FOR JUDGES OF THE SUPREME COURT,

WILLIAM STRONG, JAMES THOMPSON,

NIM ROD STRICKLAND,

THE DUELLO OF WORDS.

Every Plug Ugly would delight in any kind of a fight. He is full of the animal instincts which ally man with the lower order of creation. Not only may you take Louisville, Baltimore or Washington City for an example; but the rowdy spirit can be seen in any town, eager for "a muss," and full of blood and muscle—sometimes of bad whiskey. In less refined ages this instinct delighted in gladiatorial displays of personal prowess; and in coun-tries where the animal nature is stronger than the spiritual it still takes pleasure in ball-fights and performances of that kind. Even among hot-bloods of our own the du-ello is yet well known. Therefore we say, ello is yet well known. Therefore we say, the restless, hot-blood which is so eager for a gladiatorial fray between Gen. Packer and Judge Wilmot does not ask it for the mental or moral enlightening of the public, but.

The history of the Crusades, of Popish gun-powder, meal-tub and Titus-Oates' plots, and of witch-burning in this country illustrate how this game is played by hypocrites and demagogues upon the

passionate and the simple.

Do they want cool and candid discussion?

Why then did these same men only three years ago lead their dupes into dens of midight darkness to take horrid oaths of secrecy and of eternal hostility against their huma brethren? A pretty set truly are these to ask for public discussion now. But there has been, and there will be until the election, enough discussion to gratify them, and to entighten the public on all the issues truly

in controversy.

True, there was three years ago an epi sode from the main performance to which we have alluded. We mean the prostitution of a great moral principle to the gain of political gamesters. But it is quite cer-tain that the Opposition candidate will not now discuss that pint, unless in the lagerbeer saloons in a practical way to catch

A flashy poking contracting from St. Leurence, comwho was stopping at the St. Lawrence, com-mitted the fraud. He called at the store, examined jewelry and requested that a clerk might go with him to his room at the hotel and bring the goods with him. The swindler that he prefers Tom Ford to every body politely invited the clerk to be scated, while he took the goods to the ladies' parlor to show to his wife. The eferk complied and delivered the goods to the stranger, when the latter dissappeared in the direction of the ladies' perlor. The clerk waited for a hour, and then went to hunt up the stranger, but neither goods nor purchaser have been seen subsequently. A CHARACTERISTIC TRICK .-- It is stated the Wilmot has resigned his Judgeship. We hope this is so-but why didn't he resign oner, so as to give the people of his dis triet an opportunity, at the ensuing October election, of filing the office for the period of ten years? The answer is easilly given. He has very little, if any, hope of an election to the Gubernatorial chair—consequentle cext year, when the people are constitution ally authorized to act, (which can only be done when the resignation takes place three calendar months before a general election,) Wilmot will again step forward and be elected to the Judicial office! Had he resigned sooner an election would have been held this year, and his successor commissioned will now appoint, which appointment holds good until after the election of 1858. A pretty shrewd trick on the part of the Black Republican candidate for Governor, and alto-gether characteristic of the foul party which he represent.—Lancaster Intelligencer.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevent erasure or transfer, but make it lasting as time.

For Southern Climates it is excellent, and much sugerior to any other; as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the southern states, Cuba, the West Indies and the Central American States, no public records can be kept over 29 years, written on the ordinary paper, while the oile and chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof saginst mothe, rate and other verming which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 hores power, and are able to filt all orders for paper at the shortest notice.

All orders for the paper must be addressed to A. NICHOLAS, President of the Company, No 70 Wall Street, New York.

under a rigid system, they are able to secure a perfect and uniformity in the quality tarough-out the year. This is the great Desideratum in Starch-making, and is realized now fo

out the year. This is the great Desideratum in Starch-making, and is realized now for the first time.

The very best starch that can be used, and in other, is always wanted by consumers, and while this will be supplied to them by the grocers, as soon as their customers have learned which is the best, and ask for it—otherwise they would be tikely to get that article on which the largest profit can be made.

Mr. Kingsford has been engaged in the manufacture of starch continuously for the last 27 years, and during the whole of the pariod, the starch made under his sepervision has been, beyond any question, the best in the market. For the first 17 years, be had the charge of the works of Wm. Colgate & Co., at which period he invented the process of the manufacture of corn starch.

T. KINGSFORD & SON'S.

T. KINGSFORD & SON'S OSWEGO CORN STARCH, OSWEGO CORN STARCH.

(For Puddings, &c..)
Has obtained an equal celebrity with their Starch for the Laundry. This article is perfectly pure, and as, in every respect, equal to the best Bermuda Arrow-Root, besides having additional qualities which render it invaluable for the dessert.

Potato Starch has been extensively packed and sold as Corn Starch, and has given false impressions to many, as to the real merits of our Corn Starch.

From its great delicacy and purity, it is coming also into extensive use as a diet for infants and invalids.
