The Medicine of the Million. PHILOSOPHY AND FACT.

HOLLOWAY'S PILLS. The exciting cause of sickness. The blood is the life sustaining agent, the waste matter of the system, the circulation, the muscles, nerve and integument. The stomach is its manufactory, the veins its distributors, and the intestines the channel through which the waste matter, rejected in its productions is expelled. Upon the stomach, the circulation and the bowels, these Pills act simultaneously, relieving indigestion, purifying the fluids, and regulating the excretions.

THE NATIONAL COMPLAINT. Dyspepsia is the most common disease among all classes in this country. It assumes a thousand shapes, and is the primary source of innumerable dangerous maladies; but whatever its type or symptoms, however obstinate its resistance to ordinary preparations, it yields readily and rapidly to this searching and unerring remedy.

BILIOUS AFFECTIONS. The quantity and quality of the bile are of vital importance to health. Upon the liver, the gland which secretes this fluid, there is irregularity, and it is thereby rendered impure, and it is this impure bile which produces Bilious Remittants, and all the varieties of disease generated by an unnatural condition of the organ.

HEALTHY COMPLAINT. Unless the bowels perform their functions properly, the whole body suffers. Tens of thousands die annually of Dysentery, Jaundice, Chronic Consumption, and other diseases of these waste pipes of the system. The effect of the Pills upon all intestinal disorders, whether casual or epidemic, is a phenomenon in medicine. By following the directions, the most alarming cases of bowel complaint are promptly controlled.

A WORD TO FEMMES. The local debility and irregularities which are the especial annoyances of the weaker sex, and which, when neglected, always shorten life, are relieved for the time being, and prevented for the time to come, by a course of this mild but thorough alterative.

HOLLOWAY'S PILLS Are the best remedy known in the world for the following diseases: Asthma, Bronchitis, Coughs, Croup, Hoarseness, Cold, Fever and Ague, Chest Diseases, Female Complaints, Costiveness, Headaches, Dyspepsia, Indigestion, Stone and Gravel, Inflammation of Secondary Symptoms, Inward weakness, General Affections, Liver complaints, Worms of all kinds, Lowness of spirits, Piles.

Sold at the manufactories of Prof. Holloway, 23 Maiden Lane, New York, and 244 Strand London, by all respectable Druggists and dealers in medicine throughout the U. S. and the civilized world, in boxes at 25 cts., 62 1/2 cts. and \$1 each.

There is a considerable saving by taking the larger sizes. N. B. Directions for the guidance of patients in every disorder are affixed to each box. [Aug. 13, 1856.]
