their books, papers, &c., from fire, as the

in our office, on the second floor of our buildlog, from which place it fell into the cellar,
and romained there until the fire was out.—
The safe was then removed, and oppened in
the presence of at least 1000 persons, who
withessed the good condition of the contents.
Will you please have the Safe and locks repaired, as we intend to put it in use again,
having perfect confidence in its fire proof
qualities. Yours, respectfully.

March 27, 1856. TONICS WON'T DO.

THEY never did do more than give temporary relief and they never will. It is because they don't touch the cause of the disease. The cause of all ague and billious diseases is the atmospheric poison called Missian or Malaria. Neutralize this poison by

NATURAL ANTIDOTE.

and all diseases caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmiess medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached to every bottle; therefore if it does no good it car do no barm.

This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is roinous to the constitution and brings on DUMB AGUE, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:

Georgetown, Ohio, March 17, 756.

Jas. A. Rhodes, Esq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the fact that a remety had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presume that the remedy they needed to escape taking Quinine, contained the DRUG ITSELF!

This remedy, (knownas 'Smith's Tonic,") would invariably BREAK an ague, but it did

ever have a single one.

book, by mail, or five copies will be sent for one copies laking Quinine, contained the DRUG ITSELF!

This remedy, (known as "Smith's Tonie.") would invariably BREAK an ague, but it did not CURE it, and it would often return with renewed vigor. The one circumstance I deemed in your favor, if I could institute a test comparison between it and your CURE. The following is the result:

Three persons took your "Cure," all of which were cases of "Quotidian Intermittent Fever," of man breaks standing. They had tried Quinine, and other remedies, occaviously sussesses shall, but it was (as in all such cases, slowly wearing them out, and laying the foundation of other and severer maladies. I did succeed in effecting a radical cure of all three of these cases the "Smith's Tonie" had been used, and would, as before stated, break the chill, but after a period or two had elapsed it would return.

I think there will be no difficulty now in giving to your "Cure" the vantage ground of any other remedy now in use here, &c. &c. &c. WILLIAM BUCKNER, M. D.

RHODES FEVER and AGUE CURE, or staidle to Malaria, the only harmless remedy in existence, is equally certain as a PREVENTIVE, as a "CURE." Take it when you feel the chill coming on, and you will never have a single one.

Tan Author of the above volume is a gradute of one or the first medical schools in the
linted States, and having devoted a grants. United States, and having devated a quarter of a cestury to the study and treatment of Syphilis and kindred disorders as a speciality, he has become possessed of most invaluable information in regard to the same, and is able to compass into vade mecum compass the very quintessence of medical science on this important subject; as the result of the experience of the most eminent physicien in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of server diseases in many thousands of cares in the Oily of Philadelphis slone.

The pretice of Dr. Hunter has long boen, and still is literally unbounded, but at the carnets obligation of numerous persona, he has been induced to extend the sphere of his professional assfulases to the community at large, through the medium of his "Medi al Manual Hand-Book for the Afficied."

It is a volume that should be in the ha, d of every family in the land, whether used as a nerventive of secret vice, or as a guide for the alleviation of one of the most awful and destructive scourges ever visited upon mankind for the sins of secausity and impurity of every ki d.

It is a volume that has received the unquali-

ery—especially those suffering from Venereal or Syphilitic diseases—Strictures, Seminal Weakness, Nervous Debility, and the somerous manadies which spring directly or less remotely from the indulgence of carnal passions and secret violations of Nature.

In view of these facts, and when it is also considered that about 100,000 persons die annually in the United States of Concumption—a large majority being the victums of the voluputous indiscretion of their progenitors, agreeably to the Scriptural enunciation, that the sins of the parents are visited upon the children, even to the third and fourth generation. The Author, inabued with sentiments of enlarged phithnthropy, will scateely be ceasured for any effort to restrain the vices of the age, by the humble instrumentality of his Medical Mannal.

In these fires, the HERRING'S SAFE,

were badly used up in every instance, and in some cases their entire contents completely destroyed.

To the public we would simply say, that, during the fourteen years of the Herring's Safe has been before them, more than two hundred have passed through accidental fires without the occurrence of a single loss.

We would, therefore, caution purchasers against the misrepresentation of interested parties. The Herring's Patent is the only Fire-proof Safe made in this city which is protected by a Patent Right, and we will guarantee it to resust more than double the amount of heat of any other Safe now known.
