OVERSHOT THRASHERS, FEED

The Horse-Powers

trong and durable, and very simple in construction: run light, and are not to get out of order. With a slight elem, the weight alone of the horse or a driver the Thrasher with force and d. They may also be used for various purposes, such a driving Circular Saws, ing Lathes, Boting Machines, Grindss, Churne, etc. etc.

The Overshot Machines have everal advantages over the machines now in use. The apron or feeding table is level, and of a proper height to allow the feeder to stand erect, and feed evenly and easily without annoyance from dusty sticks and stene are not liable to get into the thrasher, and the grain is not scattered, but thrown down to the separator. The two horse machine, attended by from two to three hands, will thrash from 100 to 150 bushels of wheat, or double the amount of oats per day. The one horse machine, attended by two or three hands, will thrash from 50 to 75 bushels of wheat, or double the amount of oats per day. The Feed-Cuter is a first rate article, and is very much used. It cuts fine and very fast; stalks are ent by it 3-8 of an inch long, at he rate of from 300 to 500 sheaves per day.

The foregoing is a brief statement of the qualities and character of our machines.—There probably is a larger number of Wheeler's Patent Powers made and sold than any other kind. We offer our machines to the farming community with full confidence in their meitic, and invite all interested to call and examine them before purchasing elsewhere.

THE FASHONABLE AND OTTEMBER.

THE undersigned, having just received the latest Paris and New York Fashions would again beg leave to inform his numer our friends and all the world about Blooms burg, that he is now better prepared than ever to accommodate any one with the neatest, easiest and best fitting suits of Clothes that have been turned out lately; and not only that, but he will also do them up in the best order, upon the lowest terms.

His shop is at the old stand, (too welknown to need further notice) where he may at all times be found, seated upon the bench of repentance, steadily drawing out the thread of affliction, hopeing it may in the end provadvantageous to him and his customers. He would also advise his friends to bear in mine that poor, afflicted tailors must live, or they can't be expected to work. Therefore, Wheat, Rey, Corn, Oats, Potatoes, and with all now and then a little CASH will come mighty handy from those who are back-standing on the book.

Remember, gentlemen, that in all cases "the laborer is worthy of his hira."

PUBLISHERS of Pellon's System of Geography, taught by the sid of six splendid outline maps, each covering nearly 50 equare feet, and forming an invaluable as well as elegant ornaments for the echool room.

Children are delighted to study Geography by this system. They learn so rapidly and receive such clear impressions of the subject, that it is a pleasure to both teacher and pupil to be engaged in it. We all know that a better and more lasting idea of a locality is obtained by looking at a bold and distinct drawing of it, than by volumes of description. If a man wants to get an exact idea of a farm he has been purchasing, he learns more by one iook at the draft on the back of the deed, than by reading the description inside twenty times. This is the great principle of Pelton's system of Geography, and there are others equally practical combined with it which entitle it to the reputation it sustains, as the best and quickest mode of teaching Geography, ver introduced.

PHYSICAL GEOGRAPHY—including all the invaluable discoveries in this science, of Lieut. Maury and his ceadjutors, is besuit-

teaching Geography, vet introduced.

PHYSICAL GEOGRAPHY—including all the invaluable discoveries in this science, of Lieut Maury and his ccadjutors, is beastifully illustrated by these maps and the secompanying keys. The keys are to be used by the scholars, and cost less than half the price of a Geography and Atlas.

SOWER & BARNES' also publish' Sander's New Readers, of which over two hunder'd thousand were sold within six mouths of their publication. Their success has been wonderful, but their beautiful appearance and evident superiority justifies it.—Prof. Sander's a practical teacher of public schools, who has made the subject the study of his life. Eighteen years ago he published a series of Readers, which had great popularity, but the new series on which he has been engaged ever since, are acknowledged by all to be the greatest advance yet made in Readers. Eminent teachers everywhere, who have been so bored by book agents that they were unwillingly induced to look at them, have at once pronounced their excellence and introduced them over all kinds, and the best which had been published before them. School Directors and Teachers are respectfully invited to write to us concerning School Books.

A full assortment of Miscellaneous and School Books, paper and Stanonary, including Blank Books, of all kinds, on hand and for sale at the lowest wholesale prices, in large or small quantities, to country Merchants.

EVANS & WATSON No. 26 South Fourth Great Fire, Chestnut & Fifth Street

Great Fire, thestant & Pifth Streets, MONDAY MORNING, DECEMBER, 15th, 1854. EVANS & WATSON'S SALAMANDER SAFES TRIUMPHANT, as they always are when put to the test.

Philadelphia, Dec. 15th, 1854.

Messre. Evans & Watson, No. 25 south Fourth Street, Philadelphia.—Gentlemen:—We take pleasure in recommending your Salamander Safes to merchants and others in want of a secure means of preserving their books, papers, &c., from fire, as the one we purchased from you about seven months since has preserved our books, papers, and cash in as good condition as they were when put into it, before the great fire of this morning, which destroyed the entire block of buildings corner of Chestnut and Fifth Streets. The above Safe was in use in our office, on the second floor of our building, from which place it fell into the cellar, and remained there until the fire was out.—The safe was then removed, and oppened in the presence of at least 1000 persons, who witnessed the good condition of the contents. Will you please have the Safe and locks repaired, as we intend to put it in use again, having perfect confidence in its fire proof qualities. Yours, respectfully,

Evans & Watson take pleasure in referring to the following, among the many hundreds

qualities. Yours, respectfully,
LACEY & PHILLIPS.

Evans & Watson take pleasure in referring to the following, among the many hundreds, who have their Safes in use;—U. S. TONICS WON'T DO. THEY never did do more than give temporary relief and they never will. It is because they don't touch the cause of the disease. The cause of all ague and billious diseases is the atmospheric poison called Miasma or Malaria. Neutralize this poison by

NATURAL ANTIDOTE,

and all diseases caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chitton, of New York, to this effect, is attached to every bottle; therefore if it does no good it can do no harm.

Dotte; therefore it is does no good it can be no harm.

This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is roinous to the constitution and brings on DUMB AGUE, which never allows a person to feel perfectly well for a single momer In illustration of these truths I annex som extracts from a letter just received from Physician:

PRICE TWENTY-FIVE CENTS.

The Author of the above volume is a gradu-

ture and of Natures God.

PRICE TWENTY-FIVE CENTS.

The Author of the above volume is a graduate of one or the first medical schools in the United States, and having devoted a quarter of a century to the study and treatment of Syphilis and kindred disorders as a speciality, he has become possessed of most invaluable information in regard to the same, and is able to compass into vade meeum compass the very quint essence of medical science on this important subject; as the result of the experience of the most eminent physician in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of server diseases in many thousands of cares in the City of Philadelphia alone.

The practice of Dr. Hunter has long boen, and still is literally unbounded, but at the carnest solicitation of numerous persons, he has been induced to extend the sphere of his prefessional usufulness to the community at large, through the medium of his "Medi al Mannal Hand-Book for the Afflic'ed."

It is a volume that should be in the hand of every family in the land, whether used as a preventive of secret vice, or as a guide for the sileviation of one of the most awful and destructive securges ever visited upon mankind for the sins of sensuality and impurity of every kt d.

It is a volume that has received the unquali-

structive scourges ever visited upon mankind for the sins of sensuality and impurity of every it it is a volume that has received the unqualified recommendation of the first physicians in the land, while many clergymen, fathers, mothers, hilauthropusts and humanistrians, have most freely extended its circulation in all quanters where its powerful teachings would be likely to be instrumental in the moral purification and physical healing of multitudes of our people, among the young, volatile and indiscreet, otherwise the pride and flower of the nation.

The author argues particularly, most strongly against every species of self-deficement, and warns parents and guardians, in searching terms, to guard the young of both sexes from the terrible consequences concomitant of their ignorance of phylological laws and sexual mind purities and irregularities, whether exhibitency precoious development or arising from the viscious and corrupting examples of their school mates or otherwise. To those who have been already ensuared to the "paths that take holious hell," a clear and explicit way is shown by which they may secure a return of sound health and a regeneration of the soul from its terrible pollution.

It is well known that thousands of victims

which they may accure a return of sound health and a regeneration of the rough from its terrible pollution.

It is well known that thousands of victims are annually sacrificed at the shrin of Quackery—especially those suffering from Venered or Syphilitic diseases—Strictures, Seminal Weakness, Nervous Debility, and the numerous maladies which spring directly or less remetily from the indulgence of carnal passions and secretivistions of Nature.

In view of these facts, and when it is also considered that about 100,000 persons die annually in the United States of Conoumption—a large insjority being the victims of the voluputous indiscretion of their progenitors, agreeably to the Scriptural enunciation, that the sine of the parents are visited upon the children, even to the third and fourth generation. The Author, imbued with sentiments of enlarged phhinabropy, will scarcely be censured for any effort to restrain the vices of the age, by the humble instrumentality of his Medical Manual.

PHILADELPHIA MEDICAL HOUSE—Established 20 years ago by Dr. KINKEIN, corner of Third and Union streets, between Spruce and Pine, Philadelphia, Pa.

INVALIDS

Are apprised that Dr. KINKELIN confines his practice to a particular branch of medicine, which engages his individual attention. He cautions the unfortunate egainst the abuse of mercury; thousands are annually mercurialized out of life. Recent affections are unfortunated as a supplementation of the cautions of mercurialized out of life. Recent affections are a singulated. mercurialized out of life. Recent assections are promptly extinguished.
TWENTY YEARS' EXPERIENCE

TWENTY YEARS EXPERIENCE
In the treatment of a class of diseases hitherto neglected and imperfectly understood,
has enabled Dr. KINKELIN, Author of a
work on Sell Preservation, to prove hat ninetenths of the causes of nervous debility, tocal and constitutional weakness, mental and
physical auffering, are traceable to certain
habits, forming the most recret yet deadly
and fatal springs of domestic misery and
premature mortality.

TAKE PARTICULAR NOTICE,
There is an evil habit sometimes indulged
in by boys, in solitude, and which, if not reformed in due time, net only begets serious
obstacles to matrimonial happiness, but gives
rise to a series of protracted, insidious, and
devastating afflictions. Few of those who
give way to this pernicious practice are aware of the consequences, antil they find
the nervous system shattered, feel arrange
and unaccountable feelings, and vague fears
in the mind.

or, or to apply his mind to study; his step is tarly and weak, he is dull, it resolute, and engages in his sport with less energy than usual.

If he emancia the himself before the practice has done its worst, and enter matrimony, his marriage is unfruitfel, and his sense tells him that this is caused by his early follies.—
These are considerations which should awaken the attention of those similarly situated.

MARRIAGE

Requires the fulfillment of several conditions in order that it may be really the cause of mutual happiness. Could the veil which covers the origin of domestic werethedness be raised, and its true source in every instance disclosed—in how many could it be traced to physical disqualifications and their attendant disappointments! Apply then while it in yet time, in order to have your unstrong and relaxed organization rebraced, revivified and strengthened.

sively what we have always claimed for them, their great superiority over all eccurities known. In these fires, the HERRING'S SAFE, standing side by side with those advertised, as "watranted to stand 10 per cent. more fire than Herring's," came forth the acknowledged victor, not only preserving their contents in excellent order, but being themselves in a condition to get through another ordeal, while the beasted "Salemanders" of other makers were badly used up in every instance, and in some cases their entire contents completely destroyed.

To the public we would simply say, that, during the fourteen years of the Herring's Safe has been before them, more than two hundred have passed through accidental fires without the occurrence of a single loss.

We would, therefore, caution purchasers against the misrepresentation of interested parties. The Herring's Patient is the only fire-proof Safe made in this city which is protected by a Patent Right, arri we will guarantee it to resist more than double the amount of heat of any other Safe now known.
