CONSUMPTION.

AND ALL DISEASES OF THE LUNGS And THTOAT are positively curable by inhalation, which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restorative of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent, in the second; but in the third stage it is impossible to save more than five per cent, for the laugs are so cut up by the disease as to bid defiance to medical skall. Even, however, in the last stages, inhalation affords extraordinary relief to the dation affords extraordinary relief to the suffering attending this rearful scourge, which annually destroys ninety five thousand persons in the United States alone; and a correct calculation shows that out of the present population of the earth, eighty millions are destined to fill the consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither early are a put sweaps off shire the bases.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alke the brave, the bearbild, the graceful, and the gried.—By the help of that Supreme Being, from whom cometh every good and perfect gift, and membled to offer to the affleted a permanent and speedy core in Consumption. The first cause of tubercles is from impure blood, and the immediate effect, produced by their disposition in the lungs, its prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavines of the lungs than from those administered through the stomach the patient will always find the lungs free and the breathing easy after inhaling remedies. True, inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead.—The oldred of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the langs, should produce the most kappy results? During eighteen years' practice, many thousands, seifering from diseases of the lungs and throat, have affected many remarkable curse, even after the suffected many remarkable curse

TAKE PARTICULAR NOTICE,
There is an evil habit sometimes indulged in by boys, in solitude, and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating afflictions. Few of those who give way to this permicious practice are aware of the consequences, until they find the nervons system shattered, feel strange and unaccountable feelings, and vague fears in the mind.

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak, he is dull, irresolute, and engages in his sport with less energy than usual.

If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this is caused by his early follies.—

AYER'S PILLS ARE YOU SICK?

THEN you can't be cared too soon. Don't delay until your con plaint is incurable, and then mourn when it is too late. Four fifths of all the diseases which people the church vards, might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the headache, heartburn, and their kindred disorders, because your stomsch is foul. Don't perade yourself around the world, covered with pimples, blorches, ulcers, sores, and all or any of the unclean diseases of the skin, because your system wants cleaning. Don't show yourself about, lean, haggard, all caved in, because your Stomach and Bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purity the body and blood, and restore their functions into healthy activity which you can feel as quick as they are taken. They are the one great medical wonder of the age, recognized by all who know them. Take the Cherry Pectoral for a cough, and the Pills for all derangemonts requiring a purgative medicine.

THE recent trials at Reading have endorsed the current of public oginion, and contirmed the verdict of more than 200 accidental fires, proving conclusively that "Herring's" is the only safe that will not burn.

Extract from the Committee's Report on the Trial of Iron Sales at Reading:

"On the 26th of February all the members of the Committee met to witness the Sales and books and papers, (placed in them) and were perfectly satisfied that all was right.—The day following, the burning took place, under the superntendence of the Committee. After a fair and impartial burning for five hours, the Safe of Messrs. Evans & Watson was first opened, the Safe being on fire inside, and the contents in the Sale of Messrs. Farrels & Herring were in good condition, and no fire inside."

The attempt made by other parties to bolster up the reputation of a Safe which has tailed signally in accidental figes in Philadelphia, (Ranstead Phaee,) by taking one out of an agent's store, [H. A. Lantz.] made double thickness (different from those they sell) to 'burn up' one of Herring's, (half as thick) has met with its true reward. Herring's Safe could not be burnt, proving conclusively that the only reliable Safe now made is Herring's, of which over 15,000 are now in actuel use, and more than 200 have been tried by fire without a single loss.

LOTTERIES.

THE well-known Maryland Consolidated Loueries, of which R. FRANCE & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interists of parties who reside at a distance are as well protected as if they themselves were present at the drawing.—Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hend. The prices of tickets vary from \$1 to \$20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each licket (after the Hathe money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan.) and Ternary combination. Prizes vary in amount from \$20 to \$100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.
