

CONSUMPTION,
AND ALL DISEASES OF THE LUNGS
AND THROAT are positively curable by
inhalation, which conveys the remedies to
the seat of the disease through the pas-
sages, and coming in direct contact with the
disease, neutralizes the interstitial matter,
allays the cough, causes a free and easy ex-
piration, heats the lungs, purifies the blood,
imparts renewed vitality to the nervous sys-
tem, giving that tone and energy so indis-
pensable for the restoration of health. To be
able to state confidently that Consumption is
curable by inhalation, is to me a source of
unalloyed pleasure. It is as much under the
control of medical treatment as any other
formidable disease; ninety out of every hun-
dred cases can be cured in the first stages,
and fifty per cent. in the second; but in the
third stage it is impossible to save more than
five per cent. for the lungs are so cut up by
the disease as to bid defiance to medical
aid. Even, however, in the last stages, in-
halation affords extraordinary relief to the
suffering, attending this fearful disease, which
annually destroys ninety five thousand per-
sons in the United States alone; and a correct
calculation shows that out of the present popu-
lation of the earth, eighty millions are des-
tined to fill the consumptive's grave.
Truly the giver of death has no arrow so
fatal as Consumption. In all ages it has been
the great enemy of life, for it spares neither
age nor sex, but sweeps alike the brave,
the beautiful, the graceful, and the gifted—
By the help of that simple and perfect gift,
I am enabled to offer to the afflicted a perma-
nent and speedy cure in Consumption. The
first cause of tubercles is from impure
blood, and the immediate effect, produced
by their disposition in the lungs, is to prevent
the free admission of air into the lungs, and
which causes a weakened vitality through-
out the entire system. Then surely it is more
rational to expect greater good from medi-
cines entering the cavities of the lungs than
from those administered through the stomach,
if the patient can breathe air into the lungs
and the breathing easy after inhaling
remedies. True, inhalation is a local
remedy, nevertheless it acts constitutionally,
and with more power and certainty than
remedies administered by the stomach. To prove
the powerful and direct influence of this
mode of administration, chloroform inhaled
will entirely destroy sensibility in a few min-
utes, paralyzing the entire nervous system, so
that a limb may be amputated without the
slightest pain; inhaling the ordinary burning
gas will destroy life in a few hours.
The inhalation of ammonia will cause the
system when fainting or any other deadly
disease. The odor of many of the medicines is
perceptible in the skin a few minutes after being
inhaled, and may be immediately detected
in the blood. A convincing proof of the
constitutional effects of inhalation, is the fact
that sickness is always produced by breath-
ing foul air.
The most powerful and positive evidence
that proves remedies, carefully prepared and
judiciously administered through the lungs,
should produce the most happy results? Dur-
ing eighteen years' practice, many thousand
suffering from diseases of the lungs and
throat, have been cured by my means, and I
have effected many remarkable cures, even
after the sufferer had been pronounced in
the last stages, which fully satisfies me that
consumption is no longer a fatal disease—
My treatment of consumption is original, and
founded on long experience and a thorough
investigation. My perfect acquaintance with
the nature of tubercles, and the various dis-
tinctness of the various forms of dis-
ease that stimulate consumption, and apply
the proper remedies rarely being mistaken
even in a single case. This familiarity in
connection with certain pathological and mi-
croscopic discoveries, enables me to relieve
the lungs from the effects of contracted chest,
to enliven the system, to purify the blood, impart
a renewed vitality, giving energy and tone
to the entire system.

ways are when put to the test.
Philadelphia, Dec. 15th, 1854.
Messrs. Evans & Watson, No. 26 south
Fourth Street, Philadelphia—Gentlemen—
We take pleasure in recommending your
Salamander Safes to merchants and others
in want of a secure means of preserving
their books, papers, &c., from fire, as the
one we purchased from you about seven
months since has preserved our books, pa-
pers, and cash in as good condition as they
were when put into it, though the great fire
of this morning, which destroyed the entire
block of buildings corner of Chestnut and
Fifth Streets. The above Safe was in use
in our office, on the second floor of our build-
ing, from which place it fell into the street,
and remained there until the fire was out—
The safe was then removed, and opened in
the presence of at least 1000 persons, who
witnessed the good condition of the contents.
Will you please have the Safe and locks re-
paired, as we intend to put it in use again,
having perfect confidence in its fire proof
qualties. Yours, respectfully,
LACEY & PHILLIPS.

Evans & Watson take pleasure in referring
to the following, among the many hundreds,
who have their Safes in use—U. S. Mint,
Philadelphia; Farmers & Mechanics' Bank,

TONICS WON'T DO.
THEY never did more than give tempo-
rary relief and they never will. It is be-
cause they don't touch the cause of the dis-
ease. The cause of allague and bilious dis-
eases is the atmospheric poison called Mias-
ma or Malaria. Neutralize this poison by
NATURAL ANTIDOTE.
All diseases caused by it disappears at
once. Rhodes' Fever and Ague Cure is this
Antidote to Malaria, and moreover it is a
perfectly harmless medicine. The certificate
of the celebrated chemist, J. R. Clifton, of
New York, to this effect, is attached to every
copy; therefore if it does no good it can do
no harm.
This is more than can be said of Quinine,
Arsenic, or any tonic in existence, as they
are so ruinous to the constitution and brings
on ULM AGUE, which never allows a per-
son to feel perfectly well for a single moment.
In illustration of these truths I annex some
extracts from a letter just received from a
Physician:
Georgetown, Ohio, March 17, '56.
Jas. A. Rhodes, Esq.—Dear Sir: Yours of
2d inst. is at hand. The Cure arrived late
last year and was the difficulty in getting any
copy it was greatly increased from the fact
that a remedy had been introduced which
was growing in favor with the public, as be-
ing better than using Quinine,—not knowing
I presume that the remedy they needed to
escape taking Quinine, contained the DRUG
ITSELF.
This remedy, (known as "Smith's Tonic")
would invariably BRING AN AGUE, but it did
NOT CURE it, and it would often return with
renewed vigor. The one circumstance I
noticed in your favor, if I could institute a
test comparison between it and your CURE.
The following is the result:
Three persons took your "Cure," all of
which were cases of "Quotidian Intermit-
tent Fever," of many weeks standing. They
had tried Quinine, and other remedies, occa-
sionally missing a chill, but it was, (as in all
such cases,) slowly wearing them out, and
laying the foundation of other and severer
maladies. I did succeed in effecting a rad-
ical cure of all three of these cases with your
remedy, and they have not had a chill since.
In all three of these cases the "Smith's Tonic"
had been used, and would, as before stat-
ed, break the chill, but after a period or two
had elapsed it would return.
I think there will be no difficulty now in
giving to your "Cure" the same ground of
any other remedy now in use here, &c. &c.
WILLIAM BUCKNER, M. D.,
RHODES' FEVER AND AGUE CURE, or
Antidote to Malaria, is the only harmless reme-
dy in existence, is equally certain as a PRE-
VENTIVE, as a "CURE." Take it when you
feel the chill coming on, and you will
never have a single one more.

TERRIBLE DISLOSURES
Secrets for the Million!
A most Wonderful and Invaluable Publication.
Dr. Hunter's Medical Manual;
BEING AN ORIGINAL and popular
Treatise on MAN and
WOMAN: their Phys-
iology, Functions and
Sexual Disorders of
every kind, with new
and infallible Remedies for the speedy cure of all
diseases of a private and delicate character,
incident to the violation of the Laws of Na-
ture and of Nature's God.
PRICE TWENTY-FIVE CENTS.
The Author of the above volume is a gradu-
ate of one of the first medical schools in the
United States, and having devoted a quarter
of a century to the study and treatment of Syphilis
and kindred disorders as a specialty, he has
become possessed of most invaluable infor-
mation in regard to the same, and is able to com-
pense into a safe medium, the very minutest
details of medical science on this important
subject; as the result of the experience of the
most eminent physician in Europe and Amer-
ica is thoroughly demonstrated in his own
very successful practice. The treatment of
sex diseases in many thousands of cases in
the city of Philadelphia alone.
The practice of Dr. Hunter has long been,
and still is literally unbounded, but at the ear-
nest solicitation of numerous persons, he has
been induced to extend the rights of the pub-
lication to the community at large, through
the medium of his "Medical Manual Hand-
Book for the Afflicted."
It is a volume that should be in the hand of
every family in the land, whether used as a
preventive of secret vice, or as a guide for the
relief of one of the most cruel and destruc-
tive scourges ever visited upon mankind for
the sins of sensuality and impurity of every
kind.
It is a volume that has received the unquali-
fied recommendation of the first physicians in
the land, while many eminent surgeons, medi-
cines, and humanitarians, have volun-
tarily extended its circulation in all quar-
ters where its powerful teachings would be likely
to be instrumental in the moral purification
and physical healing of multitudes of our peo-
ple, among the young, virgins and delicate,
otherwise the pride and flower of the nation.
The author argues particularly, most strongly
against every species of self-deilement, and
warns parents and guardians, in searching
terms, to guard the young of both sexes from
the terrible consequences concomitant of their
ignorance of physical laws and sexual and
positive and irregularities, which, when
precocious development or arising from the
vicious and corrupting examples of their school-
fellows or otherwise. To those who have been
already ensnared to the "paths that take hold
on hell," a clear and explicit way is shown by
which they may secure a return to sound health
and a regeneration of the soul from its terrible
pollution.
It is well known that thousands of victims
are annually sacrificed to the shrin of Quack-
ery—especially those suffering from Venereal or
Syphilitic diseases—Stricture, Seminal Weak-
ness, Nervous Debility, and the numerous mal-
adies which spring directly or less remotely
from the indulgence of carnal passions and se-
cretions of Nature.
In view of these facts, and when it is also
considered that about 100,000 persons die an-
nually in the United States of Consumption—a
large majority being the victims of the volup-
tuous indulgence of their progenitors, agreeably
to the Scriptural enunciation, that the sins of
the parents are visited upon the children, even to
the third and fourth generation. The Author,
imbued with sentiments of enlarged philanthropy,
will scarcely be contented for any effort to
relieve the victims of the above mentioned
instrumentality of his Medical Manual.
