TO THOSE WHO WANT FARMS. A Farm within the reach of every Man.

THE RIDGWAY FARM COMPANY has has made arrangements by which all who desire to settle of purchase a home can

The Farms consist of the best lin The Farms consist of the best limestong soil of the most superior quality for farming, in a rapidly improving place, into which an extensive emigration is now pouring. The property is located in Elk Connty, Pennsylvania, in the midst of a thriving population of some 10,000. The climate la perfectly healthy, and the terrible plague of the west fever is unknown. It also has an abundance of the best quality of Coal and Iron. The price to buy it out is from \$8 to \$20 per acre, payable by installments, to be located at the time of purchasing, or a share of twonty-five acres entitling to locate the same for \$300, payable \$6 per month or 12½ acres payable \$4 per month. Discount for every sum of \$100 and under, paid in advance, and for over \$100 a dis ount of 10 per cent.

In considering the advantages of emigrating to this locality the following are presented:

to this locality the following are presented:

Fust—The soll is a rich innestone, capable
of raising the heaviest crops, owing to which
this seulement has obtained its present great

prosperity.

Skonn—It is the centre of the great North West Coal Basir, and is destined soon to become one of the greatest business | laces in the State. It will supply the great Lake market, (according to the population and travef the greatest in the Union.) It has five workable veins of the best Bituminous coal, amounting in the aggregate to over 22 feet, which makes 22 000 tons of coal under each scre. This will make the land of inestimable value. The eminent geologist Dr. Chas. T. Jackson of Boston, has made a georgical survey of the land, and analysed the coal, the iron ore and finestone. This report together with maps will be furnished to inquirers.

Fourne—Three Reilroads are laid out throthis property. The Sunbur and Ette Railroad gives us a market for our coal to the lakes—it runns from Erie to Philadelphia. A large part of the Road has been fluished, and is now in running order. A heavy force is now working from Erie towards our land in the western direction, the means for the completion of which has been rat-ed, it will soon be fluished. The Allegheny Valley Railroad connects us with New York, Boston and Pittsburg. The Venango Road connects us with the West.

There are already good Turnpiko Roads running through this property, various other roads have been opened to accommodate the emgration and settlement which has already taken place.

There is no opportunity equal to it now of-Prosperity.
SECOND-It is the centre of the great North

margation and settlement which has already taken place.

There is no opportunity equal to it now offered to the man who wants to provide himself a home in an easy way, and make a settlement where he can live in prosperity and independence in a climate Perfectly Healthy.

No case of fever ever having been known to occur in this settlement. It is not like going to the backwords of the West, smong perhaps intolerant people, where there is no society, churches, or schools, where the price of land is high, and where the emigrant, after being used to the healthrest climate in the world, has to endure sickness and pain, and perhaps ruins his health and that of his family. But here is a thriving settlement having thee towns, containing churches, schools, hotels, stores, sawmilis, grist mills, and everything desired. There milis, grist mills, and everything desired. There s a cosh market at hand. The lumber trade last year amounted to over 'we hundred million feet of lunber. In a short time, ewing to the coal, it will become still more valuable as a number of iron works and manufactories will number of iron works and manufactories will soon be started; they are at present starting them extensively at Warren.
