are strong and durable, and very simple in their construction: run light, and are not table to get out of order. With a slight elevation, the weight along of the horse or horses drives the Thrasher with force and speed. They may also be used for various other purposes, such a driving Circular Saws, Terming Lathes, Boring Machines, Grind-Stones, Charps, etc. etc.

The Overshot Machines have several advantages over the machines now in use. The apron or feeding table is level, and of a proper height to allow the feeder to stand erect, and feed evenly and easily without anneyance from duet; sticks and stone are not liable to get into the thrasher, and the grain is not ceatered, but thrown down to the reparator. The two horse machine, attended by from two to three hands, will thrash from 100 to 150 bashels of wheat, or double the amount of oats per day. The one horse machine, attended by two or three hands, will thrash from 30 to 75 bushels of wheat, or double the amount of oats per day. The Feed-Cotter is a first rate article, and is very much used. It cuts fine and very fast; stalks are cut by it 2-8 of an inch long, at he rate of itom 300 to 500 sheaves per day.

The foregoing is a brief statement of the questifies and character of our machines.—There probably is a larger number of Wheeler's Patent Powers made and sold than any other kind. We offer our machines to the farming community with full confidence in their merits, and invite all interested to call and examine them before purchasing elsewhere.

For forther particulars, or for purpose of The Overshot Machines

TO THE FASHONABLE AND DEPERTURES.

THE undersigned, having just received the latest Paris and New York Fashions, would again beg leave to inform his numer oss friends and all the world about Blooms burg, that he is now better prepared than ever to accommodate any one with the neatest, easiest and best fitting suits of Clothes that have been turned out lately; and not only that, but he will also do them up in the best order, upon the lowest terms.

His shop is at the old stand, (too welknown to need further notice) where he may at all times be found, seated upon the bench of repentance, steadily drawing out the thread of affliction, hopeing it may in the end prove advantageous to him and his customers. He would also advise his friends to bear in mine that poor, afflicted tailors must live, or they can't be expected to work. Therefore, Wheat Rye, Corn, Oats, Potatoes, and with all now and then a little CASH will come mighty handy from those who are back-standing on the book. Remember, gentlemen, that in all cases

Reat Fire, Chestant & Fifth Streets, Monday Morning, December, 19th, 1854. EVARS & WATSON'S SALAMAN, DER SAFES TRIUMPHANT, as they always see when put to the test.

Philadelphia. Ucc. 15th, 1864.

Messes, Evans & Watson, No. 26 south Fourth Street, Philadelphia.—Gentlemen:—We take pleasure in recommending your Salamander Sales to merchants and others in want of a secure means of preserving their books, papers, &c., from fire, as the one we purchased from you about seven months since has preserved our books, papers, and cash in as good condition as they were when put into it, before the great fire of this morning, which destroyed the antire block of buildings corner of Chestant and Fifth Streets. The above Safe was in use office, on the second floor of our building, from which place it fell into the cellar, and remained there until the fire was out.—The safe was then removed, and opposed in the presence of at least 1000 persons, who witnessed the good condition of the contents. Will you please have the Safe and locks repaired, as we intend to put it in use again, having perfect confidence in its fire proof qualities. Yours, respectfully,

LACEY & PHILLIPS.

Evans & Watson take pleasure in referring to the following, among the many hundreds, who have their Safes in use:—U. S. Mint, Philadelphia; Farmers & Mechanics' Bank, Philadelphia; John N. Henderson, City Controller; Caleb Cope & Co., No. 183 Market street; Richard Norris & Son, Locomotive builders, Philadelphia; Baneroft & Sellers, Machinists, corner 16th and James streets; Franklin Fire Insurance Co., Philadelphia; Lacey & Phillips, corner of 5th and Minor street; James, Kent & Santee, No. 147 north Third street.

A large assortment of the above Safes always on hand [warranted to stand at least 10 per cent. more fire than any Herring's Sate now in use.] Evans & Watson also manufacture and keep for sale, Iron Sautters, Iron Doors, and Iron Sash, for making fire proof Vaults, for Banks, stores, private and public buildings; Seal and Letter Copying Presses; Pa List of Letters List of Letters

TONICS WON'T DO.

THEY never did do more than give temporary relief and they never will. It is because they don't touch the cause of the disease. The cause of all ague and billions diseases is the atmospheric poison called Miasma or Malaria. Neutralize this poison by its

NATURAL ANTIDOTE,

and all diseases caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chillon, of New York, to this effect, is attached to every bottle; therefore if it does no good it can do no harm.

bottle; therefore it it does no good it can do no harm.

This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on DUMB AGUE, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician. YET award.d by Agricultural Societies, was given to this supertor article, at the Pennsylvania State Fair, at Harrisburg, as a Fentilizer of the Best Quality for Wheat, Corn, Oats, Grass & Potatoes, Wazat, Corn, Units, Grass & Petalees, Raising heavy crops, and greatly improving the soil. son to teel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:

Georgetown, Ohio, March 17, '56.

Jas. A. Rhodes, Esq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presume that the remedy they needed to escape taking Quinine, contained the DRUG ITSELF!

This remedy, (known as "Smith's Tonic,") would invariably BREAK an agus, but it did not CURE it, and it would often return with renewed vigor. The one circumstance I deemed in your favor, if I could institute a test comparison between it and your CURE. The following is the result:

Three persons took your "Cure," all of which were cases of "Quotidian Intermittent Fever," of many weeks standing. They had tried Quinine, and other remedies, occasionally missing a chill, but it was, (as in all such cases, slowly wearing them out, and laying the foundation of other and severer maladies. I did succeed in effecting a radical cure of all three of these cases the "Smith's Tonic" had been used, and would, as before stated, break the chill, but after a period or two had elapsed it would return.

I think there will be no difficulty now in giving to your "Cure" the vantage ground of any other remedy now in use here, &c. &c.

WILLIAM BUCKNER, M. D.

RHODES' FEVER and AGUE CURE, or Antidet to Malaria, the only harmless remedy in existence, is equally certain as a PRE-VENTIVE, as a "CURE." Take it when you feel the chill coming on, and you will never have a single one.

woman: their Physiology, Functions and Sexual Disorders of overy kind, with never failing Remedies for the speedy cure of all diseases of a private and delicate character, incident to the violation of the Laws of Natures and of Natures God.

PRICE TWENTY-FIVE CENTS.

Tas Author of the shove volume is a graduate of one or the first medical schools in the United States, and having devoted a quarter of a centry to the study and treatment of Spphilia and kindred disorders as a speciality, he has become possessed of most invaluable information in regard to the same, and is able to compass into vade mecum compass the very quintensence of medical science on this important subject; as the result of the experience of the most eminent physician in Europs and America is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the City of Philadelphia slone.

The practice of Dr. Hunter has long boen, and still is literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional susfulness to the community at large, through the medium of his "Medi al Manual Hand-Book for the Afflicted."

It is a volume that should be in the hand of every family in the land, whether used as a preventive of secret vice, or as a guide for the alleviation of one of the most awful and destructive scourges ever visited upon mankind for the sins of sensuality and impurity of every lid.

It is a volume that has received the unqualified recommendation of the first physician:

tructive scourges ever visited upon mankind for the sine of sensuality and impurity of every if the its at at the sensual transport of the sine of sensuality and impurity of every if the its at at the sensual transport of the sine of the sensuality and impurity of every if the sensual transport of the sensual transport

which hely may secure a reason as a consideration of the roul from its terrible pollution.

It is well known that thousands of victims are annually sacrificed at the shrine of Quackery—especially those suffering from Venereal or Syphilitic diseases—Strictures, Seminal Weakness, Nervous Debility, and the numerous maladies which spring directly or less remotely from the indulgence of carnal passions and secretivolations of Nature.

In view of these facts, and when it is also considered that about 100,000 persons die annually in the United States of Conoumption—a large majority being the victims of the voluputous indiscretion of their progenitors, agreeably to the Scriptural enunciation, that the sins of the parents are visited upon the children, even to the third and fourth generation. The Author, imbued with sentiments of enlarged philathropy, will scarcely be censured for any effort to restrain the vices of the age, by the humble instrumentality of his Medical Manual.

PHILADELPHIA MEDICAL HOUSE Established 20 years ago by Dr. KINKEL extension of the control of the

Are apprised that Dr. KINKELIN confines his practice to a particular branch of medicine, which engages his individual attention He cautions the unfortunate against the abuse of mercury; thousands are annually mercurialized out of life. Recent affections are promptly extinguished.

TWENTY YEARS' EXPERIENCE

In the treatment of a class of diseases hith-erto neglected and imperfectly understood, has enabled Dr. KINKELIN, Author of a work on Self Preservation, to prove hat nine-tenths of the causes of nervous debility, lo-cal and constitutional weakness, mental and physical suffering, are traceable to certain habits, forming the most secret yet deadly and latal springs of domestic misery and premature mortality. TAKE PARTICULAR NOTICE.

TAKE PARTICULAR NOTICE,
There is an evil habit sometimes indelged in by boys, in solitude, and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating afflictious. Few of those who give way to this pernicious practices are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable feelings, and vague fears in the mind.

The unfortunate thus affected becomes feele, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak, he is dull, urresolute, and engages in his sport with less energy than usual.

If he emancif ate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitfol, and his sense tells him that this is caused by his early follies.—These are considerations which should awaken the attention of those similarly situated.

MARRIAGE

MARRIAGE MARKIAGE

Requires the fulfillment of several conditions in order that it may be really the cause of mutual happiness. Could the veil which covers the origin of domestic wretchedness be raised, and its true source in every instance disclosed—in how many could it be traced to physical disqualifications and their attacked to physical disqualifications and their attacked to physical disqualifications and their it is yet time, in order to have your unstring and relaxed organization rebraced, revivified and strengthened.

and relaxed organization rebraced, revivified and strengthened.

REMEMBER.

He who places himself under Dr. Kinkelin's treatment may religiously confide in his honor as a genteman, and rely upon the assurance, that the secrets of Dr. K's patients will never be disclosed.

Young mau—let no false modesty deteryon from making your case known to ane who, from education and respectability, can befriend you.

Too many think they will conceal the secret in their own hearts, and cure themselves Alas! how often is this a fatal delusion, and how many a promising young man, who might have been an ornament to society, has faded from the earth.

Sructures of the urethra are rapidly removed by the application of a new therapeutical agent, used only by Dr. K. Weakness and Constitutional Debility promptly cured, and full vigor restored,

"I am a man and deem nothing which relates to man foreign to my feelings."

CHAMPION!!

The only Safe which, in exery instance, preserved the entire contents at the late Extensive Fires.

A T THE BURNING OF THE ARTIZAN BUILDINGS, April 10th, and in the great fire in Market Street, May 1st, 1856, the genuine Haranne Sarz preserved the Jewelry of George W. Simms & Bro.; Books, Papers &c. of Fisher & Bro. and Edward Semans & Co., after remaining exposed in the burning mines for nearly Forty Hours, and proving conclusions.

of Fisher & Bro. and Edward Semans & Co., after remaining exposed in the burning mins for nearly Forty Hours, and proving conclusively what we have always claimed for them, their great superiority over all securities known.

In these fires, the HERRING'S SAFE, standing side by side with those advertised as "warranted to stand 10 per cent. more fire than Herring's," came forth the acknowledged victor, not only preserving their contents in excellent order, but being themselves is a condition to go through another ordeal, while the beasted "Salemanders" of other makers were baddy used up in every instance, and in some cases their entire contents completely destroyed.

To the public we would simply say, that, during the fourteen years of the Herring's Safe has been before them, more than two hundred have passed through accidental fires without the occurrence of a single loss.

We would, therefore, caution purchassers against the misrepresentation of interested parties. The Herring's Patent is the only Fire-proof Safe made in this city which is protected by a Pstent Right, and we will guarantee it to reasts more than double the amount of heat of any other Safe now known.

FARRELS & HERRING,
Sole Manufacturers in this State of "Herring's Patent Champion Safes."

N. B.—"Evans & Watson's Improved Salemanders," "Oliver Evans," "C. J. Gayler's and 'Scott's Abesion," Iron. Cheests, (a large assortment having been taken in part payment for "Herring's,") will be sold at low prices.

Philadelphia, June 10, 1856-19. Dr. FRANCIS C, HARRISON,
WOULD respectfully inform the citizens of Bloomsburg and vicinity, that he has commenced the practice of Medicine and Surgery there; and colicits ashare of publicipatronage. He can always be found at the Exchange Hotel opposite the Court House.
