CONSUMPTION,

AND ALL DISEASES OF THE LUNGS and THROAT are positively curable by inhalation, which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restorative of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent., for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful scourge, which annually destroys ninety five thousand persons in the United States alone; and a correct calculation shows that out of the present population of the earth, eighty millions are destined to fill the consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted.—By the help of that Supreme Being, from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect, produced by their disposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy after inhaling remedies. True, inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead.—The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs, should produce the most happy results? During eighteen years' practice, many thousands, suffering from diseases of the lungs and throat, have been under my care, and I have affected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease.—My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish readily the various forms of disease that simulate consumption, and apply the proper remedies rarely being mistaken even in a single case. This familiarity in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests; to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

☞ A CALL ☜
TO THE FASHONABLE AND OTHERS.

THE undersigned, having just received the latest Paris and New York Fashions would again beg leave to inform his numerous friends and all the world about Bloomsburg, that he is now better prepared than ever to accommodate any one with the neatest, easiest and best fitting suits of Clothes that have been turned out lately; and not only that, but he will also do them up in the best order, upon the lowest terms.

His shop is at the old stand, (too well known to need further notice) where he may at all times be found, seated upon the *bench* of repentance steadily drawing out the *threads* of affliction, hoping it may in the *end* prove advantageous to him and his customers. He would also advise his friends to bear in mind that poor, afflicted tailors must live, or they can't be expected to work. Therefore, Wheat Rye, Corn, Oats, Potatoes, and with all now and then a little CASH will come mighty handy from those who are back-standing on the book.

Remember, gentlemen, that in all cases "the laborer is worthy of his hire."

SALAMANDER SAFES;
EVANS & WATSON,
No. 26 South Fourth St.,
PHILADELPHIA.
Great Fire, Chestnut & Fifth Streets,

MONDAY MORNING, DECEMBER, 15th, 1854. EVANS & WATSON'S SALAMANDER SAFES TRIUMPHANT, as they always are when put to the test.

Philadelphia, Dec. 15th, 1854.

Messrs. Evans & Watson, No. 26 south Fourth Street, Philadelphia.—Gentlemen:—We take pleasure in recommending your Salamander Safes to merchants and others in want of a secure means of preserving their books, papers, &c., from fire, as the one we purchased from you about seven months since has preserved our books, papers, and cash in as good condition as they were when put into it, before the great fire of this morning, which destroyed the entire block of buildings corner of Chestnut and Fifth Streets. The above Safe was in use in our office, on the second floor of our building, from which place it fell into the cellar, and remained there until the fire was out.—The safe was then removed, and oppened in the presence of at least 1000 persons, who witnessed the good condition of the contents. Will you please have the Safe and locks repaired, as we intend to put it in use again, having perfect confidence in its fire proof qualities. Yours, respectfully,

LACEY & PHILLIPS.

Evans & Watson take pleasure in referring to the following, among the many hundreds, who have their Safes in use:—U. S. Mint, Philadelphia; Farmers & Mechanics' Bank, Philadelphia; Samuel Allen, Esq. High Sheriff, Philadelphia; John N. Henderson, City Controller; Caleb Cope & Co., No. 183 Market street; Richard Norris & Son, Locomotive builders, Philadelphia; Bancroft & Sellers, Machinists, corner 16th and James streets; Franklin Fire Insurance Co., Philadelphia; Pennsylvania Railroad Co., Philadelphia; Lacey & Phillips, corner of 5th and Minor street; Sharpless Bro., No. 32 south Second street; James, Kent & Santee, No. 147 north Third street.

A large assortment of the above Safes always on hand [warranted to stand at least 10 per cent. more fire than any Herring's Safe now in use.] Evans & Watson also manufacture and keep for sale, Iron Shutters, Iron Doors, and Iron Sash, for making fire proof Vaults, for Banks, stores, private and public buildings; Seal and Letter Copying Presses; Patent Slate Lined Refrigerators, &c.

Please give us a call at No. 26 South 4th street Philadelphia.

TONICS WON'T DO.

THEY never did do more than give temporary relief and they never will. It is because they don't touch the *cause* of the disease. The *cause* of all ague and billious diseases is the atmospheric poison called Miasma or Malaria. Neutralize this poison by its

NATURAL ANTIDOTE.

and all diseases caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached to every bottle; therefore if it does no good it can do no harm.

This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on DUMB AGUE, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:

Georgetown, Ohio, March 17, '56.

JAS. A. RHODES, Esq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presume that the remedy they needed to escape taking Quinine, contained the DRUG ITSELF!

This remedy, (known as "Smith's Tonic,") would invariably BREAK an ague, but it did not CURE it, and it would often return with renewed vigor. The one circumstance I deemed in your favor, if I could institute a test comparison between it and your CURE. The following is the result:

Three persons took your "Cure," all of which were cases of "Quotidian Intermittent Fever," of many weeks standing. They had tried Quinine, and other remedies, occasionally missing a chill, but it was, (as in all such cases,) slowly wearing them out, and laying the foundation of other and severer maladies. I did succeed in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic" had been used, and would, as before stated, break the chill, but after a period or two had elapsed it would return.

I think there will be no difficulty now in giving to your "Cure" the vantage ground of any other remedy now in use here. &c. &c.

WILLIAM BUCKNER, M. D.

RHODES' FEVER and AGUE CURE, or *Antidote to Malaria*, the only harmless remedy in existence, is equal'y certain as a PREVENTIVE, as a "CURE." Take it when you feel the chill coming on, and you will never have a single one

TERRIBLE DISCLOSURES
Secrets for the Million!
A most Wonderful and Invaluable Publication.
Dr. Hunter's Medical Manual;

BEING AN ORIGINAL and popular Treatise on MAN and WOMAN: their Physiology, Functions and Sexual Disorders of every kind, with never failing Remedies for the speedy cure of all diseases of a private and delicate character, incident to the violation of the Laws of Nature and of Natures God.

PRICE TWENTY-FIVE CENTS.

THE Author of the above volume is a graduate of one of the first medical schools in the United States, and having devoted a quarter of a century to the study and treatment of Syphilis and kindred disorders as a speciality, he has become possessed of most invaluable information in regard to the same, and is able to compass into vade mecum compass the very quintessence of medical science on this important subject; as the result of the experience of the most eminent physician in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the City of Philadelphia alone.

The practice of Dr. Hunter has long been, and still is literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional usefulness to the community at large, through the medium of his "Medical Manual Hand-Book for the Afflicted."

It is a volume that should be in the hand of every family in the land, whether used as a preventive of secret vice, or as a guide for the alleviation of one of the most awful and destructive scourges ever visited upon mankind for the sins of sensuality and impurity of every kind.

It is a volume that has received the unqualified recommendation of the first physicians in the land, while many clergymen, fathers, mothers, philanthropists and humanitarians, have most freely extended its circulation in all quarters where its powerful teachings would be likely to be instrumental in the moral purification and physical healing of multitudes of our people, among the young, volatile and indiscreet, otherwise the pride and flower of the nation.

The author argues particularly, most strongly against every species of self-defilement, and warns parents and guardians, in searching terms, to guard the young of both sexes from the terrible consequences concomitant of their ignorance of physiological laws and sexual and purities and irregularities, whether exhibitedby precocious development or arising from the viscious and corrupting examples of their schoolmates or otherwise. To those who have been already ensnared to the "paths that take hold on hell," a clear and explicit way is shown by which they may secure a return of sound health and a regeneration of the soul from its terrible pollution.

It is well known that thousands of victims are annually sacrificed at the shrin of Quackery—especially those suffering from Venereal or Syphilitic diseases—Strictures, Seminal Weakness, Nervous Debility, and the numerous maladies which spring directly or less remotely from the indulgence of carnal passions and secret violations of Nature.

In view of these facts, and when it is also considered that about 100,000 persons die annually in the United States of Consumption—a large majority being the victims of the voluptuous indiscretion of their progenitors, agreeably to the Scriptural enunciation, that the sins of the parents are visited upon the children, even to the third and fourth generation. The Author, imbued with sentiments of enlarged philanthropy, will scarcely be censored for any effort to restrain the vices of the age, by the humble instrumentality of his Medical Manual.

PHILADELPHIA MEDICAL HOUSE—Established 20 years ago by Dr. KINKELIN, corner of Third and Union streets, between Spruce and Pine, Philadelphia, Pa.

INVALIDS

Are apprised that Dr. KINKELIN confines his practice to a particular branch of medicine, which engages his individual attention. He cautions the unfortunate against the abuse of mercury; thousands are annually mercurialized out of life. Recent affections are promptly extinguished.

TWENTY YEARS' EXPERIENCE

In the treatment of a class of diseases hitherto neglected and imperfectly understood, has enabled Dr. KINKELIN, Author of a work on Self Preservation, to prove that nine-tenths of the causes of nervous debility, local and constitutional weakness, mental and physical suffering, are traceable to certain habits, forming the most secret yet deadly and fatal springs of domestic misery and premature mortality.

TAKE PARTICULAR NOTICE,

There is an evil habit sometimes indulged in by boys, in solitude, and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating afflictions. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable feelings, and vague fears in the mind.

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak, he is dull, irresolute, and engages in his sport with less energy than usual.

If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this is caused by his early follies.—These are considerations which should awaken the attention of those similarly situated.

MARRIAGE

Requires the fulfillment of several conditions in order that it may be really the cause of mutual happiness. Could the veil which covers the origin of domestic wretchedness be raised, and its true source in every instance disclosed—in how
