The above Safe was in use in our office, on the second floor of our build-ing, from which place it fell into the cellar, and romained there until the fire was out.— The vafe was then removed, and oppened in the presence of a least 1000 persons, who witnessed the good condition of the contents. Will you please have the Safe and locks re-paired, as we intend to put it in use again, having perfect conditione in its fire proof qualities. Yours, respectfully, *LACEY & PHILLIPS*. I presume that the remedy they needed to escape taking Quinine, contained the DRUG ITSELF! This remedy, (known as "Smith's Tonic,") would invariably BREAK an ague, but it dif net CURE it, and it would often return with renewed vigor. The one circumstance I deemed in your tavor, if I could institute a test comparison between it and your CURE. The following is the result: There persons took your "Cure," all of which were cases of "Quotidin Internit ent Fever," of many weeks standing. They had tried Quinine, and ther remedies, occa-sionally missing a chill, but it was, (as in all such cases, slowly wearing them out, and laying the foundation of other and severe maladies. I did succedd in effecting a radic cal cure of all three othese cases with your remedy, and they hav not had a chill snee. In all three othese cases the "Smith's Ton-ic" had been need, and would, subefore sta-ted, break the chill, but after a period or two had elapsed it would bettor. Think there will be no difficulty now in giving to your "Cure" the vaniage ground of any other remedy now in use here, &c. Ke.
