Proposing Amendments to the Constitution of the Commonwealth.

RESOLVED by the Senate and House of Reposentatives of the Commonwealth of Pennylvania in General Assembly met: That the ollowing attaendments are proposed to the constitution of the commonwealth, in accorance with the provisions of the tenth article

FIRST AMENDMENT. constitution to be designated as article elev-en, as follows:—

OF PUBLIC DEBTS.

SEC. 1. The state may contract debts, to supply casual deficits or failures in revenues, or to meet expenses not otherwise provided for; but the aggregate amount of such debts direct and contingent, whether contracted by virtue of one or more acts of the general assembly, or at different periods of time, shall never exceed seven hundred and fifty thousand dollars, and the money arising from the creation of such debts, shall be applied to the purpose for which it was obtained, or to repay the debts so contracted, and to no other purpose whatever.

the purpose for which it was obtained, or to repay the debts so contracted, and to no other purpose whatever.

SEC. 2. In addition to the above limited nower the state may contract debts to repel invasion, suppress insurrection, defend the state in war, or to redeem the present outtanding indebtedness of the state; but money arising from the contracting of such debts, shall be applied to the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

SEC. 3. Except the debts above specified in sections one and two of this article, no debt whatever shall be created by, or on behalf of the State.

SEC. 4. To provide for the payment of the present debt, and any additional debt contracted as eforesaid, the legislature shall, at its first session, after the adoption of this amendment, create a sinking fund, which shall be sufficient to pay the accruing interest on such debt, and annually to reduce the principal thereof by a sum not less than two hundred and fifty thousand dollars; which sinking fund shall consist of the net annual income of the public works, from time to time owned by the state, or the proceeds of the sale of the same, or any part thereof, and of the income or proceeds of sale of stoses owned by the state, or the proceeds of the sale of the same, or any part thereof, and of the income or proceeds of sale of stoses owned by the state, or the proceeds of the sale of the same, or any part thereof, and of the income or proceeds of sale of stoses owned by the state, or the proceeds of the sale of the same, or any part thereof, and of the income or proceeds of sale of stose applied otherwise than in extinguishment of the public debt, until the amount of such debt is reduced below the sum of five mil-

CONSUMPTION, A ND ALL DISEASES OF THE LUNGS and THTOAT are positively curable by inhalation, which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, sages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restorative of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent., for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful seourge, which annually destroys ninety five thousand persons in the United States alone; and a correct calculation shows that out of the present population of the earth, eighly millions are destined to fill the consumptive's grave.

Troly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither

Truly the quiver or death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted.—By the help of that Supreme Being, from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent of a space leave in Consumption. The By the help of that Supreme Being, from whom cometh every good and perfect gift, am enabled to ofter to the affilted a permanent and speedy cure in Consumption. The first cause of tabercles is from impure blood, and the immediate effect, produced by their disposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administered through the stomach the patient will always find the lungs free and the breathing casy after inhalding remedies. True, inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the system when fainting or apparently dead. The older of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and indictiously administered through the langs, should produce the most happy results? During foul air. HERRING'S THE ACKNOWLEDGED CHAMPION!!

THE recent trials at Reading have endorsed the current of public opinion, and confirmed the verdict of more than 200 accidental fires, proving conclusively that "Herring's" is the only safe that will not burn. Extract from the Committee's Report on the Trial of Iron Safes at Reading:

"On the 26th of February all the members of the Committee met to witness the Safes

"On the 26th of February all the members of the Committee met to witness the Safes and books and papers, (placed in them) and were perfectly satisfied that all was right.—The day following, the burning took place, under the supermendence of the Committee. After a fair and impartial burning for five hours, the Safe of Messrs. Evans & Watson was first opened, the Safe being on fire inside, and the contents partially consumed, while the contents in the Safe of Messrs. Farrels & Herring were in good condition, and no fire inside."
