

**CONSUMPTION,**  
AND ALL DISEASES OF THE LUNGS  
AND THROAT are positively curable by  
inhalation, which conveys the remedies to  
the cavities in the lungs through the air passages,  
and coming in direct contact with the diseased  
material, neutralizes the tubercular matter,  
alays the cough, causes a free and easy ex-  
pectorator, heals the lungs, purifies the blood,  
imparts renewed vitality to the nervous system,  
giving that tone and energy so indispen-  
sable for the restoration of health. To be  
able to state confidently that Consumption is  
curable by inhalation, is to me a source of  
unalloyed pleasure. It is as much under the  
control of medical treatment as any other  
formidable disease; ninety out of every hun-  
dred cases can be cured in the first stages,  
and fifty per cent. in the second; but in the  
third stage it is impossible to save more than  
five per cent., for the lungs are cut up by  
the disease as to bid defiance to medical  
skill. Even, however, in the last stages, in-  
halation affords extraordinary relief to the  
suffering, attending this fearful scourge, which  
annually destroys ninety five thousand per-  
sons in the United States alone; and a correct  
calculation shows that out of the present popu-  
lation of the earth, eighty millions are des-  
tined to fill the consumptive's grave.  
Truly the quiver of death has no arrow so  
fatal as Consumption. In all ages it has been  
the great enemy of life, for it spares neither  
age nor sex, but sweeps off alike the brave,  
the beautiful, the graceful, and the gifted.—  
By the help of that Supreme Being, from  
whom cometh every good and perfect gift, I  
am enabled to offer to the afflicted a perma-  
nent and speedy cure in Consumption. The  
cause of tubercles is from impure  
blood, and the immediate effect, produced  
by their disposition in the lungs, is to prevent  
the free admission of air into the air cells,  
which causes a weakened vitality through-  
out the entire system. This may be remedied  
rationally to expect greater good from medi-  
cines entering the cavities of the lungs than  
those administered through the stomach;  
the patient will always find the lungs  
free and the breathing easy after inhaling  
remedies. True, inhalation is a local,  
and with more power and certainty than any  
remedy administered by the stomach. To prove  
the powerful and direct influence of this  
mode of administration, chloroform inhaled  
will entirely destroy sensibility in a few min-  
utes, paralyzing the entire nervous system, so  
that a limb may be amputated without the  
patient's feeling it, and with the ordinary burn-  
ing pain, by inhaling the ordinary burning  
gas will destroy life in a few hours.  
The inhalation of ammonia will rouse the  
system when fainting or apparently dead.—  
The odor of many of the medicines is per-  
ceptible in the skin a few minutes after being  
inhaled, and may be immediately detected  
in the blood. A convincing proof of the  
constititional effects of inhalation, is the fact  
that sickness is always produced by breath-  
ing foul air. Is not this positive evidence  
that proper remedies, carefully prepared and  
judiciously administered through the lungs,  
shoed produce the most happy results? It  
is when these facts are practically applied, many thou-  
sands, suffering from diseases of the lungs  
and throat, have been under my care, and I  
have effected many remarkable cures, even  
after the sufferers had been pronounced in  
the last stages, which fully satisfies me that  
consumption is no longer a fatal disease. My  
treatment is original, and I have founded  
on long experience and a thorough  
investigation. My perfect acquaintance with  
the nature of tubercles, &c., enables me to  
distinguish readily the various forms of dis-  
ease that simulate consumption, and apply  
the proper remedies rarely being mistaken  
in connection with certain pathological and mi-  
croscopic diagnoses, enables me to relieve  
the lungs from the effects of contracted chests;  
to enlarge the chest, purify the blood, impart  
to it renewed vitality, giving energy and tone  
to the entire system.

**A GALLERY**  
**TO THE FASHIONABLE AND**  
**OPULENT.**  
THE undersigned, having just received the  
latest Paris and New York Fashions,  
would again beg leave to inform his numer-  
ous friends and all the world about Blooms-  
burg, that he is now better prepared than ever  
to accommodate any one with the neatest,  
easiest and best fitting suits of Clothes that  
have been made up lately; and not only that,  
but he will also take them up in the best  
order, upon the lowest terms.  
His shop is at the old stand, (too well  
known to need further notice) where he may  
at all times be found, seated upon the bench  
of repentance, steadily drawing out the thread  
of affliction, hoping it may in the end prove  
advantageous to him and his customers. He  
would also advise his friends to bear in mind  
that poor, afflicted tailor must live, or they  
can't be expected to work. Therefore, Wheat  
Rye, Corn, Oats, Potatoes, and with all other  
and then a little CASH will come mightily  
handy from those who are back-standing on  
the books.  
Remember, gentlemen, that in all cases  
"the laborer is worthy of his hire."

residences of the town, or the American  
House and Forks Hotel; and he will also  
furnish conveyances to all travellers who  
may wish to go to any part of the country.  
The omnibus will leave Bloomsburg twice  
daily at 12 o'clock M., and at 2 o'clock  
P. M. Fare 12 1/2 cts each way.  
He has also a large livery stable connected  
with the omnibus line, from which he can  
accommodate the public, with conveyances  
for travelling, pleasure excursions, or busi-  
ness. Stand in the rear of Hoffman & Eise's  
establishment, near the centre of the town.

**TONICS WON'T DO.**  
THEY never did more than give tempo-  
rary relief and they never will. It is be-  
cause they don't touch the cause of the dis-  
ease. The cause of allague and bilious dis-  
eases is the atmospheric poison called Mias-  
ma or Malaria. Neutralize this poison by  
its  
**NATURAL ANTIDOTE.**  
and all diseases caused by it disappears at  
once. Rhodes' Fever and Ague Cure is this  
Antidote to Malaria, and moreover it is a  
perfectly harmless medicine. The certificate  
of the celebrated chemist, J. R. Chilton, of  
New York, to this effect, is attached to every  
bottle; therefore if it does no good it can do  
no harm.  
This is more than can be said of Quinine,  
Arsenic, or any tonic in existence, as their  
use is ruinous to the constitution and brings  
on DUMB AGUE, which never allows a per-  
son to feel perfectly well for a single moment.  
In illustration of these truths I annex some  
extracts from a letter just received from a  
Physician:  
Georgetown, Ohio, March 17, '56.  
Jas. A. RHODES, Esq.—Dear Sir: Yours of  
23d inst. is at hand. The Cure arrived late  
last year and the difficulty in getting any one  
to try it was greatly increased from the fact  
that a remedy had been introduced which  
was growing in favor with the public, as be-  
ing better than using Quinine,—not knowing  
I presume that the remedy they needed to  
escape taking Quinine, contained the DRUG  
ITSELF!  
This remedy, (known as "Smith's Tonic")  
would invariably BREAK AN AGUE, but it did  
NOT CURE it, and it would often return with  
renewed vigor. The one circumstance I  
denied in your favor, it could institute a  
test comparison between it and your CURE.  
The following is the result:  
Three persons took your "Cure," all of  
which were cases of "Quotidian Intermit-  
tent Fever," of many weeks standing. They  
had tried Quinine, and other remedies, occa-  
sionally missing a chill, but it was, (as in all  
such cases,) slowly wearing them out, and  
laying the foundation of other ac. severer  
maladies. I did succeed in effecting a radical  
cure of all three of these cases with your  
remedy, and they have not had a chill since.  
In all three of these cases the "Smith's Tonic"  
had been used, and would, as before stat-  
ed, break the chill, but after a period or two  
had elapsed it would return.  
I think there will be no difficulty now in  
giving to your "Cure" the vantage ground of  
any other remedy now in use here, &c. &c.  
WILLIAM BUCKNER, M. D.  
RHODES' FEVER AND AGUE CURE, or  
Antidote to Malaria, the only harmless reme-  
dy in existence, is equally certain as a PRE-  
VENTIVE, as a "CURE." Take it when you  
feel the chill coming on, and you will  
never have a single one.

PHILADELPHIA MEDICAL HOUSE—  
Established 20 years ago by Dr. KINKELIN,  
corner of Third and Union streets, between  
Spruce and Pine, Philadelphia, Pa.  
**INVALIDS**  
Are apprised that Dr. KINKELIN confines  
his practice to a particular branch of medi-  
cine, which engages his individual attention.  
He cautions the unfortunate against the a-  
buse of mercury; thousands are annually  
mercurialized out of life. Recent affections  
are promptly extinguished.  
**TWENTY YEARS' EXPERIENCE**  
In the treatment of a class of diseases hith-  
erto neglected and imperfectly understood,  
has enabled Dr. KINKELIN, Author of a  
work on Self Preservation, to prove that nine-  
tenths of the causes of nervous debility, local  
and constitutional weakness, mental and  
physical suffering, are traceable to certain  
balits, forming the most secret yet deadly  
and fatal springs of domestic misery and  
premature mortality.  
**TAKE PARTICULAR NOTICE.**  
There is an evil habit sometimes indulged  
in by boys, in solitude, and which, if re-  
formed in due time, not only begets serious  
obstacles to matrimonial happiness, but gives  
rise to a series of protracted, insidious, and  
devastating affections. Few of those who  
give way to this pernicious practice are a-  
ware of the consequences, until they find  
themselves in a state of nervous debility,  
and unaccountable feelings, and vague fears  
in the mind.  
The unfortunate thus affected becomes fee-  
ble, is unable to labor with accustomed vig-  
or, or to apply his mind to study; his step is  
tardy and weak, he is dull, irresolute, and  
engages in his sport with less energy than  
usual.  
He emancipate himself before the practice  
has done its worst, and enter matrimony,  
his marriage is unfruitful, and his sense tells  
him that this is caused by his early follies.—  
These are considerations which should awaken  
the attention of those similarly situated.  
**MARRIAGE**  
Requires the fulfillment of several conditions  
in order that it may be really the cause of  
mutual happiness. Could the wealth which  
is the origin of domestic unhappiness be  
ruined, and its true source in every in-  
stance disclosed—in how many could it be  
traced to physical disqualifications and their

PHILADELPHIA MEDICAL HOUSE—  
Established 20 years ago by Dr. KINKELIN,  
corner of Third and Union streets, between  
Spruce and Pine, Philadelphia, Pa.  
**INVALIDS**  
Are apprised that Dr. KINKELIN confines  
his practice to a particular branch of medi-  
cine, which engages his individual attention.  
He cautions the unfortunate against the a-  
buse of mercury; thousands are annually  
mercurialized out of life. Recent affections  
are promptly extinguished.  
**TWENTY YEARS' EXPERIENCE**  
In the treatment of a class of diseases hith-  
erto neglected and imperfectly understood,  
has enabled Dr. KINKELIN, Author of a  
work on Self Preservation, to prove that nine-  
tenths of the causes of nervous debility, local  
and constitutional weakness, mental and  
physical suffering, are traceable to certain  
balits, forming the most secret yet deadly  
and fatal springs of domestic misery and  
premature mortality.  
**TAKE PARTICULAR NOTICE.**  
There is an evil habit sometimes indulged  
in by boys, in solitude, and which, if re-  
formed in due time, not only begets serious  
obstacles to matrimonial happiness, but gives  
rise to a series of protracted, insidious, and  
devastating affections. Few of those who  
give way to this pernicious practice are a-  
ware of the consequences, until they find  
themselves in a state of nervous debility,  
and unaccountable feelings, and vague fears  
in the mind.  
The unfortunate thus affected becomes fee-  
ble, is unable to labor with accustomed vig-  
or, or to apply his mind to study; his step is  
tardy and weak, he is dull, irresolute, and  
engages in his sport with less energy than  
usual.  
He emancipate himself before the practice  
has done its worst, and enter matrimony,  
his marriage is unfruitful, and his sense tells  
him that this is caused by his early follies.—  
These are considerations which should awaken  
the attention of those similarly situated.  
**MARRIAGE**  
Requires the fulfillment of several conditions  
in order that it may be really the cause of  
mutual happiness. Could the wealth which  
is the origin of domestic unhappiness be  
ruined, and its true source in every in-  
stance disclosed—in how many could it be  
traced to physical disqualifications and their  
attendant disappointments! Apply then while  
it is yet time, in order to have your unstrung  
and relaxed organization retrace, revived and  
strengthened.
