

WHEELER'S PATENT CHAIN HORSE POWERS,

OVERSHOT THRASHERS, FEED-CUTTERS, &c.

The above cut represents a single or one horse machine with the bands necessary to attend it.

The subscribers take this method of informing the public in general, that they have for some time been carrying on, in all their various branches, the manufacture and sale of Wheeler's Patent Chain Horse Powers, together with Overshot Thrashers, Feed Cutters, Revolving Horse Rakes, &c.; in Luth Street, Columbia Co., and the town of Northumberland, Northumberland Co., Pa.

The Horse-Powers are strong and durable, and very simple in their construction; run light, and are not liable to get out of order. With a slight variation, the weight alone of the horse or horses drives the thrasher with force and speed. They may also be used for various other purposes, such as driving Circular Saws, Turning Lathes, Boring Machines, Grind-Stones, Churns, &c.

The Overshot Machines have several advantages over the machines now in use. The apron or feeding table is level, and of a proper height to allow the feeder to stand erect, and feed evenly and easily without annoyance from dust; sticks and stones are not liable to get into the thrasher, and the grain is not scattered, but thrown down, Columbia Co., Pa.

The foregoing is a brief statement of the qualities and character of our machines. There probably is a larger number of Wheeler's Patent Powers made and sold than any other kind. We offer our machines to the farming community with full confidence in their merits, and in the interest to call and examine them before purchasing elsewhere.

For further particulars, or for purpose of ordering machines, address the subscribers at Light Street, Columbia Co., or at Northumberland, North Co., Pa., or apply to the following Agents:—Jacob Hartman, Milton; John Derr, near Selingsgrove, near Hambant; Lewisburg, A. J. Evans, Myer, Samuel Hartman, Harleton; Daniel Kneaker, New Berlin.

SALAMANDER SAFES;
EVANS & WATSON,
No. 26 South Fourth St., PHILADELPHIA.

Great Fire, Chestnut & Fifth Streets, Monday Morning, DECEMBER 15th, 1854.

EVANS & WATSON'S SALAMANDER SAFES were, as they always are, when put to the test.

Philadelphia, Dec. 15th, 1854.

Messrs. Evans & Watson, No. 26 South Fourth Street, Philadelphia.—Gentlemen:—We take pleasure in recommending your Salamander Safes to merchants and others in want of a secure means of preserving their books, papers, &c., from fire, as the one we purchased from you about seven months since has preserved our books, papers, and cash in as good condition as they were when put into it, before the great fire of this morning, which destroyed the entire block of buildings corner of Chestnut and Fifth Streets. The above Safe was in use in our office, on the second floor of our building, from which place it fell into the cellar, and remained there until the fire was out. The safe was then removed, and opened in the presence of at least 1000 persons, who witnessed the good condition of the contents.

We will please have the Safe and locks repaired, as we intend to have it repaired, and have perfect confidence in its fire proof qualities. Yours, respectfully,
LACEY & PHILLIPS.

Evans & Watson take pleasure in referring to the following, among the many hundreds, who have tested their Salaman- der Safes:—S. S. Smith, Philadelphia; Farmers & Merchants' Bank, Philadelphia; Samuel Allen, Esq., High Sheriff, Philadelphia; John N. Heintzen, City Controller; Caseb Corp & Co., No. 183 Market Street; Richard Norris & Son, Locomotive Builders, Philadelphia; Burton & Sellers, Machine Co., corner 16th and James Streets; Franklin Fire Insurance Co., Philadelphia; Pennsylvania Railroad Co., Philadelphia; Lacey & Phillips, corner of 5th and Minor Streets; Edward Walker, 114 Fulton St.; James, Kent & Santee, No. 147 North Third Street.

A large assortment of the above Safes always on hand (warranted to stand at least 10 per cent. more fire than any other's), and for sale by the manufacturer and dealer, Iron Shelters, Iron Doors, and Iron Sash, for making fire proof Vault, for Banks, stores, private and public buildings; Seal and Letter Copying Presses; Patent Steam Lined Refrigerators, &c. Please give or call at No. 26 South 4th Street Philadelphia.

TERRIBLE DISCLOSURES
Secrets for the Million!
A most Wonderful and Invaluable Publication.
Dr. Hunter's Medical Manual.

BEING AN ORIGINAL and popular Treatise on MAN and WOMAN: their Physiology, Functions and Disorders, in every kind, with never-failing Remedies for the speedy cure of all diseases of a private and delicate character, incident to the violation of the Laws of Nature and of Natures God.

FIVE TWENTY-FIVE CENTS.

The Author of the above volume is a graduate of one of the first medical schools in the United States, and having devoted a quarter of a century to the study and treatment of Syphilis and kindred disorders as a specialty, he has been possessed of most valuable information in regard to the same, and is able to compass into vade mecum compass the very quintessence of medical science on this important subject; as the result of the experience of the most eminent physician in Europe and America is thoroughly demonstrated in his work; his successful practice in the treatment of such diseases in many thousands of cases in the City of Philadelphia alone.

The practice of Dr. Hunter, has long been, and still is, literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional usefulness to the community at large, through the medium of a Manual, which has been long and carefully studied, for the sake of every family in the land, whether used as a preventive of secret vice, or as a guide for the alleviation of one of the most awful and distressing scourges ever visited upon mankind; for the sake of every individual of both sexes, for the sake of every young man and woman, and of every female who is desirous of preserving the purity and vigor of her system, and of every female who is desirous of being restored to her natural state of health and vigor.

It is a volume that should be in the hands of every family in the land, whether used as a preventive of secret vice, or as a guide for the alleviation of one of the most awful and distressing scourges ever visited upon mankind; for the sake of every individual of both sexes, for the sake of every young man and woman, and of every female who is desirous of preserving the purity and vigor of her system, and of every female who is desirous of being restored to her natural state of health and vigor.

PHILADELPHIA MEDICAL HOUSE—Established 20 years ago by Dr. KINKELIN, corner of Third and Union streets, between Spruce and Pine, Philadelphia, Pa.

INVALIDS

Are apprised that Dr. KINKELIN confines his practice to a particular branch of medicine, which engages his individual attention. He cautions the unfortunate against the abuse of mercury; thousands are annually mercenariolized out of life. Recent affections are promptly extinguished.

TWENTY YEARS' EXPERIENCE
In the treatment of a class of diseases hitherto neglected and imperfectly understood, has enabled Dr. KINKELIN, Author of the "Nature's Guide," to prove that nine-tenths of the causes of nervous debility, local and constitutional weakness, mental and physical suffering, are traceable to certain habits, forming the most secret yet deadly and latent springs of domestic misery and premature mortality.

TAKE PARTICULAR NOTICE.
There is an evil habit sometimes indulged in by boys, in solitude, and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and exhausting affections. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable feelings, and vague fears in the mind.

Who contemplate this afflicted condition feelingly, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak, he is dull, irritable, and engages in his sport with less energy than usual.

Who emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this is caused by his early folly.—These are considerations which should awaken the attention of those similarly situated.

MARRIAGE
Requires the fulfillment of several conditions in order that it may be really the cause of mutual happiness. Could the veil which covers the origin of domestic wretchedness be raised, and its true source in every instance disclosed—how many could be traced to physical disqualifications, hidden and unsuspected! Apply them while it is yet time, in order to have your mind and relaxed organization reformed, revived and strengthened.

REMEMBER.
Who places himself under Dr. Kinkelin's treatment may religiously confide in his honor as a gentleman, and rely upon the assurance that the secret of Dr. K's patients will never be disclosed.

Young men—let no false modesty deter you from making your case known to one who, from education and respectability, can be trusted.

Too many think they will conceal the secret in their own hearts, and curse Heaven for ever how often is this a fatal delusion, and how many a promising young man, who might have been an ornament to society, has failed on the earth.

Secrets are rapidly exposed by the application of a few drops of the purest agent, used only by Dr. K. Weakness and Constitutional Debility promptly cured, and full vigor restored.

"I am a man and deem nothing which relates to man foreign to my feelings."

TONIC WON'T DO.
THEY never did more than give temporary relief and they never will. It is because they do not cure the cause of the disease. The cause of all general debility, in cases of the atmospheric poison called Malaria or Malaria. Neutralize this poison by its

NATURAL ANTIDOTE.
and all diseases caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, to whom, in this effect, it is attached to every bottle; therefore if it does no good it can do no harm.

This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on the most violent fevers, and causes a person to feel perfectly well for a short season. In illustration of these truths I annex some extracts from a letter just received from a Physician:

Georgetown, Ohio, March 17, '56.
Jas. A. Rhodes, Esq., New York, N. Y., of 2d St. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the fact that a remedy had been introduced which was growing in popularity, not knowing how better than using Quinine, not knowing I presume that the remedy they needed to escape taking Quinine, contained the DRUG ITSELF!

This remedy, (known as "Smith's Tonic") does not cure the "Ague," but it did cure CURE, and it worked better than any renewed vigor. The one circumstance I deemed in your favor, if I could institute a test comparison between it and your CURE. The following is the result:

Three persons, of our "Care," all of which were cases of "Quintan" intermittent Fever," of many weeks standing. They had tried Quinine, and other remedies, occasionally missing a chill, but it was, (as in all such cases,) slowly wearing them out, and tending to the breaking of other and severer maladies. I did succeed in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic" had broken the chill, before a period of two days elapsed it would return.

I think there is no difficulty now in giving to your "Care" the vantage ground of any other remedy now in use here, &c.

WILLIAM LUCKNER, M. D.
RHODES' FEVER AND AGUE CURE, is Antidote to Malaria, the only harmless remedy in existence, is equally certain as a PREVENTIVE as a "CURE." Take it when you feel the chill coming on, and you will never have a single one.

HERRING'S
AGAIN THE CHAMPION!!
The only Safe which, in every instance, preserved the entire contents of the late Extensive Fire, at the BURNING OF THE ARTIZAN BUILDINGS, April 10th, and in the great fire in Market Street, May 1st, 1856, the genuine HERRING'S SAFE preserved the Jewelry of George W. Simms & Bro.; Books, Papers &c. of Fisher & Bro., and Edward Somers & Co., after remaining exposed in the burning ruins for nearly Forty Hours, and proving conclusively that we have always claimed for them, their great superiority over all competitors.

In the fire, the HERRING'S SAFE, standing side by side with those advertised as "warranted" to stand 10 per cent. more fire than HERRING'S, came forth the acknowledged victor, not only preserving their contents in excellent order, but being themselves in a condition to go through another ordeal, which the boasted "Salamananders" of other makers were badly used up in every instance, and in some cases their entire contents completely destroyed.

To the public we would simply say, that, during the fourteen years of the HERRING'S SAFE has been before them, more than two hundred have passed through accidental fire without the occurrence of a single loss.

We would, therefore, caution purchasers against the mere representation of interested parties. The HERRING'S Patent is the only Fire-proof Safe made in this city which is protected by a Patent Right, and we will guarantee it to resist more than double the amount of heat of any other Safe now known.

Sole Manufacturers in this State of "HERRING'S Patent Champion Safe,"
