

**WHEELER'S PATENT CHAIN HORSE POWERS,**

OVERSHOT THRASHERS, FEED-CUTTERS, &c.

The above cut represents a single or one horse machine with the hands necessary to attend it.

The subscribers take this method of informing the public in general, that they have for some time been carrying on, in all their various branches, the manufacture and sale of Wheeler's Patent Chain Horse Powers, together with Overshot Thrashers, Feed Cutters, Revolving Horse Rakes, &c. in Light Street, Columbia Co., and the town of Northumberland, Northumberland Co., Pa.

**The Horse-Powers** are strong and durable, and very simple in their construction; run light, and are not liable to get out of order. With a slight deviation, the weight alone of the horse or horses drives the Thrasher with force and speed. They may also be used for various other purposes, such as driving Circular Saws, Turning Lathes, Boring Machines, Grindstones, Churns, &c. &c.

**The Overshot Machines** have several advantages over the machines now in use. The apron or feeding table is level, and of a proper height to allow the feed to stand erect, and feed evenly and easily without annoyance from dust; sticks and stone are not liable to get into the thrasher, and the grain is not scattered, but thrown down by the separator. The two horse machine, actuated by from two to three loads, will thrash from 100 to 150 bushels of wheat, or double the amount of oats per day. The one horse machine, actuated by two or three hands, will thrash from 50 to 75 bushels of wheat, or double the amount of oats per day. The Feed-Cutter is a first rate article, and is very much used. It cuts fine and very fast stalks are cut by it 3-8 of an inch long, at the rate of from 300 to 500 sheaves per day.

The foregoing is a brief statement of the qualities and character of our machinery. There is probably a larger number of Wheeler's Patent Powers made and sold than any other kind. We offer our machines to the farming community with full confidence in their merits, and invite all interested to call and examine them before purchasing elsewhere.

For further particulars, or for purpose of ordering machines, address the subscribers at Light Street, Columbia Co., or at Northumberland, Northumberland Co., Pa., or apply to the following agents: Jacob Hartman, Milton, Joseph V. Kirk, near Northumberland; John Derr, near Selinsgrove; Jacob Barnhart, Lewisburg; A. J. Evans, Muncy; Samuel Hartman, Hartleton; Daniel Keckner, New Berlin.

**TO THE FASHIONABLE AND OPERATORS.**

THE undersigned, having just received the latest Paris and New York Fashions, would again beg leave to inform his former customers and all the world about Bloomsburg, that he is now better prepared than ever to accommodate any one with the newest, easiest and best fitting suits of Clothes that have been turned out lately; and not only that, but he will also do them up in the best order, upon the lowest terms.

His shop is at the old stand, (no well known to need further notice) where he may at all times be found, seated upon the bench of reputation, steadily drawing out the thread of affliction, hoping it may in the end prove advantageous to him and his customers. He would also advise his friends to bear in mind that poor, afflicted tailors must live, or they can't be expected to work. Therefore, Wheat, Rye, Corn, Oats, Potatoes, and with all now and then a little CASH will come mighty handy from those who are back-standing on his book.

Remember, gentlemen, that in all cases "the laborer is worthy of his hire."

**SOWER & BARNES' EDUCATIONAL BOOK STORE.**

NO. 33 NORTH THIRD STREET, East Side, above Market, Philadelphia, Pa.

PUBLISHERS of Pelton's System of Geography, taught by the aid of six splendid outline maps, each covering nearly 50 square feet, and forming an invaluable as well as elegant ornament for the school room.

Children are delighted to study Geography by this system. They learn so rapidly and receive such clear impressions of the subject, that it is a pleasure to both teacher and pupil to be engaged in it. We all know that a better and more lasting idea of a locality is obtained by looking at a bold and distinct drawing of it, than by volumes of description. If a man wants to get an exact idea of a farm he has been purchasing, he learns more by one look at the draft on the back of the deed, than by reading the description in deed twenty times. This is the principle of Pelton's system of Geography, and there are others equally practical combined with it which entitle it to the reputation it sustains as the best and quickest mode of teaching Geography, yet introduced.

**PHYSICAL GEOGRAPHY**—including all the invaluable discoveries in the science of Geography, and its coadjutors, is beautifully illustrated by these maps and the accompanying keys. The keys are to be used by the scholars, and cost less than half the price of a Geography and Atlas.

SOWER & BARNES also publish Sanders' New Readers, of which over six hundred thousand were sold within six months of their publication. Their success has been wonderful, but their beautiful appearance and evident superiority justifies it.—Prof. Sanders is a practical teacher of public schools, who has made the subject of the study of his life. Eighteen years ago he published a series of Readers, which had great popularity, but the new series on which he has been engaged ever since, are acknowledged by all to be the greatest advance yet made in Readers. Eminent teachers everywhere, who have been so sorely by book agents that they were unwillingly induced to look at them, have at once pronounced their excellence and introduced them over all kinds, and the best which had been published before them.

School Directors and Teachers are respectfully invited to write to us concerning School Books.

A full assortment of Miscellaneous and School Books, paper and Stationary, including Blank Books, of all kinds, on hand and for sale at the lowest wholesale prices, in large or small quantities, to country Merchants.

**Great Fire, Chestnut & Fifth Streets,**

MONDAY MORNING, DECEMBER 15th, 1854. EVANS & WATSON'S SALAMANDER SAFES TRIUMPHANT, as they always are when put to the test.

Philadelphia, Dec. 15th, 1854.

Messrs. Evans & Watson, No. 26 South Fourth Street, Philadelphia—Gentlemen:—We take pleasure in recommending your Salamander Safes to merchants and others in want of a secure means of preserving their books, papers, &c., from fire, as the one we purchased from you about seven months since has preserved our books, papers, and cash in as good condition as they were when put into it, before the great fire of this morning, which destroyed the entire block of buildings corner of Chestnut and Fifth Streets. The above Safe was in use in our office, on the second floor of our building, from which place it fell into the cellar, and remained there until the fire was out.—The rain was not removed, and opposed in the presence of at least 1000 persons, who witnessed the good condition of the contents. Will you please have the Safe and locks repaired, as we intend to put it in use again, having perfect confidence in its fire proof qualities. Yours, respectfully,  
W. A. LACEY & PHILIPS.

Evans & Watson take pleasure in referring to the following, among the many hundreds who have their Safes in use.—U. S. Mint, Philadelphia; Farmers & Mechanics' Bank, Philadelphia; Samuel Allen, Esq. High Street, Philadelphia; John N. Henderson, City Controller; Cash Co., No. 183 Market Street; Richard Norris & Son, Locomotive builders, Philadelphia; Bancroft & Sellers, Machinists, corner 18th and James streets; Franklin Fire Insurance Co., Philadelphia; Pennsylvania Railroad Co., Philadelphia; Lucy & Phillips, corner of 4th and Market streets; No. 32 South Second Street; James, Kent & Santoe, No. 147 North Third Street.

A large assortment of the above Safes always on hand [warranted to stand at least 100 per cent. more fire than any other's] Sale now in progress by Evans & Watson, manufacture and keep for sale, Iron Shutters, Iron Doors, and Iron Sash, for making fire proof vaults, for Banks, stores, private and public buildings; Seal and Letter Copying Presses; Patent State Lined Refrigerators, &c. Please give us a call at No. 26 South 4th Street Philadelphia. EVANS & WATSON.

**TONICS WON'T DO.**

THEY never did more than give temporary relief and they never will. It is because they don't touch the cause of the disease. The cause of the disease is the miasmata in the atmosphere, called Malaria, or Malarial. Neutralize this poison by its NATURAL ANTIDOTE, and all diseases caused by it disappear at once. Rhodod's Fever and Chills is this Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached to every bottle; therefore if it does no good it can do no harm.

**REMEMBER,**

He who places himself under Dr. Kinkelin's treatment may rely confidently in his honor as a gentleman, and rely upon the assurance, that the secrets of Dr. K.'s patients will never be disclosed.

Young man—let no false modesty deter you from making your case known to one who, from education and respectability, can best advise you.

Too many think they will conceal the secret in their own hearts, and cure themselves! Alas! how often is this a fatal delusion, and how many a promising young man, who might have been an ornament to society, has faded from the earth.

Structures of the urethra are rapidly removed by the application of a new therapeutic agent, used only by Dr. K. Weakness and Constitutional Debility promptly cured, and full vigor restored.

**HERRING'S SAFES.**

AGAIN THE CHAMPION!

The only safe which, in every instance, preserved the entire contents at the late Extensive Fires.

AT THE BURNING OF THE ARTIZAN BUILDINGS, April 10th, and in the great fire in Market Street, May 1st, 1856, the genuine HERRING'S SAFES, the property of George W. Simms & Bro; Books, Papers &c., of Fisher & Bro. and Edward Simms & Co., after remaining exposed in the burning ruins for nearly Forty Hours, and proving conclusively that we have always claimed for them, their great superiority over all securities known.

In these fires, the HERRING'S SAFE, standing side by side with those advertised as "warranted to stand 100 per cent. more fire than Herring's," came forth the acknowledged victor, not only preserving their contents in excellent order, but being themselves in a condition to go through another ordeal, while the boasted "Salamanders" of other makers were badly used up in every instance, and in some cases their entire contents completely destroyed.

To the public we would simply say, that during the fourteen years of the Herring's Safe has been before them, more than two hundred have passed through accidental fires without the occurrence of a single loss.

We would, therefore, caution purchasers against the misrepresentation of interested parties. The Herring's Patent is the only Fire-proof Safe made in this city which is protected by a Patent Right, and we will guarantee it to resist more than double the amount of heat of any other safe now known.

Sole Manufacturers in this State "Herring's Patent Champion Safes," 24 Walnut St., Philad'a.

N. B.—"Evans & Watson's Improved Salamanders," "Oliver Evans's," "C. J. Gayler's" and "Scott's Abestos" Iron Chests, (a large assortment having been taken in part payment for "Herring's") will be sold at low prices.
