of the contents. Will you please have the Safe and locks repaired, as we intend to put it in use again, having perfect confidence in its fire proof qualities. Yours, respectfully, LACEY & PHILLIPS.

TONICS WON'T DO.

THEY never did do more than give temporary relief and they never will. It is because they don't touch the cause of the disease. The cause of all ague and billious diseases is the atmospheric poison called Miasma or Malaria. Neutralize this poison by

and all diseases caused by it disappears at once. Rhodes' Fever and Ague Cure is thus Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached to every bottle; therefore if it does no good it car do no here.

This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their

This is more than can be said of Quinne, Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on DUMB AGUE, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a latter interresized from a

Physician:

Georgetown, Ohio, March 17, '56.

Jas. A. Rhodes, Esq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presume that the remedy they needed to escape taking Quinine, contained the DRUG ITSELF!

This remedy (known as 'Smith's Tonic'?)

or presume that the remesty they needed to escape taking Quinine, contained the DRUG ITSELF!

This remedy, (known as "Smith's Tonic,") would invariably BREAK an ague, but it did not CURE it, and it would often return with renewed vigor. The one circumstance I deemed in your favor, if I could institute a test comparison between it and your CURE. The following is the result:

Three persons took your "Cure," all of which were cases of "Quotidian Intermittent Fever," of many weeks standing. They had tried Quinine, and other remedies, occasionally missing a chill, but it was, (as in all such cases,, slowly wearing them out, and laying the foundation of other and severer maladies. I did succeed in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic," had been used, and would, as before stated, break the chill, but after a period or two had slapsed it would return.

I think there will be no difficulty now in giving to your "Cure" the vantage ground of any other remedy now in use here, &c. &c.

WILLIAM BUCKNER, M. D.

RHODES' FEVER and AGUE CURE, or Antidote to Malaria, the only harmless remedy in existence, is equalty certain as a PRE-VENTIVE, as a "CURE." Take it when you feel the chill coming on, and you will never have a single one.
