CONSUMPTION

STOR WORD AS CAIL

And THYOAT are positively corable by nhalation, which conveys the remedies to he castites in the lungs through the air paseges, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, beals the lungs, purface she blood, imparts revewed vitality to the nervous system, giving that fone and energy so indispensable for the restorative of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical teatment as any other formidable disease; ninety out of every hundred cases can be evend in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent, for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the lest stages, inhalation affords extraordinary relief to the suffering attending this fearful scourge, which somethly destroys ninety five thousand persons in the United States alone; and a correct calculation shows that out of the present population of the earth, eighty mithons are destined to fill the consumption. In all ages it has been the great enemy of life, for it spares neither age nor sax, but sweeps off alike the brave, the beaufiful, the graceful, and the gifted—By the help of that Sopreme Being, from whom cometh every good and perfect gift, I am embled to offer to the affleted a permanent and speedy core in Consumption. The first cause of tubercles is from impure blood, and the immediste effect, produced by their disposition in the lungs, is to prevent the free admission of air into the sir cells, which causes a weakened vitality through theretire system. Then surely it is more rational to expect greeier good from redificies entering the cavities of the lungs free and the breathing easy after inhaling remedies. True, inhalation of ammonia will rouse the system when fainting or apparently dead.—The odor of many of

in the blood. A convincing proof of the constitutional effects of initiation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the longs, should produce the most happy results? During eighteen years' practice, many thousands, suffering from diseases of the lungs and throat, have been under my care, and I have affected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a latal disease.—My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish readily the various forms of disease that simulate consumption, and apply the proper remedies rarely being mistaken even in a single case. This familiarity in connection with certain pathological and microscopic discoveries, enables me to relieve the langs from the effects of contracted chests; to enlarge the chest, purify the blood, impart the largs from the effects of contracted chests to enlarge the chest, purify the blood, impar-to it renewed vitality, giving energy and tone Box 53, Post Office, G. THE undersigned, having just received the latest Patis and New York Fashions, would again begleave to inform his numer ous friends and all the world about Blooms burg, that he is now better prepared than ever to accommodate any one with the neatest, easiest and best fitting suits of Clothes that have been turned out lately; and not only that, but he will also do them up in the best or ler, upon the lowest terms.

His shop is at the old stand, (too welknown to need further notire) where he may at all times be found, seated upon the bench of repentance, steadily drawing out the thread of affliction, hopeing it may in the end prove advantageous to him and his customers. He would also advise his friends to bear in mine that poor, afflicted tailors must live, or they can't be expected to work. Therefore, Wheat Rye, Corp, Oats, Potatoes, and with all now and then a little CASH will come mighty handy from those who are back-standing on e book.

TONICS WON'T DO.

THEY never did do more than give temporary relief and they never will. It is because they don't touch the cause of the disease. The cause of all ague and billious diseases is the atmospheric poison called Miasma or Malaria. Neutralize this poison by its

This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is roinous to the constitution and brings on DUMB AGUE, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician.

Br. Hunter's Medical Manual;

BEING AN ORIGINAL and popular Treatise on MAN and WOMAN: their Physiology, Functions and Sexual Disorders of every kind, with never failing Remedies for the speedy cure of all diseases of a private and delicate character, incident to the violation of the Laws of Nature and of Natures God.

PRICE TWENTY-FIVE CENTS.

The Author of the above volume is a graduate of one or the first medical schools in the United States, and having devoted a quarter of a century to the study and treatment of Syphilis and kindred disorders as a speciality, he has become possessed of most invalcable information in regard to the same, and is able to compass into vade mecum compass the very quintessence of medical science on this important subject; as the result of the experience of the most eminent physician in Europe and America's thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the City of Philadelphia alone.

The practice of Dr. Hunter has long boen, and still is literally unbounded, but at the earnest solicitation of numerous persons, he has been induced to extend the sphere of his professional usefulness to the community at large, through the medium of his "Med: 21 Manual Hand-Book for the Affliced."

It is a volume that should be in the hand of every family in the land, whether used as a preventive of secret vice, or as a guide for the alleviation of one of the most awful and destructive scourges ever visited upon mankind for the sins of sensuality and impurity of every kit d.

It is a volume that has received the unqualified recommendation of the first physicians in

structive scourges ever visited upon mankind for the sins of sensuality and impurity of every kt d.

It is a volume that has received the unqualified recommendation of the first physicians in the land, while many clergymen, fathers, mothers, philanthropsus and humanitarians, have most freely extended its circulation in all quarters where its powerful teachings would be likely to be instrumental in the moral purification and physical healing of multitudes of our people, smoog the young, volstile and indiscreet, otherwise the pride and flower of the nation.

The author argues particularly, most strongly against every species of self-defilement, and warns parents and guardians, in rearching terms, to guard the young of both sexes from the terrible consequences concomitant of their gionyrace of phylological laws and sexual multipurities and irregularities, whether exhibitery precedious development or arising from the viscious and corrupting examples of their schoolmates or otherwise. To those who have been already ensured to the "paths that take hold on helt," a clear and explicit way is shown by which they may secure a return of sound health and a regeneration of the roul from its terrible pollution.

which they may secure a return of sound health and a regeneration of the roul from its terrible pollution.

It is well known that thousands of victims are annually sacrificed at the shrin of Quackery—especially those suffering from Veneresl or Syphilitic diseases—Strictures, Seminal Weskness, Nervous Debility, and the numerous maladies which spring directly or less remotely from the indulgence of carnal passions and secretivolations of Nature.

In view of these facts, and when it is also considered that about 100,000 persons die annually in the United States of Conoumption—a large majority being the victims of the voluputous indiscretion of their progenitors, agreeably to the Scriptural enunciation, that the sins of the parents are visited upon the children, even to the third and fourth generation. The Author, imbued with sentiments of enlarged philhinthropy, will scarcely be censured for any effort to restrain the vices of the age, by the humble instrumentality of his Medical Manual.

PHILADELPHIA MEDICAL HOUSE—Established 20 years ago by Dr. KINKELIN, corner of Third and Union streets, between Spruce and Pine, Philadelphia, Pa.

INVALIDS

INVALIDS Are apprised that Dr. KINKELIN confines his practice to a particular branch of medi-cine, which engages his individual attention. He cautions the unfortunate against the a-buse of mercury; thousands are annually mercurialized out of life. Recent affections

are promptly extinguished.
TWENTY YEARS' EXPERIENCE TWENTY YEARS' EXPERIENCE In the treatment of a class of diseases hith erto neglected and imperfectly understood, has enabled Dr. KINKELIN, Author of a work on Sell Preservation, to prove hat ninetenths of the causes of nervous debility, local and constitutional weakness, mental and physical suffering, are traceable to certain habits, forming the most secret yet deadly and fatal springs of domestic misery and premature mortality.

TAKE PARTICULAR NOTICE.

There is an evil habit sometimes indulged in by boys, in solitude, and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating afflicious. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable feelings, and vague fears in the mind.

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak, he is dull, irresolute, and engages in his sport with less energy than usual.

If he emancia the himself before the practice has done its worst, and enter matrimony, his marriage is unfruitfol, and his senae tells him that this is caused by his early follies.—
These are considerations which should awaken the attention of those similarly situated.

MARRIAGE TAKE PARTICULAR NOTICE,

MARRIAGE

Requires the fulfillment of several conditions in order that it may be really the cause of mutual happiness. Could the veil which covers the origin of domestic wretchedness be raised, and its true source in every instance disclosed—in how many could it be traced to physical disqualifications and their attendant disappointments! Apply then while it is yet time, in order to have your unstrong and relaxed organization rebraced, revivified and strengthened.

He who places himself under Dr. Kinkelin's treatment may religiously confide in his honor as a genteman, and rely upon the assurance, that the secrets of Dr. K's patients will never be disclosed.

Young mant—let no false modesty deter you from making your case known to one who, from education and respectability, can befriend you.

Too many think they will conceal the secret in their own hearts, and cure themse lives Alas! how often is this a latal delusion, and

Alas! how often is this a latal delusion, and how many a promising young man, who might have been an ornament to society, has faded from the earth.

Strictures of the urethra are rapidly removed by the application of a new thetapeutical agent, used only by Dr. K. Weakness and Constitutional Debility promptly cured, and fall vigor restored,

"I am a man and deem nothing which relates to man foreign to my feelings."
