Secret dis-eases enthe greatest enemits to health and happiness, as they are the first cause of coa-sumption, scrotula, &c., and should be a ter-ror to all nations on the earth; for the dis-ease is becoming so common, and treatment so litle understood that a permanent cure is ease is becoming so common, and treatment so little understood that a permanent cure i scarcely ever effected, as a majority of the cases fall into the hands of incompetent percases tail into the hands of incompetent per-sons, who not only fail to core the malady, but ruin the constitution with corrosive sub-limate—a dangerous poison, a prepatation of mercury—which, with the remains of dis-case in the system, produces many of the above named affections, which finally termi-nate in consumption, and frequently a rapid one; but should it not cause death speedly, and the victim to disease marries, the disease is then conveyed from the patient to the chil-dren, casing them to come into the world with scrotula, affections of the skin, eyes, throat, &c., and again terminates in con-sumption, and consign his vicin to an unsumption, and consigns his victim to an un sumption, and consignt his victim to an un-timely grave, between the ages of six months and thirty-five years.
