BARLEY WITHOUT BEARDS!!

T is even so. A variety of barley has been discovered in the gulches of the Himalayan Mountains, entirely free from those annoying and poisonous beards, attached to all our common varieties.

The undersigned obtained 7 grains of this new variety three years ago, and being much pleased with its general appearance and productiveness, has spared no means to multiply this small quantity as fast as the Shanghais and other birds would allow.

Its merits for grinding or malting have not been tested, and the quantity is now too small to squander in that way, when every tiller of the soil who sees it, is anxious to have a few grains, not doubting it will prove

have a few grains, not doubting it will prove have a few grains, not doubting it will prove a valuable acquisition. I have sufficient however, to turnish all persons interested who will be likely to see this notice, with one head each, containing 30 to 60 greins. Send me your address, on a stamped envel-ope and I will enclose a head by return mail, with printed instructions for cultiva-ting in a way to insure a large return from a small quantity of seed. Should this new va-riety be found to answer all the purposes of the common barley, a few years will suffice to drive the "Barley Beards" from the coun-ity.

Should Should any person desire more than the one head, I will send a package of 700 to 800 grains securely enveloped, by mail post paid for 25 cts., accompanyed with a lew heads to prove the fact of its being beardless. Address I. W. BRIGGS, West Macedon, Wayne Co. N. Y.
