THEN you can't be cured too soon. Don't delay until your eo.nplaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church yards, might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomsch is foul. Don't parade yourself around the world, covered with pimples, blotches, ulcers, sores, and all or any of the unclean diseases of the skin, because your system wants cleaning. Don't show yourself about, lean, haggard, all caved in, because your Stomach and Bowels need strengthening into bealthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healthy activity which you can feel as quick as they are taken. They are the one great medical wonder of the age, recognized by all who know their virtues, and many thousand know them. Take the Cherry Pectoral for a cough, and the Pills for all derangements requiring a purgative medicine.

THE recent trials at Reading have endorsed the current of public opinion, and confirmed the verdict of more than 200 accidental fires, proving conclusively that "Herring!a" is the only safe that will not burn.
Extract from the Committee's Report on the Trial of Iron Safes at Reading:
"On the 28th of February all the members of the Committee met to witness the Safes and books and papers, placed in them) and were perfectly satisfied that all was right.—The day following, the burning took place, under the superintendence of the Committee. After a fair and impartial burning for five hours, the Safe of Messrs. Evans & Watson was first opened, the Safe being on fire inside, and the contents in the Safe of Messrs. Farrels & Herring were in good condition, and no fire inside."

During twenty years' practice, I have restored to health over seventeen thousand patients, who were suffering under the worst

perfect and most speedy cure. Secret diseases arche greatest enemies to health and
happiness, as they are the first cause of consumption, scrofula, &co., and should be a tertor to all nations on the earth; for the disease is becoming so common, and treatment
so little understood, that a permanent cure is
scarcely ever effected, as a majority of the
cases fall into the hands of incompetent persons, who not only fail to cure the malady,
but roin the constitution with corrosive sublimate—a dangerous poison, a preparation
of mercury—which, with the remains of disease in the system, produces many of the
above named affections, which finally terminate in consumption, and frequently a rapid

and the victim to disease marries, the disease
is then conveyed from the patient to the children, causing them to come into the world

HOLLOWAT'S PILLS. The Exciting Cause of Sickness.

The Exciting Cause of Sickness. The blood is the life sustaining agent. It furnishies the components of fiesh, bone, muscle, nerve and integument. The stomach is its menufactory, the veins its distributors, and the intestines the channel through which the waste matter rejected in its productions is expelled. Upon the stomach, the circulation and the bowels, these Pills act simultaneously, relieving indigestion, purifying the fluids, and regulating the excretions.

THE NATIONAL COMPLIAINT.

THE NATIONAL COMPLAINT. Dyspepsia is the most common disease among all classes in this country. It assumes a thousand shapes, and is the primary source of innumerable dangerous maladies; but whatever its type or symptoms, however obstinate its resistance to ordinary preparations, it yields readily and rapidly to this searching and unerting remedy.

BILIOUS AFFECTIONS.

The quantity and quality of the bile are of vital importance to health. Upon the liver, the gland which secretes this fluid, these Pills operate specifically, infallibly rectifying its irregularities, and effectually coring Jagudice, Billous Remittants, and all the varieties of disease generated by an unnatural condition of the organ.

tion of the organ.

BOWEL COMPLAINTS.

Unless the bowels perform their functions properly, the whole body suffers.
