subscribers take this method of in The subscribers take this method of informing the public in general, that they have for some time been carrying on, in all their various branches, the manulacture and sale of Wheeler's Patent Chain Horse Powers, together with Overshot Thrashers, Feed Cutters, Revolving Horse Rakes, &c., in Light Street, Columbia co., and the town of Northumberland, Northumberland co., Pa.

The Horse-Powers

are strong and durable, and very simple in their construction: run light, and are not liable to get out of order. With a slight elevation, the weight alone of the horse orders et alone of the horse orders the thread of the constant of the proposes, such a driving Circular Saws, Turning Lathes, Boring Machines, Grind-Stones, Churns, etc. etc.

The Overshot Machines
have several advantages over the machines
now in use. The apron or feeding table is
level, and of a proper height to allow the
feeder to stand erect, and feed evenly and
easily without annoyance from dust; sticks
and stone are not liable to get into the
thrasher, and the grain is not scattered, but
thrown down to the separator. The two
horse machine, attended by from two to
three hands, will thrash from 100 to 150
bushels of wheat, or double the amount of
oats per day. The one horse machine, attended by two or three hands, will thrash
from 50 to 75 bushels of wheat, or double
the amount of oats per day. The FeedCutter is a first rate article, and is very much
used. It cuts fine and very fast; stalks are
cut by it 3-8 of an inch long, at he rate
of from 300 to 500 sheaves per day.
The foregoing is a birel statement of the
qualities and character of our machines.—
There probably is a larger number of
Wheeler's Patent Powers made and sold
than any other kind. We offer our machines to the farming community with full
confidence in their merits, and invite all interested to call and examine them before
purchasing elsewhere.

TO THE FASHONABLE AND OFFITTED.

THE undersigned, having just received the latest Paris and New York Fashions would again beg leave to inform his numer ous friends and all the world about Blooms burg, that he is now better prepared than ever to accommodate any one with the neatest, easiest and best fitting suits of Clothes that have been turned out lately; and not only that, but he will also do them up in the best order, upon the lowest terms.

His shop is at the old stand, (too welk known to need further notice) where he may at all times be found, seated upon the bench of repentance, steadily drawing out the thread of affluction, hopeing it may in the end prove advantageous to him and his customers. He would also advise his friends to bear in mine that poor, afflicted tailors must live, or they can't be expected to work. Therefore, Wheat Rye, Corn, Oats, Potatoes, and with all now and then a little CASH will come mighty handy from those who are back-standing on hie book.

TONICS WON'T DO.

THEY never did do more than give tempo rary relief and they never will. It is because they don't touch the cause of the disease. The cause of all ague and billious diseases is the atmospheric poison called Mias-ma or Malaria. Neutralize this poison by

and all diseases caused by it disappears at once. Rhodes' Fever and Agne Cure is this Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached to every bottle; therefore if it does no good it can do no harm. This is more than can be said of Quinine,

Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on DUMB AGUE, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some racts from a letter just received from a

Georgetown, Ohio, March 17, '56.

Jas. A. Rucores, Esq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the fact that a remedy had been introduced which was growing in favor with the public, as being hetter than using Ouining—not knowing better than using Quinine,—not knowing esume that the remedy they needed to ape taking Quinine, contained the DRUG

escape taking Quinine, contained the DRUGITSELF!

This remedy, (known as "Smith's Tonic,") would invariably BREAK an ague, but it did not CURE it, and it would often return with renewed vigor. The one circumstance I deemed in your favor, if I could institute a test comparison between it and your CURE. The tollowing is the result:

Three persons took your "Cure," all of which were cases of "Quotidian Intermittent Fever," of many weeks standing. They had tried Quinine, and other remedies, occasionally missing a chill, but it was, (as in all such cases,) slowly wearing them out, and laying the foundation of other and severer malaties. I did succeed in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonall three of these cases the "Smith's Ton" had been used, and would, as before sta , break the chill, but after a period or two

CHAMPION!! The only Safe which, in every instance,

preserved the entire contents at the lote Extensive Fires. T THE BURNING OF THE ARTIZAN A BUILDINGS, April 10th, and in the great fire in Market Street, May 1st, 1856, the gen-uine Herriso Safe preserved the Jewelry of George W. Simms & Bro; Books, Papers &c. of Fisher & Bro, and Edward Semans & Co., after remaining exposed in the burning mins for nearly Forty Hours, and proving conclusively what we have always claimed for them, their great superiority over all securi-

ties known. In these fires, the HERRING'S SAFE In these fires, the HERRING'S SAFE, sanding side by side with those advertised as "warranted to stand 10 per cent. more fire than Herring's," came forth the acknowledged victor, not only preserving their content in excellent order, but being themselves is condition to go through another ordeal, we the beasted "Salemanders" of other many were badly used up in every instance, always of the property of the propert in some cases their entire contents completely destroyed. estroyed.

To the public we would simply say, that,

To the public we would simply say, that, during the fourteen years of the Herring's Safe has been before them, more than two hundred have passed through accidental fires without the occurrence of a single loss.

We would, therefore, caution purchasers against the misrepresentation of interested parties. The Herring's Patent is the only Fire-proof Safe made in this city which is protected by a Patent Right, and we will guarantee it to resist more than double the amount of heat of any other Safe now known.
