And LA DISEASES OF THE LUNGS
A and THTOAT are positively cutable by inhalation, which conveys the remedies to the castiles in the lungs through the air passenges, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and eavy expectoretion, heals the lungs, putifies the blood, imparts renewed vitality to the nervous eystem, giving that tone and energy so indispensable for the restorative of health. To be able to state confiderally that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable diseases, intery out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent., for the lungs are so cut up by the disease as to bid defiaure to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the enfering attending this fearful securge, which annually destroys ninety five thousand persons in the United States alone; and a correct calculation shows that out of the present population of the earth, eighty millions are destined to fill the consumptive's grave.

Truly the quiver of death has no arrow so fastal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted.—By the help of that Supreme Being, from whom cometh every good and perfect gift, I am enabled to offer to the affleted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect, produced by their disposition in the lungs, is to prevent the free admission of air into the sir cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medi; cines entering the cavines of the lungs than from those administered through th

connection with certain pathological and mi-croscopic discoveries, enables me to relieve the lungs from the effects of contracted chests; to enlarge the chest, purify the blood, impar-to it renewed vitality, giving energy and tone to the entire system.

FLOUR AND FEED Depot at the Areade,

TO THE FASHONABLE AND OTPHINES.

THE undersigned, having just received the latest Paris and New York Fashions, would again beg leave to inform his numer ous friends and all the world about Blooms burg, that he is now better prepared than ever to accommodate any one with the neatest, easiest and best fitting suits of Clothes that have been turned out lately; and not only that, but he will also do them up in the best order, upon the lowest terms.

His shop is at the old stand, (too welknown to need further notice) where he may at all times be found, seated upon the beach of repentance, steadily drawing out the threae of affliction, hopeing it may in the end prove advantageous to him and his customers. He would also advise his friends to bear in mine that poor, afflicted tailors must live, or they can't be expected to work. Therefore, Wheat Rive Corn, Oats, Potatoes, and with all now and ther a little CASH will come mighty handy from those who are back-standing on the books.

Remember, gentlemen, that in all cases "the laborer is worthy of his hire."

TONICS WON'T DO.

THEY never did do more than give tempor rary relief and they never will. It is be cause they don't touch the cause of the dis-ease. The cause of all ague and billions dis-eases is the atmospheric poison called Miss-ma or Malaria. Neutralize this poison by

NATURAL ANTIDOTE.

and all diseases caused by it disappears at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmiess medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached to every bottle; therefore if it does no good it can do no harm.

This is more than can be said of Quinine Arsenic, or any tonic in existence, as their use is rulnous to the constitution and brings on DUMB AGUE, which never allows a peron to feel perfectly well for a single momen n illustration of these truths I annex som extracts from a letter just received

extracts from a letter just received from a Physician:

Georgetown, Ohio, March 17, 756.

Jas. A. Rhodes, Esq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presume that the remedy they needed to escape taking Quinine, contained the DRUG ITSELF!

This remedy, (known as "Smith's Tonic.")

presume that he renealy finey needed to escape taking Quinine, contained the DRUG ITSELF!

This remedy, (known as "Smith's Tonic,") would invariably BRŁAK an ague, but it did not CURE it, and it would often return with renewed vigor. The one circumstance I deemed in your favor, if I could institute a test comparison between it and your CURE. The tollowing is the result:

Three persons took your "Cure," all of which were cases of "Quotidian Innermittent Fever," of many weeks standing. They had tried Quinine, and other remedies, occasionally missing a chill, but it was, (as in all such cases,) slowly wearing them out, and laying the foundation of other and severer maladies. I did succeed in effecting a radical cute of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic," had been used, and would, as before stated, break the chill, but after a period or two had elspeed it would return.

I think there will be no difficulty now in giving to your "Cure" the vantage ground of any other remedy now in ness here, &c. &c.

WILLIAM BUCKNER, M. D.

RHODES FEVER and AGUE CURE, or Antidote to Mularia, the only harmless remedy in existence, is equally certain as a PRE-VENTIVE, as a "CURE." Take it when you feel the chill coming on, and you will never have a single one

TAKE PARTICULAR NOTICE,
There is an evil habit sometimes indulged in by boys, in solitude, and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating afflictions. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable feelings, and vague fears in the mind.

The unfortunate thus affected becomes feebla, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak, he is dull, irresolute, and engages in his sport with less energy than usual.

AYER'S PILLS

ARE YOU SICK?

THEN you can't be enred too soon. Don't delay until your co.npiaint is incurable, and then mourn when it is too late. Four fitths of all the diseases which people the church yards, might be cured by Ayer's Catharite Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is leaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomach is foul. Don't parade yourself around the world, covered with pimples, pour stomach is foul. Don't show your-slottenes, thers, sores, and all or sny of the unclean diseases of the skin, because your stomach and Bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healthy activity which you can feel as quick as they are taken. They are the one great medical wonder of the age, recognized by all who know their virtues, and many thousand know them. Take the Cherry Peotoral for a cough, and the Pills for all derangements requiring a purgative medicine.

Prepared by JAMES C. AYER, Practical and Analytical Chemist, Lowell, Mass.—and sold by E. P. Luz and all Droggists in Bloomsburg, and by Dealers in Medicine everywhere.

**HERRING'S** ES AD IN IB THE ACKNOWLEDGED CHAMPION!!

CHAMPION!

THE recent trials at Reading have endorsed the current of public opinion, and confirmed the verdict of more than 200 accidental fires, proving conclusively that "Herring's" is the only safe that will not burn.

Extract from the Committee's Report on the Trial of Iron Sales at Reading:
"On the 28th of February all the members of the Committee met to witness the Sales and books and papers, (placed in them) and were perfectly satisfied that all was right.—The day following, the burning took place, under the superintendence of the Committee.

After a fair and impartial burning for five hours, the Sale of Messrs. Evans & Watson was first opened, the Sale being on fire inside, and the contents partially consumed, while the contents in the Sale of Messrs. Fairels & Herring were in good condition, and no fire inside."

The attempt made by other parties to bolster up the reputation of a Safe which hes failed signally in accidental fires in Pailadelphia, (Ranstead Place,) by taking one out of an agent's store, [H. A. Lantz.] made double thickness (different from those they sell) to "burn up? one of Herring's, (half as thick) has met with its true reward. Herring's Safe could not be burnt, proving conclusively that the only reliable Safe now made is Herring's, of which over 15,000 are now in acuel use, and more than 200 have been tried by fire without a single loss.
