

The total number of emigrants sent to Liberia since the foundation of the American Colonization in 1820 is stated to be 94,202, of whom 8776 were born free, and 5,500 emancipated with a view to emigration. This number does not include 10,000 sent to "Maryland, in Liberia" by the American Colonization Society.

The receipts of the North Pennsylvania railroad for the four months ending the 31st inst, were \$24,298 74, against \$15,556 86 last year—an increase of \$8,841 89. The interest upon the bonds will be promptly paid.

More Emigrants.—There are now eleven ships on the way from Liverpool to Philadelphia, most of them having emigrants on board.

E. O. Ferris, Esq., announces that he goes to Kansas as a private citizen, and not as private Secretary of Gov. Walker, as has been stated.

Special Notices.

Holloway's Ointment and Pills.—Ulcers and sores drain the system of its vital energy.—Their desecrating action is kept up by violent matter in the vessels of the glands and skin. This matter is neutralized by the disinfecting operation of the Ointment. The Pills cure indigestion in all its forms. Purchasers are hereby informed of a certain test as to the genuineness of these remedies; it is necessary to see that each leaf of the book of directions around each pot and box shows the words, "Holloway, New York and London," as a water-mark, in semi-transparent letters. All not thus authenticated are frauds.

"Woodland Cream"—A Pomade for beautifying the Hair.—Lightly perfumed, superior to any French preparation, and half the price. AYER'S PILLS.
ARE YOU SICK?
Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards, might be cured by Ayer's Cathartic Pills, taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heart-burn, and their kindred disorders, because your stomach is foul. Don't prate yourself around the world, covered with pimples, blotches, ulcers, sores, and all or any of the unclean diseases of the skin, because your system wants cleaning. And all this, because you eat, lean, hagard, all cav'd in, because your Stomach and Bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healthy activity which you can feel as quick as they are taken. They are the only great medical wonder of the age, recognized by all who know their virtue, and many thousand know them. Take the Cherry Pectoral for a cough, and the Pills for all disarrangements requiring a purgative medicine.

Prepared by JAMES C. AYER, Practical and Analytical Chemist, Lowell, Mass.—and sold by E. P. Lutz and all Druggists in Bloomsburg, and by Dealers in Medicine everywhere. May 11, 1857-2m.

HERRING'S THE ACKNOWLEDGED CHAMPION!! THE testimonial at Reading have endorsed the current of public opinion, and confirmed the verdict of more than 200 accidental fires, proving conclusively that "Herring's" is the only safe that will not burn. Extract from the Committee's Report on the Trial of Iron Safes at Reading:—"On the 26th of February all the members of the Committee met to witness the Safes and books and papers, (placed in them) and were perfectly satisfied that all was right.—The day following the burning took place, under the superintendance of the Committee. After a fair and impartial burning for five hours, the Safe of Messrs. Evans & Watson was first opened, the Safe being on fire inside, and the contents partially consumed, while the contents in the Safe of Messrs. Farrels & Herring were in good condition, and no fire inside."

LOTTERIES.
THE well-known Maryland Consolidated Lotteries, of which R. FRANCE & CO. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything shall be done with them in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing.—Another fact which managers call attention to, is that persons have a right to attend and order for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take of an agent's store. [H. A. Lutz.] made double thickness, (different from those they sell) to "burn up" one of Herring's, (half as thick) has met with its true reward. Herring's Safe could not be burnt, proving conclusively that the only reliable safe now made is Herring's, of which over 15,000 have been tried by fire without a single loss. Philadelphia, May 8, 1857-1y.

It will represent the second constitutional principle which have ever been upheld by the national democracy, but it will not be so entirely political, that its columns will interest the politician exclusively, nor so subservient to party as to betray principle at the command of power or disguise its convictions at the suggestions of expediency. In addition to the discussion of important political questions, its columns will be devoted to the proceedings of Congress, the current transactions of the government, to general news, and matters of interest appertaining to literature, agriculture and commerce.

The undersigned was one of the original proprietors of the Washington Union, and his long newspaper experience before he engaged in this new enterprise, has induced him in promising the public a paper well worthy of their patronage. The States will not be the organ of any clique or faction, and with no partial purpose to serve, the paper will address itself to the honest judgment of the people, and for support will rely upon their approval. SUFFER NOT, WHEN A PERMANENT CURE IS GUARANTEED IN ALL STAGES OF SECRET DISEASES. Self Abuse, Nervous Debility, Stricture, Gonorrhoea, Mercurial Rheumatism, Scrofula, Pains in the Ankles and Bones, Diseases of the Throat, Nose and Eyes, Ulcers upon the Body, Female Irregularities, and all other improper discharges, no matter of how long standing, or obdurate the case, recover in a short time, and in a shorter time than a permanent cure could be effected by any other treatment, even after the skill of the most eminent physicians had failed, and the disease resisted all other means of cure. The remedies are free from odor, causing neither sickness nor inconvenience, and without mercury or balsam.—During twenty years' practice, I have restored to health over seventeen thousand patients, who were suffering under the worst forms of all the above mentioned diseases, and guaranteeing in proportion to the perfect and most speedy cure. Secret diseases are the greatest enemies to health and happiness, as they are the first cause of consumption, scrofula, &c., and should be a terror to all nations on the earth; for the disease, if not cured in time, and treated in a little undervalued, that a permanent cure is scarcely ever effected, as a majority of the cases fall into the hands of incompetent persons, who not only fail to cure the malady, but by their treatment, they render the disease a dangerous poison, a preparation of mercury, which with the remains of disease in the system, produces many of the above named affections, which finally terminate in consumption, and frequently a rapid end, as in the case of the late General Garrison, and the victim to disease marries, the disease is then conveyed from the patient to the children, causing them to come into the world with scrofula, affections of the skin, eyes, throat, &c., and again terminate in consumption, sent to any part of the world, and the victim to disease
