

CONSUMPTION.

AND ALL DISEASES OF THE LUNGS AND THROAT are positively curable by inhalation, which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable to state confidence that Consumption is curable by inhalation, is a more source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent. for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attendant through the use of the annually destroyed ninety five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme Being, from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption, which first cause of tubercles is from impure blood, and the immediate effect, produced by their disposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Greater good from need, comes entering the cavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy after inhaling remedies. True, inhalation is a local remedy, nevertheless it is more powerful and certain than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; in all ages it is more successful than any other remedy. The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood, with certain proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs, should produce the most happy results? During eighteen years' practice, many thousands, suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is founded on long and successful practice, and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish readily the various forms of disease that simulate consumption, and apply the proper remedies rarely being mistaken even in a single case. The scientific connection with certain pathological and microscopic discoveries, enables me to direct the lungs from the effects of contracted chest; to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

EVANS & WATSON'S SALAMANDER SAFES TRIUMPHANT, as they always were when put to the test. Philadelphia, Dec. 15th, 1854. Messrs. Evans & Watson, No. 26 South Fourth Street, Philadelphia.—Gentlemen:—We take pleasure in recommending your Salamander Safes to merchants and others in want of a secure means of preserving their books, papers, &c., from fire, as the one we purchased from you about seven months since has preserved our books, papers, and cash in as good condition as they were when put into it, before the great fire of this morning, which destroyed the entire block of buildings corner of Chestnut and Fifth Streets. The above Safe was in use in our office, on the second floor of our building, from which place it fell into the cellar, and remained there until the fire was out. The safe was then removed, and opened in the presence of at least 1000 persons, who witnessed the good condition of the contents. Will you please have the Safe and locks repaired, as we intend to put it in use again, having perfect confidence in its fire proof qualities. Yours, respectfully, LACEY & PHILLIPS.

TONIC WON'T DO. THEY never did do more than give temporary relief and they never will, it is because they don't touch the cause of the disease. The cause of allague and bilious diseases is the atmospheric poison called Malaria or Malaria. Neutralize this poison by a NATURAL ANTIDOTE. and all diseases caused by it disappear at once. Ever's Blood Purifier. Care in this Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached to every bottle; therefore if it does no good it can do no harm. This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on DUMB AGUE, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a gentleman, Georgetown, Ohio, March 17, '56. Jas. A. RHODES, Esq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the fact that a remedy had been introduced which was growing in favor with the public, as being better than Quinine, and not knowing I presume that the remedy they needed to escape taking Quinine, continued the DRUG ITSELF! This remedy, (known as "Smith's Tonic," would invariably BR-ER-AK an ague, but it did not CURE it, and it would often return with renewed vigor. The cure of the ague, as described in your favor, if I could institute a test comparison between it and your CURE. The following is the result: Three persons took your "Cure," all of them were cases of "Quotidian Intermitting Fever," of many weeks standing. They had tried Quinine, and other remedies, occasionally missing a chill, but it was, (as usual) followed by a relapse, and they were out, and laying the foundation of other and severer maladies. I did succeed in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic" had been used, and would, as before stated, break the chill, but after a period or two had elapsed it would return. I think there will be no difficulty now in giving to you "Cure" the vantage ground of any other remedy now in use here. &c. &c. WILLIAM BUCKNER, M. D. RHODES' FEVER and AGUE CURE, or Antidote to Malaria, the only harmless remedy in existence, is put up in a PREVENTIVE, as a "CURE." Take it when you feel the chill coming on, and you will never have a single one. JAMES A. RHODES, Proprietor. Providence, R. I. For sale by Druggists generally. June 18, 1856.

TERRIBLE DISCLOSURES

Secrets for the Million! A Most Wonderful and Invaluable Publication. Dr. Hunter's Medical Manual; BEING AN ORIGINAL TREATISE ON MAN AND WOMAN: their Physiology, Functions and Sexual Disorders of every kind, with numerous falling Remedies for the speedy cure of all or falling Remedies for the speedy cure of all, incident to the violation of the Laws of Nature, and of Nature's God. PRICE TWENTY-FIVE CENTS. The Author of the above volume is a graduate of one of the first medical schools in the United States, and having devoted a quarter of a century to the study and treatment of Syphilis and kindred disorders as a specialty, he has become possessed of most invaluable information in regard to the same, and is able to compass into vade mecum compass the very quintessence of medical science, on facts, not only subjects, as the result of the experience of the most eminent physician in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of several diseases in many thousands of cases in the City of Philadelphia alone. The practice of Dr. Hunter has long been, and still is literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional usefulness to the community at large, by the medium of his "Medical Manual Hand-Book for the Afflicted." It is a volume that should be in the hand of every family in the land, whether used as a convenient reference, or as a guide to the alleviation of the most painful and distressing scourges ever visited upon mankind for the sins of sensuality and impurity of every kind. It is a volume that has received the unqualified recommendation of the first physicians in the land, while many distinguished and humane philanthropists and humanitarians have freely extended its circulation in all quarters where its powerful teachings would be likely to be instrumental in the moral purification and physical healing of multitudes of our people, among the young, volatile and impetuous, otherwise self-willed, and the most awful and destructive scourges ever visited upon mankind for the sins of sensuality and impurity of every kind. REMEMBER. He who places himself under Dr. Kinkelin's treatment may religiously confide in his honor as a gentleman, and rely upon the assurance that the secrets of Dr. K.'s patients will never be divulged. Young man—let no false modesty deter you from making your case known to one who, from education and respectability, can befriend you. Too many think they will conceal the secret in their own hearts, and cure themselves! Alas! how often is this a fatal delusion, and how many a promising young man, who might have been an ornament to society, has faded from the earth. Strictures of the urethra are rapidly removed by the application of a new therapeutic agent, used only by Dr. K. Weakness and Constitutional Debility promptly cured, and full vigor restored. I am a man and deem nothing which relates to man foreign to my feelings. READ! A Vigorous Life or a Premature Death.

KINKELIN ON SELF-PRESERVATION. Only twenty-five cents, or the value in postage stamps, will ensure a copy of this book, prepaid, per return of mail. Persons at a distance may address Dr. KINKELIN, by enclosing a remittance, and be assured at home. Packages of Medicines, with plain directions, packed secure from damage or curiosity, are forwarded by Mail or Express to any part of the United States. HERRING'S SAFE. AGAIN THE CHAMPION!! The only Safe which, in every instance, preserved the entire contents at the late extensive fires. AT THE BURNING OF THE ARTIZAN BUILDINGS, April 10th, and in the great fire in Market Street, May 1st, 1856, the genuine HERRING'S SAFE preserved the Jewelry of George W. Simms & Bro.; Books, Papers &c. of Fisher & Bro. and Edward Semers & Co., after remaining exposed in the burning ruins for nearly Forty Hours, and proving conclusively what we have always claimed for them, their great superiority over all securities known. In these fires, the HERRING'S SAFE, standing side by side with those advertised as "warranted to stand 100 per cent. more fire than Herring's," came forth the acknowledged victor, not only preserving their contents in excellent order, but being themselves in a condition to go through another ordeal, while the boasted "standers" of other makers were badly used up in every instance, and in some cases their entire contents completely destroyed. To the public we would simply say, that, during the fourteen years of the Herring's Safe has been before them, more than two hundred have passed through accidental fires without the occurrence of a single loss. We would, therefore, caution purchasers against the misrepresentation of interested parties. The Herring's Patent is the only Fire-proof Safe made in this city which is protected by a Patent Right, and we will guarantee it to resist more than double the amount of heat of any other Safe now known. Sole Manufacturer in the State of "Herring's Patent Champion Safes," 34 Walnut St., Philad'a. N. B.—Evans & Watson's Improved Salt-omanders; "Oliver Evans's;" "C. J. Gayler's;" and "Scott's Abasco's;" Iron Chests, (a large assortment having been taken in part payment for "Herring's") will be sold at low prices. Philadelphia, June 10, 1856-1y.

PHILADELPHIA MEDICAL HOUSE—Established 20 years ago by Dr. KINKELIN, corner of Third and Union streets, between Spruce and Pine, Philadelphia, Pa. INVALIDS. Are apprised that Dr. KINKELIN confines his practice to a particular branch of medicine, which engages his individual attention. He cautions the unfortunate against the abuse of mercury; thousands are annually mercenarized out of life. Recent affections are promptly extinguished. TWENTY YEARS' EXPERIENCE. In the treatment of a class of diseases hitherto neglected and imperfectly understood, has enabled Dr. KINKELIN, Author of a work on Self Preservation, to prove that nine-tenths of the causes of nervous debility, local and constitutional weakness, mental and physical suffering, are traceable to certain habits, forming the most secret yet deadly and fatal springs of domestic misery and premature mortality. TAKE PARTICULAR NOTICE. There is an evil habit sometimes indulged in by boys, in solitude, and which, if not reformed in due time, not only begets serious obstacles to making any profession, but gives rise to a series of protracted, and in some cases, devastating afflictions. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable feelings, and vague fears in the mind. The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his steps are tardy and weak, he is dull, irritable, and engages in his sport with less energy than usual. If he emancipates himself before the disease has done its worst, and enters matrimony, his marriage is unfruitful, and his progeny are him that is caused by his early faults.—These are considerations which should awaken the attention of those similarly situated. MARRIAGE. Requires the fulfillment of several conditions in order that it may be really the cause of mutual happiness. Could the veil which covers the origin of domestic wretchedness be raised, and its true source in every instance disclosed—how many could it be traced to physical disqualifications and their attendant disappointments! Apply while it is yet time, in order to have your unstrung and relaxed organization rebraced, revived and strengthened.

REMEMBER. He who places himself under Dr. Kinkelin's treatment may religiously confide in his honor as a gentleman, and rely upon the assurance that the secrets of Dr. K.'s patients will never be divulged. Young man—let no false modesty deter you from making your case known to one who, from education and respectability, can befriend you. Too many think they will conceal the secret in their own hearts, and cure themselves! Alas! how often is this a fatal delusion, and how many a promising young man, who might have been an ornament to society, has faded from the earth. Strictures of the urethra are rapidly removed by the application of a new therapeutic agent, used only by Dr. K. Weakness and Constitutional Debility promptly cured, and full vigor restored. I am a man and deem nothing which relates to man foreign to my feelings. READ! A Vigorous Life or a Premature Death.
