snoully destroys finely five thousand persons in the United States alone; and a correct calculation of the earth, eighty millions are destined to fill the consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted.—By the help of that Supreme Being, from whome cometh every good and perfect gift, I am enabled to offer to the affleted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect, produced by their disposition in the lungs, is to prevent the free admission of air into the sir cells, which causes a weakened vitality through the entire system. Then enrely it is more rational to expect greater good from medicines entering the cavines of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy after inhaling remedies. True, inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a lew minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead.—The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the langs, should produce the most kapp results? During eighteen

should produce the most happy results? During eighteen years' practice, many thousands, suffering from diseases of the lungs and throat, have been under my care, and I have affected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease.—
My treatment of consumption is original, and founded on long experience and a thorough investigation. My periect acquaintance with the patter of tubercles, &c, enables me to distinguish readily the various forms of disease. distinguish readily the various forms of dis-case that simulate consumption, and apply the proper remedies rarely being mistaken even in a single case. This familiarity in connection with certain pathological and mi-croscopic discoveries, enables me to relieve the flags from the effects of contracted chests to enlarge the cheat, purity the blood, susper to it renewed vindity, giving energy and tone to the entire system. to the entire system.

Just Published, Gratis, the 20th Thousand.

A few words on the rational treatment, without medicine, of Spermaterthea or Local Weakness, Debility, Impotency, and Impotenc Debility, Impotency, and Impediments to Marriage generally.

BY B. DE LANEY, M. D.

The important fact that the many alarming complaints, originating in the imprudence and collinde of youth, may be easily removed and solitude of youth, may be easily removed without Medicine, is in this small tract, clearly demonstrated; and the entirely new and highly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled to cute himself perfectly and at the least possible cost, thereby avoiding all the advertised nostrums of the day.

Sent to any address, gratis and post free in a sealed envelope, by remitting, postpaid, two postage stemps, to Dr. B. DE LANEY, 17. Lispenard Sreet, New York City. January 5, 1857-6m.

extracts from a letter just received from Physician:

Georgetoen, Ohio, March 17, '56.

Jas. A. Ruodes, Esq.—Dear Sir: Yours of 2d inst, is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the fact that a remedy had been introduced which was growing in favor with the public, as being bester than using Quinine,—not knowing that the remedy they needed to I presume that the remedy they needed to escape taking Quinine, contained the DRUG ITSELF!

ITSELF!
This remedy, (known as "Smith's Tonie.") would invariably BREAK an ague, but it did not CURE it, and it would often return with renewed vigor. The one circumstance I deemed in your favor, if I could institute a

cest comparison between it and your CURE. The following is the result:

Three persons took your "Cure," all of which were cases of "Quotidian Intermitent Ferer," of many weeks standing. They had tried Quinine, and other remedies, occasionally missing a chill, but it was, (as in all such cases, slowly wearing them out, and laying the foundation of other and severer maladies. I did succeed in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic" had been used, and would, as before stated, break the chill, but after a period or two had elapsed it would return.

I think there will be no difficulty now in giving to your "Cure" the vantage ground of any other remedy now in use here, &c. &c.

Spruce and Pine, Philadelphia, Pa.

INVALIDS Are apprised that Dr. KINKELIN confines his practice to a particular branch of medicine, which engages his individual attention. He cautions the unfortunate against the abuse of mercury; thousands are sommily mercurialized out of life. Recent affections are promptly extinguished.

and strengthened.

REMEMBER,

He who places himself under Dr. Kinkelin's treatment may religiously confide in his honor as a genieman, and rely upon the assurance, that the secrets of Dr. K's patients will never be disclosed.

Young man—let no false modesty deter you from making your case known to one who, from education and respectability, can befriend you.

CHAMPION!! The only Safe which, in every instance, preserved the entire contents at the late Extensive Fires.

A T THE BURNING OF THE ARTIZAN BUILDINGS, April 10th, and in the great fire in Market Street, May 1st, 1856, the genuine Herring Safe preserved the Jewelry of George W. Simms & Bro; Books, Papers & Coffisher & Bro, and Edward Semans & Co., after remaining avocal in the horsein will see the second of the terminal of the semanning avocal in the horsein will see the second of the semanning avocal in the horsein will see the second of the semanning avocal in the horsein will see the second of the semanning avocal in the horsein will see the second of the semanning avocal in the horsein will see the second of the semanning avocal in the horsein will see the second of t

of Fisher & Bro. and Edward Semans & Co., after remaining exposed in the burning ruins for nearly Forty Hours, and proving conclusively what we have always claimed for them, their great superiority over all securities known.

In these fires, the HERRING'S SAFE, standing side by side with those advertised as "warranted to stand 10 per cent more for standing side by side with those advertised as "warranted to stand 10 per cent, more fire than Herring's," came forth the acknowledge

condition to go through another ordeal, while the beasted "Salemanders" of other makers were badly used up in every instance, and in some cases their entire contents completely destroyed.

To the public we would simply say, that, during the fourteen years of the Herring's Sale has been before them, more than two hundred have passed through accidental fires without the occurrence of a single loss.

We would, therefore, caution purchasers against the misrepresentation of interested parties. The Herring's Patent is the only fire-proof Safe made in this city which is protected by a Patent Right, and we will guarantee it to resist more than double the amount of heat of any other Safe now known.
