situate in Orange township, in the county of Columbia, adjoining lands of Benj. Steiner on the East, Samuel Lowry on the South, Benj. Hayman on the North, Daniel W. Montgomery on the West; containing

One Bundred and Sixteen

Acres;
whereon is erected a two story Stone House, a large Stone Burn, out house, and there are shoot ninety acres of cleared land in the tract. Late the estate of said deceased situate in the township of Orange and county aforesaid.

JACOB EYERLY, Bloomsburg, March 11, 1857. SUFFER NOT, WHEN A PERmanent cure is guaranteed in all stages of SECRET diseases, Self Abuse, Nervons Debility, Strictures, Gleets, Gravel, Mercurial Rheumatism, Scrofula, Pains in the Ankles and Bones, Diseases of the Throat, Noss and Eyes, Ulcers upon the Body, Female Irregularities, and all other improper discharges, no matter of how long standing, or obstinate the case, recovery is certain, and m a shorter time than a permsnent cure could be effected by any other treatment, even after the time than a perminent cure could be effected by any other treatment, even after the
skill of the most eminent physicians had
failed, and the disease resisted all other
means of cure. The remedies are free from means of cure. The remedies are free from odor, causing neither sickness nor inconvenience, and without mureury or balsam.—During twenty years' practice, I have restored to health over seventeen thousand patients, who were suffering under the worst forms of all of the above mentioned distances, which guarantees me in promising a perfect and most speedy cure. Secret distances are the greatest enemies to health and happiness, as they are the first cause of consumption, scrofula, &c., and should be a terror to all nations on the earth; for the disror to all nations on the earth; for the disease is becoming so common, and treatment
on little understood, that a permanent cure is
scareely ever effected, as a majority of the
cases fall into the hands of incompetent persons, who not only fail to cure the malady,
but rain the constitution with corrosive subtimate—a dangerous poison, a preparation
of mercury—which, with the remains of disease in the system, produces many of the
above named affections, which finally terminate in consumption, and frequently a rapid
one; but should it not cause death speedily,
and the wictim to disease marries, the disease ror to all nations on the earth; for the disand the wictim to disease marries, the diseas is then conveyed from the patient to the chil dren, causing them to come into the world with exordula, affections of the skin, eyes, throat, &c., and again terminates in consumption, and consigns his victim to an untimely grave, between the ages of six months and thirty-five years. Self-abuse is another formidable enemy to health; it destroys the Betrooms xystem, repoilly wasting away the formidable enemy to health; it destroys the nervous system, rapidly wasting away the surergies of life, causing mental derangements, preventing a proper development of the system, and disqualifying its victim for larrage, society, business, and all earthly opiness. Female Irregularities and other asses of females treated in the most skilland scientific manner. Medicines, with clors, sent to any part of the United and canadas, by patients communications, which is symptoms by letter.

SUMMERVILLE, M. D., Box 53, Post mace; Filbert Street, below Tenth, Phila-

CONSUMPTION,

CONSUMPTION,

A ND ALL DISEASES OF THE LUNGS
and THROAT are positively curable by
inhalation, which conveys the remedies to
the cavities in the lungs through the air passages, and coming in direct contact with the
disease, neutralizes the tubercular matter,
allays the cough, causes a free and easy expectorstion, heals the lungs, purifies the blood,
imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restorative of health. To be
able to state confidently that Consumption is
curable by inhalation, is to me a source of
unalloyed pleasure. It is as much under the
control of medical treatment as any other
formidable disease; ninety out of every hundred cases can be cured in the first stages,
and fifty per cent, in the second; but in the
hird stage it is unreasible second.

formidable disease; ninery out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent., for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the soffering attending this fearful scourge, which annually destroys ninety five thousand persons in the United States alone; and a correct calculation shows that out of the present population of the earth, eighty millions are destined to fill the consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In ull ages it has been the great enemy of hife, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted.—

By the help of that Supreme Being, from whom cometh every good and perfect gift, I am enabled to offer to the affleted a permanent and speedly cure in Consumption. The first cause of tabercles is from impure blood, and the immediate effect, produced by their disposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surrely it is more which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medizing expects of the langs than from those administered through the somach; the patient will always find the lungs free and the breathing easy after inhaling remedies. True, inhalation is not a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the which causes a weakened vitality through

utes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead.—
The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the langs, should produce the most kappy results? Dushould produce the most happy results? During eighteen years' practice, many thousands, suffering from diseases of the lungs and throat, have been under tny care, and I have affected many remarkable cores, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease.—My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish readily the various forms of disease that simulate consumption, and apply the proper remedies rarely being mistaken even in a sincle case. This lamiliarity in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests; to enlarge the chest, purify the blood, unpart to it renewed vitality, giving energy and tone to the entire system.

Box 53, Post Office, rould produce the most happy results? Du

to the entire system.

The Medicine of the Million. PHILOSOPHY AND FACT.

HOLLOWAT'S PELLS. The Exciting Cause of Sickness.

The blood is the life sustaining agent. It urnishes the components of flesh, bone usele, nerve and integument. The stomach nuscle, nerve and integument. The stomach is its manufactory, the veins its distributory, and the intestines the channel through which he waste matter rejected in its productions expelled. Upon the stomach, the circulation and the bowels, these Pills act simultaneously, relieving indigestion, purifying the luids, and regulating the excretions:

Dyspersa is the most common disease mong all classes in this country. Itaskimes thousand shapes, and is the primary source i innumerable dangerous maladies; but hatovar its type or symptoms, however ob-tinate its resistance to ordinary preparations, y jedds readily and rapidly to this searching of mercins remedy.

BULLOUS AFFECTIONS:

The quantity and quality of the bife are of vital importance to health. Upon the liver, the gland which secretes this fluid, these Fills operal specifically, infallibly rectifying as irregularities, and effectually curing Janudice, Bilious Reneittants, and all the varieties of disease generated by an unnatural condition of the organ. BOWEL COMPZAINTS.

orders, whether casual or epidemic, is a phenomenon in medicine. By following the printed directions, the most alarming cases of bowel complaint are promptly controlled.

of lowel complaint are promptly controlled.

A Word to Females.

The local debility and irregularities which are the especial annoyances of the weaker sex, and which, when neglected, always shorten life, are relieved for the time being, and prevented for the time to come, by a course of this mild but thorough alterative.
