

WHEELER'S PATENT CHAIN HORSE POWERS,

OVERSHOT THRASHERS, FEED-CUTTERS, &c.

This above cut represents a single or one horse machine with the hands necessary to attend it.

The subscribers take this method of informing the public in general, that they have for some time been carrying on, in all their various branches, the manufacture and sale of Wheeler's Patent Chain Horse Powers, together with Overshot Thrashers, Feed-Cutters, Revolving Horse Rakes, &c., in Light Street, Columbia Co., and the town of Northumberland, Northumberland Co., Pa.

The Horse-Powers are strong and durable, and very simple in their construction; run light, and are not liable to get out of order. With a slight elevation, the weight alone of the horse or horse-drawn Thrasher will force and speed. They may also be used for various other purposes, such as driving Circular Saws, Turning Lathes, Boiling Machines, Grind-Stones, Churns, &c.

The Overshot Machines have several advantages over the machines now in use. The apron or feeding table is level, and of a proper height to allow the feeder to stand erect, and feed evenly and easily without annoyance from dust, sticks and stone are not liable to get into the thrasher, and the grain is not scattered, but thrown down to the separator. The two horse machine, attended by from two to three hands, will thresh from 100 to 150 bushels of wheat, or double the amount of oats per day. The one horse machine, attended by two or three hands, will thresh from 50 to 75 bushels of wheat, or double the amount of oats per day. The Feed-Cutter is a first rate article, and is very much used. It cuts fine and very fast, and is cut by 3 or 4 inch long, at a rate of from 300 to 500 sheaves per day.

The foregoing is a brief statement of the qualities and character of our machines. There probably is a larger number of Wheeler's Patent Horse Powers, made and sold than any other kind. We offer our machines to the farming community with full confidence in their merits, and invite all interested to call and examine them before purchasing elsewhere.

No. 26 South Fourth St., PHILADELPHIA.

Great Fire, Chestnut & Fifth Streets, MONDAY MORNING, DECEMBER 15th, 1854. EVANS & WATSON'S SALAMANDER SAFES TRIUMPHANT, as they always are when put to the test.

Philadelphia, Dec. 15th, 1854.

Messrs. Evans & Watson, No. 26 South Fourth Street, Philadelphia.—Gentlemen:—We take pleasure in recommending your Salamander Safes to merchants and others in want of a secure means of preserving their books, papers, and documents. The one we purchased from you about seven months since has preserved our books, papers, and cash in as good condition as they were when put into it, before the great fire of this morning, which destroyed the entire block of buildings corner of Chestnut and Fifth Streets. The above safe was in use in our office, on the second floor of our building, from which place it fell into the cellar, and remained there until the fire was out. The safe was then removed, and opened in the presence of at least 1000 persons, who witnessed the good condition of the contents. Will you please have the safe and locks repaired, as we intend to put it in use again, having perfect confidence in its fire proof qualities.

Yours, respectfully,
LEWIS & PHILLIPS.

EVANS & WATSON take pleasure in referring to the following, among the many thousands, who have their Safes in use.—U. S. Mint, Philadelphia; Farmers & Mechanics' Bank, Philadelphia; Samuel Allen, Esq., High Sheriff, Philadelphia; John N. Henderson, City Controller; Caleb Cope & Co., 182 Market Street; Richard Norris & Son, Locomotive Builders, Philadelphia; Bancroft & Sellers, Machinists, corner 16th and James streets; Franklin Fire Insurance Co., Philadelphia; Pennsylvania Railroad Co., Philadelphia; Lacey & Phillips, corner of 5th and Minor streets; Sharpless, Bro., No. 29 South Second Street; James, Kent & Santee, No. 147 North Third Street.

A large assortment of the above Safes always on hand [warranted to stand at least 100 per cent. more fire than any Herring's safe now in use.] Evans & Watson also manufacture and keep for sale, Iron Shutters, Iron Doors, and Iron Sash, for making fire proof vaults, for Banks, stores, private and public buildings; Seal and Letter Copying Presses; Patent Slate Lined Retainers, &c.

Please give us a call at No. 26 South 4th Street Philadelphia.

TONICS WONT DO.

They never did more than give temporary relief and they never will. It is because they don't touch the cause of the disease. The cause of allague and bilious diseases is the atmospheric poison called Miasma or Malaria. Neutralize this poison by its

NATURAL ANTIDOTE.

and all diseases caused by it disappear at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached to every bottle, therefore if it does no good it can do no harm.

This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is injurious to the constitution and brings on DUMB AGUE, which never allows a person to get on his feet for a long time.

In illustration of these truths I annex some extracts from a letter just received from a Physician:

Georgetown, Ohio, March 17, '56.

JAS. A. RHODES, Esq.—Dear Sir: Yours of 23 inst. is at hand. The Cure arrived late last year and did not do me any good. I tried it was greatly increased from the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presume that the remedy they needed to escape taking Quinine, contained the DRUG ITSELF.

This remedy, (known as "Smith's Tonic") would invariably BRK-AGUE, but it did not CURE it, and it would often return with renewed vigor. The one circumstance I deemed in your favor, if I could institute a test-comparison between it and your CURE. The following is the result in getting my cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic" had been used, and would, as before stated, break the chill, but after a period or two had elapsed it would return.

I think the only difficulty now in giving to your "Cure" the vantage ground of any other remedy now in use, &c. &c.

WILLIAM BUCKNER, M. D.,
Rhodes' Fever and Ague Cure, or Antidote to Malaria, the only harmless remedy in existence, is equally certain as a PREVENTIVE, as a CURE. Take it when you feel the chill coming on, and you will never have a single one.

Secrets for the Million!

A most Wonderful and Invaluable Publication.

Dr. Hunter's Medical Manual;

BEING AN ORIGINAL Treatise on MAN and WOMAN: their Physiology, Functions and Sexual Disorders of every kind, with never-failing Remedies for the speedy cure of all diseases of a private and delicate character, incident to the violation of the Laws of Nature and of Nature's God.

PRICE TWENTY-FIVE CENTS.

The Author of the above volume is a graduate of one of the first medical schools in the United States, and having devoted a quarter of a century to the study and treatment of Syphilis and kindred venereal diseases, he is well qualified to possess of most invaluable information in regard to the same, and is able to compass into a single volume the very quintessence of medical science on this important subject; as the result of the experience of the most eminent physician in Europe and America, is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the City of Philadelphia alone.

The practice of Dr. Hunter has long been, and still is literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional usefulness to the community at large, through the medium of his "Medical Manual Hand-Book for the Afflicted."

It is a volume that should be in the hand of every family in the land, whether used as a preventive of secret vice, or as a guide for the alleviation of one of the most awful and destructive scourges ever visited upon mankind for the sins of sensuality and impurity of every kind.

It is a volume that has received the unequalled recommendation of the first physicians in the land, while many clergymen, fathers, mothers, philanthropists and humanitarians, have most warmly commended the wisdom and sagacity of his powerful teachings, which would be instrumental in the moral purification and physical healing of multitudes of our people, among the young, the volatile and indiscreet, otherwise the pride and flower of the nation.

The author argues particularly, most strongly against the practice of self-medication, and warns parents and guardians, in every instance, to guard the young of both sexes from the terrible consequences concomitant of their ignorance of physiological laws and sexual impurities and irregularities, whether exhibited by precocious development, or arising from the vicious and corrupting examples of their schoolmates or otherwise. To those who have been already ensnared to the "paths that take hold on hell," a clear and explicit way is shown by which they may secure a return of sound health and regeneration of the soul from its terrible pollution.

It is well known that thousands of victims are annually sacrificed at the shrine of Quinine—especially those suffering from Venereal or Syphilitic diseases—Strictures, Seminal Weakness, Nervous Debility, and the numerous maladies which spring directly or less remotely from the indulgence of carnal passions and secretions of Nature.

In view of these facts, and when it is also considered that about 100,000 persons die annually in the United States of Consumption—a large majority being the victims of the voluptuous indulgence of their passions, agreeably to the Scriptural denunciation, that the sins of the parents are visited upon the children, even to the third and fourth generation. The Author, imbued with sentiments of enlarged philanthropy, will scarcely be censured for any effort to restrain the vices of the age, and the humble instrumentality of his Medical Manual, in the prevention of such a calamity.

One copy, securely enveloped, will be forwarded free of postage any part of the United States for 25 cents, or 6 copies for \$1. Address, post paid.

PHILADELPHIA MEDICAL HOUSE—Established 20 years ago by Dr. KINKELIN, corner of Third and Union streets, between Spruce and Pine, Philadelphia, Pa.

INVALIDS

Are apprised that Dr. KINKELIN confines his practice to a particular branch of medicine, which engages his individual attention. He cautions the unfortunate against the abuse of mercury; thousands are annually emaciated out of life. Recent affections are promptly extinguished.

TWENTY YEARS' EXPERIENCE

In the treatment of a class of diseases hitherto neglected and imperfectly understood, has enabled Dr. KINKELIN, Author of a work on Self Preservation, to prove that nine-tenths of the causes of nervous debility, local and constitutional weakness, mental and physical suffering, are traceable to certain habits, forming the most secret yet deadly enemy of the springs of domestic misery and premature mortality.

TAKE PARTICULAR NOTICE.

There is an evil habit sometimes indulged in by boys, in solitude, and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating afflictions. Parents of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable feelings, and vague fears in the mind.

The unfortunate thus afflicted becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his steps falter and weak, he is dull, irresolute, and engages in his sport with less energy than usual.

He emancipates himself before the practice has done its worst, and enters matrimony; his marriage is unfruitful, and his spouse tells him that this is caused by his early follies.—These are considerations which should awaken the attention of those similarly situated.

MARRIAGE

Requires the fulfillment of several conditions in order that it may be really the cause of mutual happiness. Could the veil which covers the origin of domestic wretchedness be raised, and its true source in every instance disclosed—how many could be traced to physical disqualifications and attendant disappointments! Apply then while it is yet time, in order to have your wrong and relaxed organization retraced, revived and strengthened.

REMEMBER,

He who places himself under Dr. Kinkelin's treatment may religiously confide in his honor as a gentleman, and rely upon the assurance of the secrets of Dr. K. Patients will never be deceived.

Young men—let no false modesty deter you from making your case known to one who, from education and respectability, can befriend you.

Too many think they will conceal the secret of their own lives,
