

WHEELER'S PATENT CHAIN HORSE POWERS.

THE undersigned, having just received the latest Paris and New York Fashions, would again beg leave to inform his numerous friends and all the world about Bloomsburg, that he is now better prepared than ever to accommodate any one with the neatest, easiest and best fitting suits of clothes that have been turned out lately; and not only that, but he will also do them up in the best order, upon the lowest terms.

OVERSHOT THRESHERS, FEED-CUTTERS, &c.

The above cut represents a single or one horse machine with the hands necessary to attend it.

The subscribers take this method of informing the public in general, that they have for some time been carrying on, in all their various branches, the manufacture and sale of Wheeler's Patent Chain Horse Powers, together with Overshot Threshers, Feed-Cutters, Revolving Horse Rakes, &c. in Light Street, Columbia Co., and the town of Northumberland, Northumberland Co., Pa.

The Horse-Powers

are strong and durable, and very simple in their construction; run light, and are not liable to get out of order. With a slight elevation, the weight alone of the horse or horses drives the Thresher with force and speed. They may also be used for various other purposes, such as a brief Circular Saw, Turned Lath, Boring Machines, Grind-Stones, Churns, &c. etc.

The Overshot Machines

have several advantages over the machines now in use. The apron or feeding table is level, and of a proper height to allow the feeder to stand erect, and feed evenly and easily without annoyance from dust; sticks and stones are not liable to get into the thrasher, and the grain is not scattered, but thrown down to the separator. The two horse machine, attended by from two to three hands, will thrash from 100 to 150 bushels of wheat, or double the amount of oats per day. The one horse machine, attended by two or three hands, will thrash from 50 to 75 bushels of wheat, or double the amount of oats per day. The Feed-Cutter is a first rate article, and is very much used. It cuts fine and very fast; stalks are cut by it 3-8 of an inch long, at the rate of from 300 to 500 sheaves per day.

STONE & HULSHIZER.

October 15, 1856-3m.

HAVE YOU SUBSCRIBED

IN THE COSMOPOLITAN ART ASSOCIATION FOR THE THIRD YEAR?

SEE THE RARE INCUBATIONS! OMNIBUS LINE AND ILVERLY STABLE.

NOW runs an omnibus between Bloomsburg and the Railroad Depot, which will take passengers from and to any of the residences of the town, or the American House and Forks Hotel; and he will also furnish conveyances to all travellers who may wish to go into any part of the county.

TONICS WON'T DO.

THEY never did more than give temporary relief and they never will. It is because they don't touch the cause of the disease.

NATURAL ANTIDOTE,

and all diseases caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless medicine.
