

BY AUTHORITY.
RESOLUTION
Proposing Amendments to the Constitution of the Commonwealth.
Resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Session, that the following amendments be proposed to the constitution of the commonwealth, in accordance with the provisions of the tenth article hereof.

ARTICLE XI.
OF PUBLIC DEBTS.
Sec. 1. The state may contract debts, to supply cash deficits or failures in revenue, or to meet expenses not otherwise provided for, but the aggregate amount of such debts direct and contingent, whether contracted by virtue of one or more acts of the general assembly, or at different periods of time, shall never exceed seven hundred and fifty thousand dollars, and the money arising from the creation of such debts, shall be applied to the purpose for which it was obtained, or to repay the debts so contracted, and to no other purpose whatever.

So the question was determined in the affirmative.
On the question,
Will the House agree to the fourth amendment?
The yeas and nays were taken agreeably to the provisions of the Constitution, and were as follows, viz:
Yeas—Messrs. Anderson, Arthur, Backhouse, Backus, Ball, Beck, Benson, Bishop, Bower, Brown, Calhoun, Campbell, Cary, Chase, Cleaver, Crawford, Dickey, Est, Eyer, Fennell, Foster, Gibbons, Glida, Hamel, Harper, Heins, Hiestand, Hill, Hillegas, Hoffman, Housholder, Hoffman, Berks co., Housekeeper, Imbrie, Innes, Jacobs, Jenkins, Johnson, Kaufman, Kerr, Lebo, Longaker, Lovett, Meneer, Mangle, McCalmont, M'Clain, Mumma, Muselman, Nicholas, Nicholson, Nomenclator, Pearson, Peters, Petrik, Pownall, Purcell, Ramsey, Philadelphia; Ramsey, York co.; Reamer, Reed, Roberts, Rupp, Shaw, Sloan, Smith, Cambria co.; Smith, Centre co.; Stevenson, Tolan, Vanvorhis, Vickers, Vogehly, Wagonseller, Warner, Westrode, Whitrow, Whittier, Withers, Zimmerman and Getz, Speakers—83.

So the question was determined in the affirmative.
On the question,
Will the House agree to the second amendment?

CONSUMPTION,
AND ALL DISEASES OF THE LUNGS
AND THROAT are positively curable by inhalation, which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, always the cough, causes a free and easy expectoration, breaks the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unbounded pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent. for the lungs are so cut up by the disease as to be of no service to the body. Even, however, in the third stage, inhalation affords extraordinary relief to the suffering attendant; this fearful scourge, which annually destroys ninety five thousand persons in the United States alone; and a correct calculation shows that nearly one million of the earth, eighty million are destined to fill the consumptive's grave.
Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted; so by the help of that Supreme Being, from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of the disease is a cold, which inflames the membrane of the lungs, and the immediate effect produced by their disposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect the cure of Consumption, when entering the cavities of the lungs than when administered through the stomach; the patient will always find the lungs free and the breathing easy after inhaling remedies. True, inhalation is a local remedy, nevertheless, it is constitutional, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.
The inhalation of ammonia will rouse the system when fainting or apparently dead.—The color of many of the medicines, which are capable in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. It is this positive evidence, that proper remedies, carefully prepared and judiciously administered through the lungs, should produce the most happy results; I thought eighteen years practice, many thousands suffering from the disease of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced at the last stages, which fully satisfies me that consumption is no longer a fatal disease.—My treatment consists of a series of inhalations, so founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish readily the various forms of disease that simulate consumption, and apply the proper remedy rarely being mistaken even in a single case. This familiarity in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chest; to enlarge the contracted vessels, to impart to it renewed vitality, giving energy and tone to the entire system.

REMEMBER,
He who places himself under Dr. Kinkelin's treatment may religiously confide in his honor as a gentleman, and rely upon the assurance, that the secrets of Dr. K's patients will never be disclosed.
Young man—let no false modesty deter you from making your case known to one who has such consideration and respectability, can benefit you.
Too many think they will conceal the secret in their own hearts, and cure themselves. Alas! how often is this a fatal delusion, and how many a promising young man, who might have been an ornament to society, has faded from the earth.
Structures of the urethra are rapidly removed by the application of a new therapeutic agent, used only by Dr. K. Weakness and Constitutional Debility promptly cured and full vigor restored.
"I am a man and deem nothing which relates to man foreign to my feelings."

TONICS WON'T DO.
THEY never did more than give temporary relief and they never will. It is because they don't touch the cause of the disease. The cause of allague and bilious diseases is the atmospheric poison called Malaria or Malarial. Neutralize this poison by
NATURAL ANTIDOTE.
and all diseases caused by it disappear at once. Rhodes' Fever and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect, is attached to every bottle, therefore if it does no good it can do no harm.
This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on DUMB AGUE, which never allows a person to feel perfectly well for single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:
Georgetown, Ohio, March 17, '56.
Jas. A. Rhodes, Esq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the fact that a remedy had been introduced which was growing in favor with the public, as being better than Quinine, not knowing the difference between the two, they were disposed to take Quinine, contained the DRUG ITSELF!
This remedy, (known as "Smith's Tonic," would invariably BREAK an ague, but it did not CURE it, and would often return with renewed vigor. The one circumstance in your favor, if I could institute a test comparison between it and your CURE. The following is the result:
Three persons took your "Cure," all of which were cases of "Quintanidian Intermitting Fever," of many weeks standing. They had tried Quinine, and other remedies, occasionally missing a chill, but it was, (as in all such cases,) slowly wearing them out, and laying the foundation of other and severer ailments. I had success in securing a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic" had been used, and would, as before stated, break the chill, but after a period or two had elapsed it would return.
I think there will be no difficulty now in giving to your "Cure" the vantage ground of any other remedy now in use here, &c. &c.
WILLIAM BUCKNER, M. D.
RHODES' FEVER and AGUE CURE, or Antidote to Malaria, the only harmless remedy in existence, is equally certain as a PREVENTIVE, as a "CURE." Take it when you feel the chill coming on, and you will never have a single one.

THE SECRET INFIRMITIES OF YOUTH AND MATURITY.
Just Published, Gratis, the 25th Thousand.
A few words on the rational treatment, without Medicines, of Spermatorrhea or Local Weakness, Nocturnal Emissions, Genital and Nervous Debility, Premature Decay of the System, Impotency, and Impediments to Marriage generally.
BY B. DE LANEY, M. D.
The important fact that the many alarming complaints, originating in the imprudence and solitude of youth, may be easily removed without Medicine, in this small tract, clearly demonstrated; and the entirely new and highly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled to cure himself perfectly and at the least possible cost, thereby avoiding all the advertised nostrums of the day.
Sent to any address, gratis and post free in a sealed envelope, by remitting, postage, two postage stamps, to Dr. B. DE LANEY, 17, Liverpool Street, New York City. JUNE 28, 1857.

PHILADELPHIA MEDICAL HOUSE.
Established 20 years ago by Dr. KINKELIN, corner of Third and Union streets, between Spruce and Pine, Philadelphia, Pa.
INVALIDS
Are apprized that Dr. KINKELIN confines his practice to a particular branch of medicine, which engages his individual attention, the cautions the unfortunate against the abuse of mercury; thousands are annually mercenaryized out of life. Recent affections are promptly extinguished.
TWENTY YEARS' EXPERIENCE
In the treatment of a class of diseases hitherto neglected and imperfectly understood, has enabled Dr. KINKELIN, Author of a work on Self Preservation, to prove that nine-tenths of the causes of nervous debility, local and constitutional weakness, mental and physical suffering, arising from certain habits, forming the most secret yet very prevalent and fatal springs of domestic misery and premature mortality.
TAKE PARTICULAR NOTICE.
There is an evil habit sometimes indulged in by boys, in solitude, and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating afflictions. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable feelings, and vague fears in the mind.
The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his fits are tardy and weak, he is dull, irascible, and engages in his sport with less energy than usual.
If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this is caused by his early follies. These are considerations which should awaken the attention of those similarly situated.
MARRIAGE
Requires the fulfillment of several conditions in order that it may be really the cause of mutual happiness. Could the veil which covers the origin of domestic wretchedness be raised, and its true source in every instance disclosed, how many could be traced to physical debility, and their attendant disappointments! Apply then while it is yet time, in order to have your untraced and relaxed organization retrace, revived and strengthened.

HERRING'S PATENT
THE ACKNOWLEDGED CHAMPION!
THE recent trials at Reading have endorsed the current belief, that HERRING'S PATENT CHAMPION is confirmed the verdict of more than 200 accredited juries, proving conclusively that "Herring's" is the only safe that will not burn.
Extract from the Committee's Report on the Trial of Iron Safes at Reading:
"On the 26th of February, 1857, the members of the Committee met to witness the Safes and books and papers, (placed in them) and were perfectly satisfied that all was right.—The day following, the burning took place, under the supervision of the Committee. After a fair and impartial burning for five hours, the safe of Messrs. Evans & Watson was first opened, the safe being on fire inside, and the contents partially consumed, while the contents in the safe of Messrs. Farre & Herring were in good condition, and no fire inside."

LOTTERIES.
THE well-known Maryland Consolidated Lottery, of which B. BRADY & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honest manner, and that the interests of the public are protected in a distance as well as protected as if they themselves were present at the drawing.—Another fact which the managers call attention to, is that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the commencement comes to hand. The price of tickets is \$1, with \$1 to \$20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from \$50 to \$100,000. Orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.
