

WHEELER'S PATENT CHAIN HORSE POWERS

OVERSHOT TURSHASERS, FEED CUTTERS, &c.

The above cut represents a single or one horse machine with the hands necessary to attend it.

The subscribers take this method of informing the public in general that they have for some time been carrying on, in all their various branches, the manufacture and sale of Wheeler's Patent Chain Horse Powers, together with Overshot Turshasers, Feed Cutters, Revolving Horse Rakes, &c. in Light Street, Columbia Co., and the town of Northumberland, Northumberland Co., Pa.

The Horse-Powers are strong and durable, and very simple in their construction, and light and not liable to get out of order. With a slight elevation, the weight alone of the horse or horsepower of the Thresher will force and speed. They may also be used for various other purposes, such as driving Circular Saws, Turn-out Lathes, Hoop Machines, Grind-Stones, Churns, &c.

The Overshot Machines have several advantages over the machines now in use. The spindles or leading rollers are level, and of a proper height to allow the feeder to stand erect, and feed evenly and easily without annoyance from dust, sticks and stones are not liable to get into the thrasher, and the grain is not soiled by the thrasher, and is blown into the receptacle. The two rollers, mounted by iron, work three hands, will thresh from 100 to 120 bushels of wheat, or double the amount of oats per day. The one horse machine, attended by two or three hands, will thresh from 50 to 75 bushels of wheat, or double the amount of oats per day. The Feed-Cutter is a first-rate article, and is very much used. It runs fine and very fast, and is cut by 3-8 of an inch long, at the rate of from 200 to 500 sacks per day.

The foregoing is a brief statement of the qualities and advantages of our machines. There probably is a larger number of Wheeler's Patent Powers made and sold than any other kind. We offer our machines to the farming community with full confidence in their merits, and invite all interested to call and examine them before purchasing elsewhere.

For further particulars, or for purpose of ordering machines, address the subscribers at Light Street, Columbia Co., or at Northumberland, Northumberland Co., Pa., or apply to the following agents: Jacob Hartman, Milton, Pa.; Joseph Vanhook, near Northumberland; John Bantz, near Northumberland; Lewisburg, & J. E. Jones, Money; Samuel Hartman, Hamilton; Daniel Kieckhefer, New Berlin.

STONE & HULSHIZER,
October 15, 1856-57.

CALL TO THE FASHIONABLE AND TO THE OVERSHOT

THE undersigned, having just received from Paris and New York Fashioners' would again be glad to inform his numerous friends and all the world about Bloomsburg, that he is now better prepared than ever to accommodate any one with the nearest, easiest and best fitting suits of Clothes that have been turned out lately; and not only that, but he will also do them up in the best manner, upon the lowest terms.

His shop is at the old stand, (too well known to need further notice) where he may at all times be found, seated upon the bench of repugnance steadily drawing out the threads of affliction, hoping it may in the process be advantageous to him and his customers. He would also advise his friends to bear in mind that poor, afflicted tailors must live, or they can't be expected to work. Therefore, when you have a little CASH, will come mightily handy from those who are back-standing on the book.

Remember, gentlemen, that in all cases the laborer is worthy of his hire.

BERNARD RUPERT,
Bloomsburg, April 14th, 1855.

GREENWOOD SEMINARY

MILLVILLE COLUMBIA CO. Pa. For Youth of both Sexes.

MRS. MARGARET BURGES PRINCIPAL.

This Institution which has been in successful operation for several years, has recently been enlarged to give better accommodations for boarders and increased facilities for tuition.

Each quarter of the School year consists of eleven weeks, and the next session will commence on the 13th of August, but pupils will be taken at any season.

In addition to the constant attention of the principal, the services of an experienced teacher have been procured. Instruction will be given in all the English branches usually taught, and also in Latin.

Natural Philosophy and Astronomy will be illustrated by appropriate apparatus and access given to a Laboratory and the use of Mathematical Instruments. Books and Stationery will be provided for all who desire.

TERMS.
Tuition, \$3.00, and \$1.50 per quarter, traded by the course of study.

Boarding, Tuition, Washing Lights, &c. \$24 per quarter, one-third payable quarterly in advance.

For further particulars address the principal, Millville, July 6, 1855.

OMNIBUS LINE AND DELIVERY STABLE

W. M. PRENTISS

Now runs a new omnibus between Bloomsburg and the Railroad Depot, which will take passengers from and to any of the residences of the town, or of the American House and Forks Hotel; and he will also furnish conveyances to all travellers who may wish to go into any part of the county.

The omnibus will leave Bloomsburg twice daily at 12 o'clock M., and at 2 o'clock P. M. Fare 12 cents each way.

He has also a large inventory of stable connected with the omnibus line, from which he can accommodate the public with conveyances for travelling, pleasure excursions or business. Stand in the rear of Hoffman & Eise's establishment, near the centre of the town.

NOAH S. PRENTISS,
Bloomsburg, June 3, 1855-56.

WHEELER'S PATENT CHAIN HORSE POWERS

OVERSHOT TURSHASERS, FEED CUTTERS, &c.

The above cut represents a single or one horse machine with the hands necessary to attend it.

The subscribers take this method of informing the public in general that they have for some time been carrying on, in all their various branches, the manufacture and sale of Wheeler's Patent Chain Horse Powers, together with Overshot Turshasers, Feed Cutters, Revolving Horse Rakes, &c. in Light Street, Columbia Co., and the town of Northumberland, Northumberland Co., Pa.

The Horse-Powers are strong and durable, and very simple in their construction, and light and not liable to get out of order. With a slight elevation, the weight alone of the horse or horsepower of the Thresher will force and speed. They may also be used for various other purposes, such as driving Circular Saws, Turn-out Lathes, Hoop Machines, Grind-Stones, Churns, &c.

The Overshot Machines have several advantages over the machines now in use. The spindles or leading rollers are level, and of a proper height to allow the feeder to stand erect, and feed evenly and easily without annoyance from dust, sticks and stones are not liable to get into the thrasher, and the grain is not soiled by the thrasher, and is blown into the receptacle. The two rollers, mounted by iron, work three hands, will thresh from 100 to 120 bushels of wheat, or double the amount of oats per day. The one horse machine, attended by two or three hands, will thresh from 50 to 75 bushels of wheat, or double the amount of oats per day. The Feed-Cutter is a first-rate article, and is very much used. It runs fine and very fast, and is cut by 3-8 of an inch long, at the rate of from 200 to 500 sacks per day.

The foregoing is a brief statement of the qualities and advantages of our machines. There probably is a larger number of Wheeler's Patent Powers made and sold than any other kind. We offer our machines to the farming community with full confidence in their merits, and invite all interested to call and examine them before purchasing elsewhere.

For further particulars, or for purpose of ordering machines, address the subscribers at Light Street, Columbia Co., or at Northumberland, Northumberland Co., Pa., or apply to the following agents: Jacob Hartman, Milton, Pa.; Joseph Vanhook, near Northumberland; John Bantz, near Northumberland; Lewisburg, & J. E. Jones, Money; Samuel Hartman, Hamilton; Daniel Kieckhefer, New Berlin.

SALAMANDER SAFES

EVANS & WATSON,
No. 26 South Fourth St., PHILADELPHIA.

Great Fire, Chestnut & Fifth Streets, MONDAY MORNING, DECEMBER 15th, 1854.

EVANS & WATSON'S SALAMANDER SAFES TRIUMPHANT, as they always are when put to the test.

Philadelphia, Dec. 15th, 1854.

Messrs. Evans & Watson, No. 26 South Fourth Street, Philadelphia, Gentlemen:—

We take pleasure in recommending your Salamander Safes to merchants and others in want of a secure means of preserving their books, papers, &c., from fire, as we purchased from you about seven months since, and they have stood the test of a great fire, which destroyed the entire block of buildings corner of Chestnut and Fifth Streets. The above Safes were in use in our office, on the second floor of our building, from which place it fell into the cellar, and remained there until the fire was out. The safe was then removed, and opened in the presence of at least 1000 persons, who witnessed the good condition of the contents. Will you please have the safe and locks re-secured, as we intend to put it in use again, having perfect confidence in its fire proof qualities. Yours, respectfully,

LACEY & PHILLIPS.

Evans & Watson take pleasure in referring to the following, among the many hundreds, who have their Safes in use: Messrs. Philadelphia; Farmers' Merchants' Bank, Philadelphia; Samuel Allen, Esq., High Street; Philadelphia; John N. Henderson, City Controller; Carey & Co., No. 183 Market Street; Richard Ross & Son, Locomotive Builders, Philadelphia; Bennett & Sellers, Machinists, corner 16th and Chestnut Streets; Philadelphia; Philadelphia; Pennsylvania Railroad Co., Philadelphia; Lacey & Phillips, corner of 5th and Minor Street; Sharpless, No. 32 South Second Street; James, Keen & Sandee, No. 147 Third Street.

A large assortment of the above Safes always on hand, warranted to stand at least 1000 years, and to be more fire than any other safe now in use. Evans & Watson also manufacture and keep for sale, Iron Safes, Iron Doors, and Iron Sashes, for making fire proof Vaults, for Banks, stores, private and public buildings, Seal and Letter Copying Presses, Patent State Line Registers, &c. Please give us a call at No. 26 South 4th Street Philadelphia.

EVANS & WATSON.

TONICS WON'T DO.

THEY never did do more than give temporary relief and they never will. It is because they don't touch the cause of the disease. The cure of all acute and chronic diseases is the atomized medicine called MALARIA of Malana. Neutralize this poison by

NATURAL ANTIDOTE.

All diseases caused by it disappear at once. Rheumatism, Fever and Ague Cure is this Antidote in Malana, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Culloch, of New York, to this effect, is attached to every bottle; therefore if it does not good it can do no harm.

This is more than can be said of Quinine, Arsenic, or any other tonic, as they are not innoxious to the system, and bring on DUMB AGUE, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:

Georgetown, Ohio, March 17, '56.

Jas. A. Rhodes, Esq.—Dear Sir: Yours of 22nd inst. is at hand. The Cure arrived late last year and the difficulty in getting any cure to try it was greatly increased from the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine, and knowing better that the cure they had been using to cure taking Quinine, contained the DRUG ITSELF!

This remedy, (known as "Smith's Tonic") would invariably BRING AN AGUE, but it did not CURE it, and it would often return with increased vigor. The one circumstance I remember in your letter, that only had some success in my case, was the fact that you had taken Quinine, and your CURE. The following is the result:

Three persons took your "Cure," all of which were cases of "Quintan-Intermittent Fever," of many weeks standing. They had tried Quinine, and other remedies, occasionally missing a chill, but it was, in all cases, a long time before they were cured, and saying the foundation of other and several maladies. Had I succeeded in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic" had been used, and would, as before stated, have cured the case, but after a period of two or three days it would return.

I think there will be no difficulty now in giving to your "Cure" the advantage ground of any other remedy now in use here. &c. &c.

WILLIAM BUCKNER, M. D.,
Rhode-Fever and Ague Cure, or Antidote to Malaria, is equally certain as a PREVENTIVE, as a "CURE." Take it when you feel the chill coming on, and you will never have a single one.

JAMES A. RHODES, Proprietor.
Providence, R. I.

For sale by Druggists generally.
June 18, 1856.

GREENWOOD SEMINARY

MILLVILLE COLUMBIA CO. Pa. For Youth of both Sexes.

MRS. MARGARET BURGES PRINCIPAL.

This Institution which has been in successful operation for several years, has recently been enlarged to give better accommodations for boarders and increased facilities for tuition.

Each quarter of the School year consists of eleven weeks, and the next session will commence on the 13th of August, but pupils will be taken at any season.

In addition to the constant attention of the principal, the services of an experienced teacher have been procured. Instruction will be given in all the English branches usually taught, and also in Latin.

Natural Philosophy and Astronomy will be illustrated by appropriate apparatus and access given to a Laboratory and the use of Mathematical Instruments. Books and Stationery will be provided for all who desire.

TERMS.
Tuition, \$3.00, and \$1.50 per quarter, traded by the course of study.

Boarding, Tuition, Washing Lights, &c. \$24 per quarter, one-third payable quarterly in advance.

For further particulars address the principal, Millville, July 6, 1855.

OMNIBUS LINE AND DELIVERY STABLE

W. M. PRENTISS

Now runs a new omnibus between Bloomsburg and the Railroad Depot, which will take passengers from and to any of the residences of the town, or of the American House and Forks Hotel; and he will also furnish conveyances to all travellers who may wish to go into any part of the county.

The omnibus will leave Bloomsburg twice daily at 12 o'clock M., and at 2 o'clock P. M. Fare 12 cents each way.
