CONSUMPTION.

AND ALL DISEASES OF THE LUNGS and THTOAT are positively corable by inhalation, which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restorative of health. To be able to state confidently that Consumption is corable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable diseases; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent., for the lungs are so cut up by the disease as to bid defiance to medical shill. Even, however, in the last stages, inhalation affords extraordivary relief to the suffering attending this fearful seourge, which annually destroys ninety five thousand persons in the United States alone; and a correct calculation shows that out of the present population of the earth, eighty millions are desired to fill the consumprive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all agas it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted—By the help of that Supreme Being, from whom cometh every good and perfect gift, I am enabled to offer to the affleted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect, produced by their disposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines is perceptible in the skin a lew minutes after being inhaled, and the brastning

Three persons took your "Cure," all of which were cases of "Quotidian Intermittent Fever," of many weeks standing. They had tried Quinine, and other romedies, occasionally missing a ctill, but it was, (as in all such cases,) slowly wearing them out, and laying the foundation of other and severer maladies. I did succeed in effecting a radical cure of all three of these cases with your remety, and they have not had a chill since. are promptly extinguished.

TWENTY YEARS' EXPERIENCE In the treatment of a class of diseases hith has enabled Dr. KINKELIN, Author of a work on Solf Preservation, to prove hat nine-tenths of the causes of nervous debility, local and constitutional weakness, mental and physical suffering, are traceable to certain habits, forming the most secret yet deadly and latal springs of domestic misery and premature mortality.

TAKE PARTICULAR NOTICE,
There is an evil habit sometimes indulged in by boys, in solitude, and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating afflictions. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable feelings, and vague fears in the mind.

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak, he is dull, trresolute, and engages in his sport with less energy than usual.

OTHER BURGE.

THE undersigned having instructived the latest Paris and New York Fashions, would again beg leave to inform his numer our friends and all the world about Blooms burg, that he is now better prepared than ever to accommodate any one with the neatest easiest and best fitting suits of Clothes that have been turned out lately; and not only that, but he will also do them up in the best order, upon the lowest terms.

His shop is at the old stand, (too welknown o need further notire) where he may at all times be found, seated upon the bench of repeniance steadily drawing out the thrend of affliction, hopeing it may in the end prove advantageous to him aind his customers. How would also advise his fiends to bear in mind that poor, afflicted tailors must live, or they can't be expected to work. Therefore Wheat, Rye Corn, Oats, Potatoes, and with all now and then a little CASH will come mighty handy from those who are back-standing on the books.

CHAMFION!

THE recent trials at Reading have endorsed the current of public opinion, and confirmed the verdict of more than 200 accidental fires, proving conclusively that "Herring's" is the only safe that will not burn.

Extract from the Committee's Report on the Trial of Iron Safes at Reading:

"On the 26th of February all the members of the Committee met to wilness the Safes and books and papers, (placed in them) and were perfectly satisfied that all was right.—

The day following, the burning took place, under the superminendence of the Committee. After a fair and impartial burning for five hours, the Safe of Messrs. Evans & Walson was first opened, the Safe being on fire inside, and the contents partially consumed, while the contents in the Safe of Messrs. Farrels & Herring were in good condition, and no fire inside."

The attempt made by other penties to bofster up the reputation of a Safe which has failed signally in accidental fires in Philadelphia, (Ranstead Place,) by taking one out of an agent's store, [H. A. Lantz.] made double thickness, (different from those they sell) to "burn up?" one of Herring's, (half as thick) has met with its true reward. Herring's Safe could not be burnt, proving conclusively that the only reliable Safe now made is Herring's, of which over 15,000 are now in actuel use, and more than 200 bave been tried by fire without a single loss.

LOTTERIES.

THE well-known Maryland Consolidated Lotteries, of which R. FRANCE & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interists of parties who reside at a distance are as well protected as if they themselves were present at the drawing.—Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the mouth. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from \$1 to \$20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan,) and Ternary combination. Prizes vary in amount from \$20 to \$100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.
