**PROSPECTUS OF THE DAILY PENNSYLVANIAN.**  
The Proprietor of the Philadelphia "Daily Pennsylvania," in view of the Presidential Election, has made ample arrangements for the improvement of that Journal in all its various departments. A double sheet, containing eight pages of six columns each, printed on good paper, with clear type, is issued daily. No pains are spared to do full justice to every part of that paper. The largest telegraphic news from all parts of the country will be found in its columns; and at great expense, talented correspondents from whom highly interesting letters are received, have been secured, not only in England, France, Washington and New York, but in many other parts of the country. Great attention is also paid to the monetary, commercial, and especially the shipping intelligence of this Journal, as well as to the local news of the City. And while every desirable feature of a Newspaper is thus constituted upon the Pennsylvania, it will contain, and published, together with the Belief, improvement, and future prospects of the Population, from the statistics of 1855 and 1856. 12mo., 640 pages. Retail price, \$1.25.

**EDUCATIONAL BOOK STORE.**  
No. 33 North Third Street,  
East Side, above Market, Philadelphia, Pa.  
PUBLISHERS of Pelton's System of Geography, by J. Pelton, Esq., of the aid of six splendid outline maps, each covering nearly two square feet, and forming an invaluable as well as elegant ornaments for the school room. Children are delighted to study Geography by this system. They learn so rapidly and receive such clear impressions of the subject, that it is a pleasure to both teacher and pupil to be engaged in it. We all know that a better and more lasting idea of a locality is obtained by looking at a bold and distinct drawing of it, than by volumes of description. If a man wants to get an exact idea of a farm he has been purchasing, he can more by one look at the draft on the back of the deed, than by reading the description inside twenty times. This is the great principle of Pelton's system of Geography, and there are others equally practical combined with it which entitle it to the reputation it sustains, as the best and quickest mode of teaching Geography, yet introduced.

**PHYSICAL GEOGRAPHY**—including all the invaluable discoveries in this science, of Lat. Meury and his coadjutors, is beautifully illustrated by these maps and the accompanying keys. The keys are to be half by the scholars, and cost less than half the price of a Geography and Atlas. SOWER & BARNES also publish Sanders' New Readers, of which over two hundred thousand sets have been sold, and increased by every possible means and the whole power of their organization is used to accomplish that object. The speeches of their disunion orators, and other incendiary documents, are now broadcast throughout the land, and it is necessary that the hands of every voter. Those who have to match before a cause to advocate, and upon the success of whose labor rests the durability of the very corner stones upon which our happiness is founded,—civil and religious liberty,—and the prosperity of the Union itself, should not be less active. We appeal to the true Democracy, and to all Constitution loving citizens, to come forward and aid us in this seminary of political information, and exposing the nefarious designs of our antagonists. We appeal alike to the citizens of the North, and of the South to aid in the circulation of these tracts, and support of those measures, which are advocated by the only National Political organization now in existence. The Proprietor can already boast of a large circulation in the Southern States, and he is anxious to increase the number of his readers in that region, so that his hands may be strengthened for coming conflicts against those who are not only the enemies of the South, but the enemies of all true men in every portion of the Confederacy. In Pennsylvania, and the Northern and Western States, an increased circulation of the journal will do much as an antidote to the poisonous doctrine of the Unholy Back Republicans, and tyrannical and corrupt Cal. Dealings. We therefore confidently calculate upon the hearty cooperation of our political friends to the extension of our circulation, and feel confident that this appeal will not be made to them in vain.

**The Medicine of the GREAT BRITISH PHILLOSOPHY AND FACT.**  
HOLLOWAY'S PILLS.  
The Exciting Cause of Sickness.  
The blood is the life sustaining agent. It furnishes the components of flesh, bone, muscle, nerve and ingement. The stomach is its manufactory, the liver its distributor, and the intestines the channel through which the waste matter rejected in its productions is expelled. Upon the stomach, the circulation and the bowels, these Pills act simultaneously, relieving indigestion, purifying the fluids, and regulating the excretions.  
**THE NATIONAL COMPLAINT.**  
Dyspepsia is the most common disease among all classes in this country. It assumes a thousand shapes, and is the primary source of innumerable dangerous maladies; but whatever its type or symptoms, however obdurate its resistance to ordinary preparations, it yields readily and promptly to this searching and unobscuring remedy.  
**BILIOUS AFFECTIONS.**  
The quantity and quality of the bile are of vital importance to health. Upon the liver, the gland which secretes this fluid, these Pills operate specifically, infallibly rectifying its irregularities, and effectually securing judicious, bilious hemorrhages, and all the various diseases generated by an unregular condition of the organ.  
**BOWEL COMPLAINTS.**  
Unless the bowels perform their functions properly, the whole body suffers. Tens of thousands die annually of Dysentery, Diarrhoea, Chronic constipation, and other diseases of these essential pipes of the system. The effect of the Pills upon all internal disorders, whether casual or epidemic, is a phenomenon in medicine. By following the printed directions, the most alarming cases of bowel complaint are promptly relieved.  
**A Warning to Females.**  
The local habit and irregularities which are the especial annoyances of the weaker sex, and which, when neglected, always shorten life, are relieved for the time being, and prevented for the time to come, by a course of this mild but thorough alternative.

**HOLLOWAY'S PILLS**
