**SUFFER NOT, WHEN A PERMANENT CURE IS GUARANTEED IN A FEW DAYS.**  
SECRET Diseases, Scurvy, Nervous Debility, Stricture, Gleet, Gravel, Mercurial Rheumatism, Scrofula, Pains in the Ankles and Joints, Discharge from the Throat, Nose and Ears, Ulcers upon the Face, Scalding Head, Scalding, and all other improper discharges, no matter how long standing, or obstinate the case, recovery is certain, and in a shorter time than a permanent cure could be effected by any other treatment. I have restored to health over seventeen hundred patients, who were suffering under the worst forms of all the above mentioned diseases, which guarantees me in promoting a perfect and most speedy cure. Secret diseases are the greatest enemies to health and happiness, as they are the first cause of consumption, scrofula, &c., and should be a terror to all nations on the earth; for the disease is becoming so common, and treatment so little understood, that a permanent cure is scarcely ever effected, as a majority of the cases fall into the hands of incompetent persons, who not only fail to cure the malady, but ruin the constitution with corrosive sublimate—a dangerous poison, a preparation of mercury—which, with the remains of disease in the system, produces a certain and formidable enemy to health; it destroys the nervous system, rapidly wasting away the energies of life, causing mental derangement, preventing a proper development of the system, and determining the system for marriage, society, business, and all earthly happiness. Female irregularities and other diseases of females treated in the most skillful and scientific manner. Medicines, with directions, sent to any part of the United States and Canada, by patients communicating their symptoms by letter.  
J. SUMMERVILLE, M. D., Box 63, Post Office, Filbert Street, below Tenth, Philadelphia, Pa.

**CONSUMPTION.**  
AND ALL DISEASES OF THE LUNGS and THROAT, are positively curable by inhalation, which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, kills the cough, causes a free and easy respiration, breaks the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to be a source of unalloyed pleasure, as it is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stage, and fifty per cent. in the second; but in the third stage it is impossible to cure more than five per cent., for the lungs are cut up by the disease, as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attendant, and the patient, which annually destroys ninety five thousand persons in the United States alone; and a correct calculation shows that out of the present population of the earth, eighty millions are destined to fill the consumptive's grave.  
To be cured, the patient must have no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme Being, from whom cometh the strength of the ordinary gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect, produced by their disposition in the lungs, is to prevent the free admission of air into the chest, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from remedial means entering the cavities of the lungs than from the administration of a medicine which the patient will always find the lungs free and the breathing easy after inhaling remedies. True, inhalation is not a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas of destroy life in a few hours.  
The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be inhaled. To prove the curative effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared, and judiciously administered through the lungs, should produce the most happy results? During eighteen years practice, many thousands, suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferer had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish readily the various forms of disease that stimulate consumption, and apply the proper remedies rarely being mistaken even in a single case. This familiarity in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of the disease, to enter the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

**The Medicine of the Million. PHILOSOPHY AND FACT.**  
**HOLLOWAY'S PILLS.**  
The Exciting Cause of Sickness.  
The blood is the life sustaining agent. It furnishes the components of flesh, bone, muscle, nerve and intellect. The stomach is its manufactory, the veins its distributors, and the intestines the channel through which the waste matter rejected in its production is expelled. Upon the stomach, the circulation and the bowels, these Pills act simultaneously, relieving indigestion, purifying the fluids, and regulating the excretions.  
**THE NATIONAL COMPLAINT.**  
Dyspepsia is the most common disease among all classes in this country. It assumes a thousand shapes, and is the primary source of innumerable dangerous maladies; but whatever the type or symptoms, however obdurate its resistance to ordinary preparations, it yields readily and speedily to this searching and purifying remedy.

**BILIOUS AFFECTIONS.**  
The quantity and quality of the bile are of vital importance to health. Upon the liver, the gland which secretes this acid, these Pills operate specifically, infallibly rectifying its irregularities, and effectually curing Jaundice, Bilious Remittents, and all the varieties of disease generated by an unnatural condition of the organ.  
**BOWEL COMPLAINTS.**  
Unless the bowels perform their functions properly, the whole body suffers. Tens of thousands die annually of Dysentery, Diarrhoea, Chronic consumption, and other diseases of these waste pipes of the system. The effect of the Pills upon all potential disorders, whether casual or epidemic, is a phenomenon in medicine. By following the prescribed directions, the most alarming cases of bowel complaint are promptly controlled.  
**A Word to Females.**  
The local debility and irregularities which are the special annoyances of the weaker sex, and which, when neglected, always shorten life, are relieved for the time being, and prevented for the time to come, by a course of this mild but thorough alterative.

**HOLLOWAY'S PILLS**  
Are the best remedy known in the world for the following diseases:  
Asthma, Diarrhoea,  
Bowel Complaints, Dropsy,  
Coughs, Debility,  
Croup, Fever and Ague,
