A ND AIA JISEASES OF THE LUNGS and THTOAT are positively suitable by inhelation, which conveys the remedies to the extitue in the longs, through the air, par-sages, and coming in dheer contact with the disease, neutralizes, the tubercular matter, allays the cough, causes a free and easy ex-pectoration, heatigthe lungs, purifies the blood, imparts remewed visibity to the nervous sys-tem, giving that tone and energy so indis-pensable for the restorative of health. To be able to site confidently that Consumption is tem, giving that tone and energy so indis-pensable for the restorative of health. To bel-able to size confiderally that Consumption is curable by inbiation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other i formidable disease; ninety out of every hun-dred cases can be cured in the first sizes, and fify per cert in the second, but in the third size it is impossible to save more than five per cent, for the langs are so cut up by the disease as to bid defiance to medical ekill. Even, however, in the last stages, in-halation affords extraofdinary relief to the suffering auending this fearful accurge, which annually destroys ninety five thousand per-sons in the United States alone; and a correct calculation shows that out of the present pop-ulation of fill the consumptive's grave. Troly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alite the brave, the beautiful, the graceful, and the gifted.— By the help of that Supreme Being, from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a perma-nent acd speedy cure in Consumption. The first sease of tabercles, is from impure blood, and the immediate effect, produced by their disposition in the longs, is to prevent the free dimission of air into the air cells,

am enabled to other to the anticed a perma-nent act specify cure in Consumption. The blood, and the immediate effect, produced by their disposition in the longs, is to prevent which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from redi-cines entering the cavitues of the lungs than from those administered through the stom-ach; the patient will always find the longs free and the breathing easy after inhaling remedies. True, inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than rem-edies administered by the stomach. To prove the power lot and direct influence of this will entirely destroy sensibility in a few min-nites, paralyzing the entire nervous system, so that a limb may be amputated without the system when fainting or apparently dead.— The odor of many of the medicines is per-reptible in the skin a few min-the system when fainting or apparently dead.— The odor of many of the medicines is per-reptible in the skin a few minutes after being in the blood. A courvincing proof of the constitutional effects of inhalation, is the faot that sickness is always produced by breath-ing foul air. Is not this positive evidence that proper remedies, four-fuely uring from and, soffering from diseases of the lungs, should produce the most kappy results? Du-and, soffering from diseases of the lungs and throat, have been under my care, and I have affected many remarkable cures, even after the sufferers had been pronounced in the last steges, which fully satisfies me that consumption is no longer a fatal disease.— My treatment of consumptions, end apply investigation. My perfect acquaintance with the narue of tubercles, & c., enables me to distinguish readily the various forms of dis case that simulate consumption, and apply even in a single case. This familiarity in connection with certain pathological and mi-roscopic discoveries, canables me to disting the store to nince system.. Evans & Watson, No. 26 south Fourth Street, Philadelphia.—Gentlemen:— We take plesaure in recommending your Salamander Safes to merchants and others in want of a secure means of preserving their books, papers, &c., from fire, as the one we purchased from you about seven months since has preserved our books, pa-pers, and eash in as good condition as they were when put into it, before the great fire of this morning, which destroyed the entire block of boildings corner of Chestnut and Fifth Streets. The above Safe was in use in our office, on the second floor of our build-ing, from which place it fell into the cellar, and spinained there until the fire was out.— The safe was then removed, and oppened in the presence of at least 1000 persons, who witnessed the good condition the contents. Will you please have the Safe and looks re-paired, as we intend to put it in use again, having perfect confidence in its fire proof qualities. Yours, respectfully. LACEY & PHILLIPS. THEY never did do more than give tempo-ray relief and they never will. It is be-cause they don't touch the cause of the dis-ease. The cause of all ague and billions dis-eases is the atmospheric poison called Mias-ma or Malaria. Neutralize this poison by ite NATURAL ANTIDOTE.

and all diseases caused by it disappears at once. Rhodes Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached to every bottle; therefore if it does no good it can do no here.

This is more than can be said of Quinine. A result, or any tonic in existence, as their use is roindus to the constitution and brings on DIMB AGUE, which never allows a per-son to feel perfectly well for a single moment. In illustation of these truths I annex some 'extracts from a letter just received from a Drassing.

extracts from a letter just received from a Physician: Georgetown, Ohio, March 17, '56. Jas. A. RHODES, Esq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the fact that a remedy had been introduced which was growing in favor with the public, as be-ing better than using Quinine,—not knowing I presume that the remedy they needed to escape taking Quinine, contained the DRUG ITSELF! This remedy, (known as "Smith's Tonic,")

escape taking Quinine, contained the DRUG ITSELF! This remedy, (known as "Smith's Tonic,") would invariably BREAK an ague, but it did not CURE it; and it would often return with renewed vigor. The one circumstance I deemed in your favor, if I could institute a test comparison between it and your CURE. The tollowing is the result: Three persons took your "Cure," all of which were cases of "Quotidian Intermit-tent Faver," of many weeks standing. They had tried Quinine, and other remedies, occa-sionally missing a chill, but it was, (as in all such cases, slowly wearing them out, and laying the foundation of other and severer maladies. I did succeed in effecting a radi-cal cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Ton-ic" had been used, and would, as before sta-ted, break the chill, but after a period or two had elapsed it would return. I think there will be no difficulty now in

WILLIAM BUCKNER, M. D. RHODES' FEVER and AGUE CURE, or Antidote to Mataria, the only harmless reme-dy in existence, is equally certain as a PRE-VENTIVE, as a "CURE." Take it when you feel the chill coming on, and you will superhere a thord one

It is a volume that has received the unquali-fied recommendation of the first physicians in the land, while many clergymen, fathers, moth-ers, philanthropusts and humanitarians, have most freely extended its circulation in all quar-ters where its powerful teachings would be like-ity to be instrumental in the moral purification and physical healing of multitudes of our peo-ple, among the young, volstile and indiscreet, otherwise the pride and flower of the nation. The authon argues particularly, most strongly against every species of self-defilement, and warns parents and guardians, in searching terms, to guard the young of both sexes from the terrible consequences concomitant of their ignorance of physiological laws and ezual ind purities and irregularities, whether exhibite-ny precocious development or arising from the viscious and corrupting examples of their school-mates or otherwise. TWENTY YEARS' EXPERIENCE-In the treatment of a class of diseases hith erto neglected and imperfectly understood, has enabled Dr. KINKELIN, Author of a work on Self Preservation, to prove hat nine-tenths of the causes of nervous debility, lo-cal and constitutional weakness, mental and physical suffering, are traceable to certain habits, forming the most secret yet deadly and latal springs of domestic misery and premature mortality. TAKE PARTICULAR NOTICE, These is an all beth causeting is dead

TAKE PARTICULAR NOTICE, There is an evil habit sometimes indulged in by boys, in solitude, and which, if not re-formed in due tume, not only begets serious obstacles to matrimonial happiness, but gives arise to a series of protracted, insidious, and devastating afflictions. Few of those who give way to this pernicious practice are a-ware of the consequences, until they find the nervous system shattered, feel strange and unaccountable feelings, and vague fears the mind. The unfortunate thus affected becomes fee-ble, is unable to labor with accustomed vig-or, or to apply his mind to study; his step is tardy and weak, he is dull, presolue, and engages in his sport with less energy than usual. If the emancif ate himself before the prac-tice has done its worst, and enter matrimony, his matriage is unfuifuld, and his sense tell him that this is caused by his early follies.— These are considerations which should awa-ken the attention of those similarly situated. MARRIAGE

MARRIAGE

Requires the fulfillment of several conditions

Requires the fulfiliment of several conditions in order that it may be really the cause of mutual happiness. Could the veil which covers the origin of domestic wretchedness be raised, and its true source in every in-stance disclosed—in how many could it be traced to physical disqualifications and their attendant disappointments! Apply then while it is yet time, in order to have your unstrung and relaxed organization rebraced, revivified and strengthened.
