AND ALL DISEASES OF THE LUNGS
and THEDAT are positively carable by
nhalision, which conveys the remedies to
the castities in the lungs through the air passages, and coming in direct contact with the
disease, neutralizes the tubercolar matter,
allays the cough, causes a free and sasy expector-stion, heals the lungs, purfies the blood,
imparts renewed vitality to the nervous system, giving that tone and energy so indispensable to the restorative of health. To be
able to state confidently that Consumption is
curable by inbalation, is to me a source of
unalloyed pleasure. It is as much under the
control of medical, treatment as any other
formidable disease; ninety out of every hundred cases can be cured in the first stages,
and fifty per cent. in the second, but in the
third stage it is impossible to save more than
five per cent., for the lungs are so cut up by
the disease as to bid defiance to medical
skill. Even, however, in the last stages, inhalation affords extraordinary relief to the
soffering attending this iserful socurge, which
annually destroys ninety five thousand persons in the United States alone; and a correct
calculation shows that out of the present population of the earth, eighty millions are destimed to fill the consumpure's grave.

Truly the quiver of death has no arrow so
fatal as Consumption. In all ages it has been
the great enemy of life, for it spares neither
age nor sex, but sweeps off alike the brave,
the beautiful, the graceful, and the gifted.—
By the help of that Supreme Being, from
whom cometh every good and perfect gift, I
am enabled to offer to the afflicted a permanent ard speedy cure in Consumption. The
first cause of tubercles is from impure
blood, and the immediate effect, produced
by their disposition in the lunge, is to prevent
the free admission of air into the air cells,
which causes a weakened vitality through
the entire system. Then surely it is more
rational to expect greater good from redi;
cines entering the cavities of the lungs
free and the breathin

The important fact that the many alarming complaints, originating in the imprudence and solitude of youth, may be easily removed without Medicine, is in this small tract, clearly demonstrated; and the entirely new and highly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled to cure himself perfectly and at the least possible cost, three-by avoiding all the advertised nostrums of the day.

TO THE FASHONABLE AND ENTERING THE undersigned, having justreceived the latest Paris and New York Fashions, would again beg leave to inform his numerous friends and all the world about Blooms burg, that he is now better prepared tians ever to accommodate any one with the nestest, easiest and best fitting suits of Clothes that have been turned out lately; and not only that, but he will also do them up in the best order, upon the lowest terms.

His shop is at the old stand, (too welknown to need further notice) where he may at all times be found, seated upon the bench of repentance, steadily drawing out the thereas of affliction, hopeing it may in the end prove advantageous to him and his customers. He would also advise his friends to bear in mine that poor, afflicted tailors must live, or they can't be expected to work. Therefore, Wheat Rye Corn, Oats, Potatoes, and with all now and then a little CASH will come mighty handy from those who are back-standing on his book.

Remember, gentlemen, that in all cases "the laborer is worthy of his hire."

\*\*Philadelphia, Dec. 15th, 1854.\*\*

Messr. Evans & Watson, No. 26 south Fourth Street, Philadelphia.—Gentlemen:—We take pleasure in recommending your Salamander Safes to merchants and others in want of a secure means of preserving their books, papers, &c., from fire, as the one-we purchased from you about seven months since has preserved our books, papers, and cash in as good condition as they were when put into it, before the great fire of this morning, which destroyed the entire block of buildings corner of Chestnut and Fifth Streets. The above Safe was in use in our office, on the second floor of our building, from which place it fell into the cellar, and remained there until the fire was out.—The safe was then removed, and oppened in the presence of at least 1000 persons, who witnessed the good condition of the contents. Will you please have the Safe and locks repaired, as we intend to put it in use again, having perfect confidence in its fire proof qualities. Yours, respectfully,

TONICS WON'T DO.

THEY never did do more than give temporary relief and they never will. It is because they don't touch the cause of the disease. The cause of all ague and billious diseases is the atmospheric poison called Missma or Malaria. Neutralize this poison by

NATURAL ANTIDOTE, and all diseases caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless medicine. I presume that the remedy they needed to escape taking Quinine, contained the DRUG ITSELF!

This remedy, (knowns "Smith's Tonic,") would invariably BRŁAK an ague, but it did not CURE it, and it would often return with renewed vigor. The one circumstance I deemed in your favor, if I could institute a test comparison between it and your CURE. The following is the result:

Three persons took your "Cure," all of which were cases of "Quotidian Intermittent Fever," of many weeks standing. They had tried Quinine, and other remedies, occasionally missing a chill, but it was, (as in all such cases,) slowly wearing them out, and laying the foundation of other and severer maladies. I did succeed in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic" had been used, and would, as before stated, break the chill, but after a period or two had elapsed it would return.

I think there will be no difficulty now in giving to your 'Cure" the vantage ground of any other remedy now in use here, &c. &c. WILLIAM BUCKNER, M. D.

RHODES' FEVER and AGUE CURE, or Antidote to Malaria, the only harmless remedy in existence, is equally certain as a PRE-VENTIVE, as a "CURE." Take it when you feel the chill coming on, and you will never have a single one your deep the chill coming on, and you will never have a single one your deep the chill coming on, and you will never have a single one your deep the chill coming on, and you will never have a single one your deep the chill coming on, and you will never have a single one your death of the providence. BEING AN ORIGINAL and popular Treatise on MAN and WOMAN; sheir Physiology, Functions and Woman, where the provided in the laws of a private and delicate character, incident to the violation of the Laws of Nature and of Natures God.

PRICE TWENTY-FIVE CENTS.

The Author of the above volume is a graduate of one or the first medical schools in the United States, and having devoted a quarter of a century to the study and treatment of Sphilis and kindred disorders as a speciality, he has become pussessed of most invaluable information in regard to the same, and is able to compass into vade mecume compass the very quintessence of medical science on this important subject; as the result of the experience of the most eminent physician in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the City of Philadelphia slone.

The practice of Dr. Hunter has long boen, and still as literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his processions usefulness to the community at large, through the medium of his "Medical Manual Hand-Book for the Affliced."

It is a volume that should be in the hand of every family in the land, whether used as a preventive of secret vice, or as a guide for the alleviation of one of the most awful and destructive scourges ever visited upon mankind for the sins of sensuality and impurity of every kit d.

It is a volume that has received the unqualified recommendation of the first physicians in

structive scourges ever visited upon mankind for the sins of sensuality and impurity of every kt d.

It is a volume that has received the unqualified recommendation of the first physicians in the land, while many clergymen, fathers, mothers, philantheopats and humanitariars, have most freely extended its circulation in all quarters where its powerful teachings would be likely to be instrumental in the moral purification and physical healing of multitudes of our people, among the young, volatile and indiscreet, otherwise the pride and flower of the nation.

The author argues particularly, most strongly against every species of self-defilement, and warns parents and guardian in searching terms, to guard the young of both sexes from the terrible consequences concomitant of their ignorance of phyiological laws and sexual ind purities and irregularities, whether exhibitary precocious development or arising from the viscious and corrupting examples of their schoolmates or otherwise. To those who have been already ensanged to the "paths that take held on hell," a clear and explicit way is shown by which they may secure a return of sound health and a regeneration of the soul from its terrible pollution.

It is well known that thousands of victims

which they may secure a return of sound health and a regeneration of the soul from its terrible pollution.

It is well known that thousands of victims are annually sacrificed at the shrin of Quackery—especially those suffering from Venereal or Syphilitic diseases—Strictures, Seminal Weakness, Nervous Debility, and the numerous maladies which spring directly or less remotely from the indulgence of caraal passions and secrety, iolations of Nature.

In view of these facts, and when it is also considered that about 100,000 persons die annually in the United States of Chonumption—a large majority being the victims of the voluputions indiscretion of their progenitors, agreeably to the Scriptural enunciation, that the sins of the parents are visited upon the children, even to the third and fourth generation. The Author, imbued with sentiments of enlarged philhuthropy, will scarcely be censured for any effort to restrain the vices of the age, by the humble instrumentality of his Medical Manual.

INVALIDS Are apprised that Dr. KINKELIN commess
his practice to a particular branch of medicine, which engages his individual attention.
He cautions the unfortunate against the abuse of mercury; thousands are contailly
mercurialized out of life. Recent affections

are promptly extinguished.
TWENTY YEARS' EXPERIENCE In the treatment of a class of diseases hith erto neglected and imperfectly understood, has enabled Dr. KINKELIN, Author of a work on Soil Preservation, to prove hat nine-tenths of the causes of nervous debility, local and constitutional weakness, mental and physical suffering, are traceable to certain habits, forming the most ecret yet deadly and fatal springs of domestic misery and premature mortality.

TAKE PARTICULAR NOTICE.

TAKE PARTICULAR NOTICE,
There is an evil habt sometimes indelged
in by boys, in solitude, and which, if not reformed in due time, not only begets serious
obstacles to matrimonial happiness, but gives
rise to a series of protracted, insidious, and
devastating afflictions. Few of those who
give way to this permicious practice are awate of the consequences, until they find
the nervous eyetem shattered, feel airange
and unaccountable feelings, and vague fears
in the mind.

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is
tardy and weak, he is dull, irresolute, and
engages in his sport with less energy than
usual.

If he emancing ate himself before the prac-

If he emancif ate himself before the practice has done its worst, and enter matrimony, his marriage is unfruiffel, and his sense tells him that this is caused by his early follies.—These are considerations which should awaken the attention of those similarly situated.

MARRIAGE

MARRIAGE MARRIAGE
Requires the fulfillment of several conditions in order that it may be really the cause of mutual happiness. Could the veil which covers the origin of domestic wretchedness be raised, and its true source in every instance disclosed—in how many could it be traced to physical diagnalifications and their attendant disappointments! Apply then while it is yet time, in order to have your unstrung and relaxed organization rebraced, revivified and strengthened.

and strengthened.

REMEMBER,
He who places himself under Dr. Kinkelin's treatment may religiously confide in his houor as a genteman, and rely upon the assurance, that the secrets of Dr. K'a patients will never be disclosed.

Young mau—let no false modesty deter you from making your case known to ane who, from education and respectability, can befriend you.

Too many think they will conceal the secret in their own hearts, and cure themse lives Alas! how often is this a latal defusion, and how many a promising young man, who might have been an ornament to society, has faded from the earth.

Sirictures of the brethra are rapidly removed by the application of a new therapeutical agent, used only by Dr. K. Weakness and Constitutional Debility promptly cured, and full vigar restored.

"I am a man and deem resthing white relates to man foreign to my feelings." REMEMBER.

To the public we would simply say, that, during the fourteen years of the Herring's Safe has been before them, more than two houdred have passed through accidental free without the occurrence of a single loss.

We would, therefore, caution purchasers against the misrepresentation of interested parties. The Herring's Patent is the only Fire-proof Safe made in this city which is protected by a Patent Right, and we will guarantee it to resist more than double the amount of heat of any other Safe now known.
