# AMONG THE HILLS.

It is a beneficent fate that even in the sor It is a beneficient rate that even in the sort of treadmill life of an editor calls us out now and then, emong the hardy yeemaory and pure air of the hills. Doubly grateful to our wearied brain and body is such a trip when in town the mercury reaches close to the 100 degrees, and the brick walls and pave-100 degrees, and the brick walls and pave-iments seem a buge over. And not only is the air more genial out here, redolent with the odors of the new-mown hay, but there is a like refreshing spirit of kindness and hospitality in the hearts of the people. The farmer holds closer communion with nature and nature's God than the nar-

row mind pent up in the narrow walls of the town. He may not be able to read the city daily in the morning before the dew geme have ceased to sparkle on his meadow; but the heatty inendable of his but the heatty friendship of his neighbors and the smiles of his honest family swaken and exercise in him a far better nature than the details of murders and conspiracies move in his less modest town cousin. The rise and fall of stocks do not distract nor drive to suicide the hostandman, but his heart and brawny frame seem to widen out as if in sympathy with the expanse of his broad acres.

Out here among these hillsides and valleys of Orange we forget the selfish jealousy loys of Orange we lorget the sening mealousy of small men seeming great—of candidates for Congress each envious of the other—of politicians each one afraid test some other may grow greater than he, and therefore poisoning minds against such rivals as are in his way, like in the days of the Borgias the vainly and wickedly ambitious were

the vanity and wickedly amounted were wont to poison food. Aye, human näure is ever the same; and its frailties oply take new forms and new names with succeeding ages. The politics of Machisveli come round again with the

same unerring certainty as the planets of the physical world. But the lams which spring physical world. But the lams which spring, from the diseased mind of city fanaties find no ladgment in the clear healthy minds of our yeomarry. No wonder that in the Wil-mot district there was fately an application for incorposating a borough one mile and three fourth square, where less than 100 per-sons lived, and where two of the proposed sons lived, and where two or the proposed borough lines ran through an unbroken wil-demess. No wonder that Winnot incorpo-rated the borough, and the Supreme Court reversed his decision. There were no doubt reversed his decision. There were no doubt many great men there as fit to rule a borough as we have now in our district fit to go to Congress; that is—in their own estimation. No wonder these people of the Isms hanker for the flesh-outs and comptions of the towns. They have become "too smart," and ought to sweat-out their sputtetism in such ram-bles as enough the same of the tam-

to sweat out their spirituatism in such tam-bles as ours among the sweet realities of the Orange hillsides and valleys. Your political Catalines only fatten in the great sores of the city, and their degenerate imitators in some town. We mean the reck-less men who have neither character, merit her mense and who have her her character. less men who have neither character, merit nor means, and who yet by brazen impu-dence play upon and cheat the good nature of the public until repeated rebuffs and dis-appointments make them despersie adven-turers for any enterprize. When a man has no public spirit, and no interest at stake in the society around him, yon have no bond for his good behavior, and you do him a great unkindness by leading him into empedBit Him Again.

The Wilkeburge Record sety justly immo-tions Mr. Albert G. Richardson, a modest New York Advertising Agent, who has recently undestored to get hold of newspaper columns for quark advertisements at \$2.00 per equare, while other advertisers pay at from \$5 to \$10 a year per equate. We received one of his circulars some time ago, another recently, both of which we filed away—in the stove. If publishers are silly enough to be caught by such impéditions there is not much use for them to hold éditor's conventions allec-wards for their protection.

A great part of Judge Kelley's speech at Lewisburg on the Fourth of July was an illnatured scolding of the new cent coin lately issued by the mint. It don't look well to im, but he ought to quiet his nerves by the him, but he ought to quiet his nerves by the reflection that de gustibus non disputandum est. He is old enough to act like a cent-sible man and not like the spunky boy who consoled himself that if he could not flog his more vigorout, playfellow he could at least make mouths at his sister. Judge Kelley could not flog Mr. Buchanan last fall, so he puts a spark to his penny craker on the Fourth of July, and fizzles out by making mouths at the new cent, because it came out under Mr. the new cent, because it came out under Mr. Huchanan's Democratic administration. True he ought to have his plaything, but this is rather small business for an Ex-Judge. Be-aides, his fizzle was only a few grains of powder which Theodore Parker a month sgo exploded in one sentence, without thinking it very smart. Poor Kellay must feel very sore since the last election to come from Philad elphia to Lewisburg to spit his gall. the new cent, because it came out under Mr.

ROBERT J. WALKER'S RICHES.—The New York Mirror, whose editor has known Gov. The following notice of the business of Frick, Shifer & Co., boat builders of Lewis-burg, we take from the *Home Gazetle*: "The boats built by them have all been built for the Pennsylvania Coal Company,

built for the Pennsylvania Coal Company, and the Delaware and Hudson Canal Compa-ny. They are generally 90 feet in length, 14 feet 2 inches beam, and 6<sup>±</sup> feet hold.— Weight, about 40 tons, and will carry 120 tons. Their average value we judge to be about 51,400. From 75 to 140 hands are constantly employed by them, and the wages paid them are from 51 12 to 51 50 per day. They occupy about 400 feet river front, and their yard and buildings cover shout 5 acres of ground. From 50 to 100 rais of equare timber can purchased by them conference timber are purchased by them each year, and besides these, from 4 to 6 teams are constantly employed during the winter in haul-ing timber to their mill, from timber lands

which they purchase as convenient to the mill as they can be procured. Buring the summer these teams are employed on the canal; they keep boats running to carry lumber, coal, flour, feed, &c. One hundred boats at \$1,400 each, amou

to \$140,000, and their sales of coal, lumber, &c., would make their business sum up something over one hundred and filly thous-and dollars a year. One hundred and forty hands at an average of \$1 25 per day, would be \$175 a day, or \$54,775 a year, paid ont but there is machinic and log and ont by them to mechanics and laborers in our town; and this they have done. We are just giving an estimate based on the largest amount of business done by them in any one year, as shown by their books, and furnished to us by Mr. Graham."

STRANCE AND MELANCHOLY DEATH.-On last Sunday week, the daughter of Squire Scudder, of Liberty township, while reading a piece of poetry entitled "Do they miss mu at home," was so much affected that she fainted. Her mother immediately sprang to her assistance, and logether with Mr. Scud-der, her father, did all in their power to re-vive her. It was fifteen minutes before she became fully sensible. Her mother had lost all hopes of her recovery again to life, and an notes of her recovery again to he, and ran to the door, claiming she was very un-well, at the same time throwing up a quan-tity of froth and blood. Seudder assisted his wife to bed, and in less than one hour she was a corpse. She was in perfect health previous to this. Her death, no doubt was from the rupture of a blood vessel, caused by the sudden desth, as she thought of her daughter.—Hamilton (Ohio) Td., 25th.

streets, were draped in morning for three miles. Owing the large number of arrivals of visitors from other wise, the luncest cere-monies were not commenced till o'clock. The ceremonies commenced at the Capi-tol, amid the tolling of beels and firing of minute gops. The venerable Dr. Nott open-ed the exercises with an elegaent prayer; Rev. Dr. Sprease tear polices of the arrip-ture, and Rev. Dr. Hagae delivered a beau-tiful discourse. The exercises closed with prayer and a benediction from the Rev. Dr. Welch. Gen. Wool was the Grand Marshal of the day. Kz-Presidents Van Baren, Pierce, Gov. retired from the Senate ! The same party that now attacks Geo. Packet is the party that was loudest in advancing prohibitory and re-strictive laws, then denonneed in unmeasur-ed terms Geo. Packer and the whole Democratic party because they would not go into its restrictive measures. The truth is, that Gen, Packer during his

entire senatorial career, did nothing more than to vote for leaving the whole question prohibition to the decision of the

of prohibition to the usersion of the Legi eign people. His acts are part of the Legi lative history of the State, and an examination day. Kx-Presidents Van Baren, Pierce, Gov. King and Ex-Governors Hunt, Fish, Sawerd, Beuck, Hon. N. P. Banks, end other distin-guished persons were present. The Elections of FARCE-A SIGNIFICANT FACT,-Three of the Republican candidates in Paris have been elected to the Legislative Assembly. This shows astrength in the Re-publican party which once avinated may have-alier be the cause of some treable to the present autocrit; in spite of his suppression of the freedom of the ballot box and of the press. It shows some have so to come for-ward in opposition, fo the government when every votes would be americal may, and the fact proves that the Republicans have more CAN'T SWALLOW NEGROES WHOLE.-The Wilmington Herald, a staunch Republican paper in Illingis, which has swallowed all the paper in Illinois, which has swallowed all the isms of the party without a bone sticking in its throat, has not the ensconda-like property of gulping down "negro equality," though of gulping down "negro covered with the salive of

covered with the salive of "brudderly" feel-ing and mock philanthropy, previous to de-gluttion. The editor says: "Whenever negro salfrage becomes and of the planks of the Republican platform, we shall feel free to seek some other political or-ganization, and we thick we should find most of car Republican brothers is the same way."

The railroad accidents in the United States during the first six months of the year caused the death of 49 percents, and 99 were wounded. By the steamboat accidents, 61 were killed and twenty wounded.

"The Troy (N. Y.) ladies have int new feature at their fairs, which makes them draw like steam engines. All the most bewitching girls wear placards labelled witching girls wear "kieses one shilling each," and in son "kieses one enliting each," and in some cases where desires possess extraordinary beauty, as high as twenty-flux conts is ob-tained. Gentlemen who are fond of gather-ing this kind of fruit, "melting from trees," go in for it according to the weight of their purses, and one of the newspapers states that one rosy lipped bright eyed gall realized \$52 in one avening. THE CROPS .-- The crops of wheat the THE CROPS.—The crops of wheat inrough-out Berks county is considered the best that has been mised for many years. The wheat stands vary eren on the ground, the heads are large, and the grain bids fair to be of superior quality. The harves will be about ten days later than usual. Rye and osts also promise a good crop; but the corn, generally well set, and healthy looking, owing to the late planting, and too much wet weather, in some localities is small.

The Fasionists are like Wit

By The Fesicinias are like Winchell's dog that tried to jump across a well'in two jumps, first over Abolitioniam and then Hin-dooism. There are a great many people just like that dog-folks that think they can jump across a well in two jamps. They that inductake the experiment usually "bring up" down in the water. every voice would be a marked man, and the lact proves that the Republicans have more confidence in themselves and in their objects than previous events would seem to justify. The Emperor is, however, shrewd and un-scrupulous, and, if occasion calls for it, he will not hasitate to use his power to silence op-rophica.

ESE Eggs, it is said, can be better preser-red in corn meel than in any other prepara-tion yet known. Lay them with the small end down, and if undisturbed they will be as good at the end of a year as when packed. Another very good mothed is to grease them well. In this way they may be kept through-
